Dear Mr. Small:

The New Mexico Oil Conservation Division (OCD) has completed a review of Amerada Hess Corporation's (AHC) November 21, 1995 "PIT REMEDIATION AND CLOSURE REPORT" for the Bagley SWD Facility located in Unit N, Sec 35, T11S, R33E, NMPM, Lea County, New Mexico.

The pit closure actions as contained in the above referenced document are approved.

Please be advised that OCD approval does relieve AHC of liability should remaining contaminants pose a future threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve AHC of responsibility for compliance with any other federal, state or local laws and/or regulations.

If you have any questions, please contact me at (505) 827-7154.

Sincerely,

William C. Olson

Dear Mr. Small:

The New Mexico Oil Conservation Division (OCD) has reviewed Amerada Hess Corporation's (AHC) November 21, 1995 "PIT REMEDIATION AND CLOSURE REPORT" for the Bagley SWD Facility located in Unit N, Sec 35, T11S, R33E, NMPM, Lea County, New Mexico.

The pit closure activities as contained in the above referenced document appear satisfactory. However, the document does not contain the analytical results for the blended contaminated soils which were used to backfill the pit. Please provide the OCD with this information. Submission of this information will allow the OCD to complete a review of this pit closure report.

If you have any questions, please call me at (505) 827-7154.

Sincerely,

William C. Olson
