RE: PROPOSED ORDER NO. DC 392

Dear Mr. Macey:

I have examined the application for dual completion dated 1/2/57
for Gulf Oil Corp. J. F. Janda "F" #9 4-22-36
Operator Lease Name Well No. Unit S-T-R

and my recommendations are as follows:

This well will most likely produce oil from the Yates formation instead of gas.

The NW diagonal offset well #3 was completed in same stratigraphic zone as
this well is proposed in-and it made oil in the Yates(Jalmat Pool) instead of gas.—
J.W.R.

Mechanically OK for Jalmat gas-South Eunice Dual. If completed as Jalmat

Oil well allowable will be held up pending decision of a hearing. —E.J.F.

Yours very truly,

OIL CONSERVATION COMMISSION
