Remarks:	<p>This well was disconnected from El Paso's system Oct. 25, 1982 due to inability of the well to produce. Since that time the operator has conducted successful remedial work and has requested a reconnect of Tubb zone to same meter as used previously.</p> <p>The Yeso zone has been squeezed off, so the well is currently a dual completion in Paddock and Tubb zones.</p> <p>The Paddock is served by meter 61-165-01 and the Tubb by meter 61-164-01. The well was not produced when tied in due to being logged off with fluid.</p> <p>Site Code: 61164-6-01</p>
