NOTICE OF INTENTION TO ABANDON WELL.....			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. 12 is located 100 ft. from N line and 100 ft. from E line of sec. 4
21 (Twp.) 32 (Range) N.M.P.M. (Meridian)
Unincorporated (Field) Las (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this test to 7500', drilling 11" hole and cementing 8 5/8" 24# casing at 3100' with sufficient cement to circulate. We will cement 5 1/2" O.D. 14# casing at T.D. with 350 sack cement. Cement will be allowed to set 36 hours on 8 5/8" and 48 hours on oil string. All cement jobs will be tested according to regulations.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
