516 Caples Bldg.

El Paso, Texas

Gentlemen:

A review of the records for your Moberly B 5 21-26-37  
Lease Well No. S.T.R.  
in the Rhodes Pool, which has a Gas Oil Ratio in excess  
of 100,000-1, indicates that this well should remain in the Rhodes \*  
Oil pool. The Gas Oil Ratio limit in this Pool is \_\_\_\_\_, which  
means that gas production cannot exceed top allowable for the pool multiplied  
by the Gas Oil Ratio limit for the pool.

**\* Our records reflect that the above well could also be classified as a  
Jalnet Gas Well.**

Yours very truly,

OIL CONSERVATION COMMISSION
