RE: Request for Non-Standard  
Proration Unit  
Cooper State No. 1  
SW/4 Section 2  
T-24-S, R-36-E  
Lea County, New Mexico

Gentlemen:

On June 24, 1976, I completed my No. 1 Cooper State well as a gas producer from the Yates and Seven Rivers formations in the Jalmat Gas Pool. The subject well is located 660 FSL and 1980 FWL of Section 2, T-24-S, R-36-E, Lea County. Since the two 80-acre tracts that I am dedicating to the well are located solely within the SW/4 Section 2, I am requesting that the NMOCC approve a non-standard gas spacing unit for the subject well consisting of the SW/4 Section 2.

Three copies of a plat showing the location of my well and the outline of the proposed spacing unit are enclosed.

Copies of this application and plat have also been sent to all offsetting operators. A list of these operators is as follows:

Exxon Company U.S.A.
