

NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of notice by checking below:

NOTICE OF INTENTION TO TEST CASING SHUT-OFF		NOTICE OF INTENTION TO SHOOT OR CHEMICALLY TREAT WELL	<input checked="" type="checkbox"/>
NOTICE OF INTENTION TO CHANGE PLANS		NOTICE OF INTENTION TO PULL OR OTHERWISE ALTER CASING	
NOTICE OF INTENTION TO REPAIR WELL		NOTICE OF INTENTION TO PLUG WELL	
NOTICE OF INTENTION TO DEEPEN WELL			

Eunice-Monument Field

April 17, 1950

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the The Atlantic
Refining Company State "P" Lease Well No. 2 in NW/4
 Company or Operator Lease
 of Sec. 25, T. 20S, R. 36E, N. M. P. M., Eunice-Monument Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Sweet Formation Packer set at 3770'. It is proposed to acidize below packer from 3770' to total depth of 3853' with 5000 gallons of 15% non-emulsion low surface tension acid.

Approved _____, 19____
 except as follows:

The Atlantic Refining Company
 Company or Operator

By A. M. Specht

Position District Foreman
 Send communications regarding well to

Name J. T. Callaway

Address Box 638

Denver City, Texas

OIL CONSERVATION COMMISSION

 Title _____

1. The first part of the paper is devoted to the study of the

properties of the function

$$f(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (1)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

2. In the second part, we consider the function

$$g(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (2)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

3. In the third part, we consider the function

$$h(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (3)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

4. In the fourth part, we consider the function

$$k(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (4)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

5. In the fifth part, we consider the function

$$l(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (5)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

6. In the sixth part, we consider the function

$$m(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (6)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

7. In the seventh part, we consider the function

$$n(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (7)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

8. In the eighth part, we consider the function

$$o(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (8)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

9. In the ninth part, we consider the function

$$p(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (9)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

10. In the tenth part, we consider the function

$$q(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (10)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

11. In the eleventh part, we consider the function

$$r(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (11)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

12. In the twelfth part, we consider the function

$$s(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (12)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

13. In the thirteenth part, we consider the function

$$t(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (13)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

14. In the fourteenth part, we consider the function

$$u(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (14)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

15. In the fifteenth part, we consider the function

$$v(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (15)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

16. In the sixteenth part, we consider the function

$$w(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (16)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

17. In the seventeenth part, we consider the function

$$x(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (17)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

18. In the eighteenth part, we consider the function

$$y(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (18)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.

19. In the nineteenth part, we consider the function

$$z(x) = \sum_{n=0}^{\infty} \frac{x^n}{n!} \quad (19)$$

for $x \in \mathbb{R}$. It is shown that the function is continuous and differentiable on the whole real line.
