

N MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

BUREAU OF LAND MANAGEMENT

WATER RESOURCES DIVISION

Water resources are a valuable asset and their management is essential for the well-being of the Nation. The Bureau of Land Management is committed to the responsible management of these resources to ensure their availability for future generations.

The following information is provided for your reference and is subject to change without notice. It is intended to provide a general overview of the current status of water resources in the region.

Water resources are managed through a variety of programs and initiatives. These include the development of water conservation programs, the implementation of water quality standards, and the protection of riparian habitats. The Bureau of Land Management works closely with other agencies and stakeholders to ensure the sustainable management of these resources.

For more information on water resources management, please contact the Bureau of Land Management at [phone number] or visit our website at [website address].

This document is prepared for your information and is not intended to constitute an offer or a contract. It is subject to the terms and conditions of the applicable laws and regulations.

The Bureau of Land Management is committed to transparency and accountability in its operations. We will continue to work to improve our management practices and provide the best possible service to the public.

Thank you for your interest in water resources management. We appreciate your feedback and suggestions.
