Attention Mr. Jerry Sexton

Gentlemen:

Packer Leakage Test - SEMU Drinkard Weir No. 61, Unit Letter P, Section 15,
T-20S, R-37E

In response to your letter of March 19, 1987, and our subsequent phone conversation with Evelyn Downs of your office on March 31, 1987, it is Conoco's intention to abandon the Drinkard horizon in the subject well. The well will then be placed back on production as a Blinbry producer. We anticipate receiving partner approval for this work such that it can be completed in May, 1987.

Yours very truly,
