Form C-107-B
Revised August 1, 2011

OIL CONSERVATION DIVISION
1220 S. St Francis Drive
Santa Fe, New Mexico 87505

Submit the original
application to the Santa Fe
office with one copy to the
appropriate District Office.

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: Kaiser-Francis Oil Company
OPERATOR ADDRESS: P. O. Box 21468, Tulsa, OK 74121-1468
APPLICATION TYPE:

☐ Pool Commingling ☒ Lease Commingling ☐ Pool and Lease Commingling ☐ Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE: ☒ Fee ☐ State ☐ Federal

Is this an Amendment to existing Order? ☐ Yes ☒ No If "Yes", please include the appropriate Order No. _____
Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling
☐ Yes ☒ No

(A) POOL COMMINGLING
Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production		Calculated Value of Commingled Production	Volumes

- (2) Are any wells producing at top allowables? ☐ Yes ☐ No
(3) Has all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No.
(4) Measurement type: ☐ Metering ☐ Other (Specify)
(5) Will commingling decrease the value of production? ☐ Yes ☐ No If "yes", describe why commingling should be approved

(B) LEASE COMMINGLING
Please attach sheets with the following information

- (1) Pool Name and Code. Purple Sage; Wolfcamp, Gas 98220
(2) Is all production from same source of supply? ☒ Yes ☐ No
(3) Has all interest owners been notified by certified mail of the proposed commingling? ☒ Yes ☐ No
(4) Measurement type: ☒ Metering ☐ Other (Specify)

(C) POOL and LEASE COMMINGLING
Please attach sheets with the following information

- (1) Complete Sections A and E.

(D) OFF-LEASE STORAGE and MEASUREMENT
Please attached sheets with the following information

- (1) Is all production from same source of supply? ☐ Yes ☐ No
(2) Include proof of notice to all interest owners.

(E) ADDITIONAL INFORMATION (for all application types)
Please attach sheets with the following information

- (1) A schematic diagram of facility, including legal location.
(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved.
(3) Lease Names, Lease and Well Numbers, and API Numbers.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNATURE: Charlotte Van Valkenburg TITLE: Mgr., Regulatory Compliance DATE: 12/30/2020

TYPE OR PRINT NAME Charlotte Van Valkenburg TELEPHONE NO.: 918-491-4314

E-MAIL ADDRESS: Charlotv@kfoc.net

The Loving Townsite 2021 WC 1H and 2H are currently producing on the Loving Townsite well pad. Kaiser-Francis is currently drilling The Loving Townsite WA 1H and 2H on the same pad. The royalty and working interests in the existing WC 1H/2H differ slightly from the RI/WI in the new-drill WA 1H/2H wells.

Each well will flow full well-stream into its own, unique three-phase separators. Gas from each separator will go through separate, electronic flow meters (EFM) for allocation purposes before going through a common gas sales meter provided by Sendero.

Oil from the unique, three-phase separators will flow into heater-treaters unique to each well. Once processed, oil from each of the treaters will flow into oil tanks unique to each well. Oil from the separate tanks will be pumped through separate Coriolis meters for allocation purposes before going into a common sales LACT provided by Marathon.

Water from each three-phase separator will be combined with any water being produced from the discreet heater-treaters and will pass through separate turbine meters for allocation purposes before entering common water tanks. Water from the tanks will be pumped to disposal.

Gas pulled from the tank vent and heater-treater vent lines will go through a common VRU. Vapor gas will be measured by EFM before going through the sales meter. Vapor gas will be allocated back to the wells predicated upon the well's oil production.

Working, royalty and overriding royalty interest owners are slightly different between WA and WC wells, so working and royalty interest owners are being notified. The WA and WC wells both belong to the Purple Sage field.

GUITAR GALUSHA LP, SOUTHWEST PETROLEUM COMPANY LP, or your heirs, devisees, successors, or assigns: Kaiser-Francis Oil Company intends to file an application with the New Mexico Oil Conservation Division seeking an order to surface commingle production from the following wells: Loving Townsite 2021 WC Well No. 1H, Loving Townsite 2021 WC Well No. 2H, Loving Townsite 2021 WA Well No. 1H, and Loving Townsite 2021 WA Well No. 2H. All wells have surface hole locations in the W/2 W/2 SW/4 SE/4 of Section 20, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico. The well unit for the wells is comprised of the SE/4 of Section 20 and the SW/4 of Section 21, Township 23 South, Range 28 East, NMPM. If you object to the application you must file a written objection or request for hearing with the Division within 20 days of the date this notice is published. The Division's address is 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, or <http://www.emnrd.state.nm.us/ocd/>. Failure to object will preclude you from contesting this application at a later date. The name and address of the contact party for applicant is Brendon Kushnerick, Kaiser-Francis Oil Company, P.O. Box 21468, Tulsa, Oklahoma 74121, (918) 491-4431. The well unit is located in the center of Loving, New Mexico.

