Mr. A. L. Porter, Jr.  
Director-Secretary  
New Mexico Oil  
Conservation Commission  
Santa Fe, New Mexico

Dear Sir:

Please refer to our letter from Mr. R. F. Montgomery, stating that it will be necessary for us to apply for a no-flare order from the Commission not later than 4-30-58, in the event a gas connection has not been made to our State McDonald A/C 1 "B" Well No.8 by that date.

We hereby ask that an exception to the "No-Flare" order be granted for this well. The lease on which this well is situated is in Sections 26, 35 and 36, T.22-S. R.36-E., Lea County, New Mexico.

Wells Nos. 1, 2, 3, 4, 5, 6, and 7 thru 12 have also been completed on this lease.

We have a contract with Phillips Petroleum Company, whereby they will purchase the casinghead gas from these wells as soon as they have the necessary gathering line installed and connected.

Please refer to our letter of February 27, 1958, to which we attached a copy of a letter we received from Phillips stating the project was delayed until June, 1958.

The volume of gas to be flared from State McDonald A/C 1 "B" Well No.8 is approximately 59 MCF per day. The gas-oil ratio of this well is 1397:1.

Comisiones de Comunicaciones  
Santa Fe, New Mexico

Dear Sir:

Mr. A. G. Purcell, Jr. Box 570 - Hoppe, New Mexico  
Please refer to our letter from Mr. G. H. McDonald,  
dated April 10, 1928, concerning the construction of a  
new bridge across the Rio Grande at San Juanito.  
We have been informed by the State of New Mexico  
that the new bridge will be completed in time to open  
on June 1, 1928. We have been advised that the new  
bridge will be built at a cost of \$100,000.00.  
The new bridge will be located approximately one mile  
from the old bridge, which is now in poor condition.  
The new bridge will be built of steel and will be  
approximately 100 feet long and 15 feet wide.  
The new bridge will be located approximately one mile  
from the old bridge, which is now in poor condition.  
The new bridge will be built of steel and will be  
approximately 100 feet long and 15 feet wide.

Mr. G. H. McDonald, Box 570 - Hoppe, New Mexico

approximately 100 feet long and 15 feet wide.

The distance from Phillips Petroleum Company's gathering system to our State McDonald A/C 1 "B" Lease is approximately  $\frac{1}{2}$  miles.

We enclose a plat showing the well locations, the offset ownership and location of the tank battery.

I, B. G. Howard, duly authorized agent of this Company do certify that the above statements are true and correct to the best of my knowledge.

B. G. Howard  
Superintendent
