Attn: Mr. Jerry Sexton - Hobbs  
Mr. Joe D. Ramey - Santa Fe

Dear Sirs:

This letter is in regard to the request for an unorthodox location on our Cossatot E #2 well located in Lea County, New Mexico, Section 13, Township 22-S, Range 37-E.

The enclosed location plat shows the original location of 990' from the South Line and 990' from the West Line to be staked at the intersection of two pipeline Right-of-Ways.

We respectfully request that permission be given to move this location 100' north, to safely be able to drill and complete this well. This would make our location distance 990' from the West Line and 1090' from the South Line. We should have no conflict of interest in this request because of our Cossatot H Lease being the north offset wells in the direction of this move.

This problem was witnessed by Mr. Leslie Clements (District OCC Technical Supervisor) on 12-28-76, and verbal permission was given to continue with our location and drilling plans using the unorthodox footage that we have requested.

Sincerely,

*Teresa K. Wright*

1. Outline the acreage dedicated to the subject well by colored pencil or by hand marks on the grid below.
2. If more than one lease is dedicated to the well, outline each and identify (show acreage, interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, has the acreage been consolidated by communitization, unitization, forced-pooling, or otherwise?

☐ Yes    ☐ No    If answer is "yes" type of consolidation \_\_\_\_\_

If answer is "no" list the owners and tract descriptions which have actually been consolidated (on reverse side of this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
