Kurt,

I spoke with FME about this today. Turns out we used the FTP and LTP from a different (although similarly named) well. I think I need to withdraw this application and refile a new one, with the correct information because I have a new engineer's letter and will have a new mailing list as well.

Unless I hear differently from you, I am going to start the process to file a new application, which I hope to get to you soon.

Leonard: Thanks for your voicemail as well.   Sorry to have missed your call. I was on the other line with FME actually.

Thanks,

Deana

Hi Deana,

This one is also problematic. The footages for the FTP & LTP do not appear to be closer than 100/330 per the state-wide rule.

- SHL   325 FSL & 1325 FWL, SEC. 9, T24S-R35E (UNIT N)

- BHL   150 FNL & 2426 FWL, SEC. 4, T24S-R35E (UNIT 3)
- FTP   958 FSL & 2014 FWL, SEC. 9 (UNIT N) (2640 - 2014 = 626)
- LTP   150 FNL & 2126 FWL, SEC. 4 (UNIT 3) (2640 - 2126 =514)

I cannot see that you need a NSL for this well based on the above. Perhaps there is a typo somewhere or I am misunderstanding something.

Kurt
