17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The captioned well was re-completed as a dual completion well from the Blinebry and Granite Wash effective February 16, 1968. The only changes from the original dual completion other than slight depth differences, as indicated on the accompanying diagrammatic sketch, is the addition of an Otis 13/64" Type B bottom hole choke set at 5445' in the Blinebry tubing and the omission of the parallel string anchor.

IPP 38 BOPD from Granite Wash
IPF 120 BOPD from Blinebry Formation

****Note: See accompanying Diagrammatic Sketch for details of dual completion.**

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
