(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Crosby Deep #3 was temporarily abandoned March 1, 1979, because production from the well had become uncommercial. The well was producing less than 5 BOPD 30 MCFGPD, and 100+ BWPD prior to being shut in. The well is currently being evaluated for recompletion possibilities in other pay horizons. A decision should be made on the feasibility of recompletion during 1980.