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
DIVISION TO CONSIDER:**

**CASE NO. 16141
ORDER NO. R-20030**

**APPLICATION OF KAISER-FRANCIS OIL COMPANY FOR A NON-
STANDARD GAS SPACING AND PRORATION UNIT AND COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO.**

ORDER OF THE DIVISION

BY THE DIVISION:

This case came on for hearing at 8:15 a.m. May 17, 2018 and again on August 9, 2018 at Santa Fe, New Mexico before Examiner Scott A. Dawson.

NOW, on this 11th day of October 2018, the Division Director, having considered the testimony, the record and the recommendations of the Examiner,

FINDS THAT:

- (1) Due public notice has been given, and the Division has jurisdiction of this case and of the subject matter.
- (2) Cases No. 16137, 16138, 16139, 16140, and 16141 were consolidated at the hearing for testimony; however, separate orders will be issued for each case.
- (3) Kaiser-Francis Oil Company (“Kaiser-Francis” or “Applicant”), seeks approval of a non-standard 320-acre gas spacing unit and project area ("the Unit") in the Wolfcamp formation, Purple Sage; Wolfcamp Gas Pool (Pool Code 98220) underlying the SE/4 of Section 20 and the SW/4 of Section 21, all in Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico. Applicant further seeks an order pooling all uncommitted interests within the Unit.
- (4) The Unit will be dedicated to the following “proposed wells” all completed at standard well locations:

Loving Townsite 2021 WA Well No. 1H, API No. 30-015-45003

SHL: 1148 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

Case No. 16141
Order No. R-20030
Page 2 of 7

BHL: 1980 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WA Well No. 2H, API No. 30-015-45004

SHL: 948 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 660 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 1H, API No. 30-015-45005

SHL: 1188 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 2310 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 2H, API No. 30-015-45006

SHL: 908 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 330 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

(5) The proposed wells will be drilled horizontally and completed in the Wolfcamp formation [Purple Sage; Wolfcamp Gas Pool]. Said pool is subject to Special Rules promulgated in Order No. R-14262 issued in Case No. 15535 which allow 330-foot setbacks within a standard 320-acre, deep gas spacing unit. The proposed Unit will comprise two adjacent quarter sections in two separate Sections, oriented west to east.

(6) Matador Resources Company entered an appearance and was represented at the hearings. No other party appeared or otherwise opposed the granting of this application.

(7) Applicant appeared at the hearing through counsel and presented evidence to the effect that:

- (a) The Wolfcamp in this area is suitable for development by horizontal drilling.
- (b) The proposed orientation of the horizontal wells is appropriate for the Unit.
- (c) All quarter sections to be included in the Unit are expected to be productive in the Wolfcamp formation.
- (d) The proposed Unit is non-standard because it includes portions (quarter sections) of two separate Sections.

Case No. 16141
Order No. R-20030
Page 3 of 7

- (e) For the non-standard spacing unit approval, Applicant notified the operators of wells in the same pool in the quarter-sections being excluded from the Unit within both Section 20 and Section 21.
- (f) Notice by certified mail was provided to all uncommitted interest owners in the proposed Unit whose interests were evidenced by a conveyance instrument, either of record or known to Applicant when the Application was filed, and to heirs known to Applicant of deceased persons who appear as owners in such instruments.
- (g) Those potentially affected parties whose whereabouts could not be ascertained were noticed by publication as provided in Rule 19.15.4.12.B NMAC.

The Division concludes that:

(8) The non-standard unit should be approved to enable Applicant to drill horizontal wells that will efficiently produce the reserves underlying the Unit, thereby preventing waste, and protecting correlative rights.

(9) Two or more separately owned tracts are embraced within the Unit, and/or there are royalty interests and/or undivided interests in oil and gas minerals in one or more tracts included in the Unit that are separately owned.

(10) Applicant is an owner of an oil and gas working interest within the Unit. Applicant has the right to drill and proposes to drill the proposed wells to a common source of supply within the Unit at the proposed locations.

(11) There are interest owners in the Unit that have not agreed to pool their interests.

(12) To avoid the drilling of unnecessary wells, protect correlative rights, prevent waste and afford to the owner of each interest in the Unit the opportunity to recover or receive without unnecessary expense its just and fair share of hydrocarbons, this application should be approved by pooling all uncommitted interests, whatever they may be, in the oil and gas in the Wolfcamp formation within the Unit.

(13) Kaiser-Francis Oil Company should be designated the operator of the proposed wells and of the Unit.

(14) Infill wells within the Unit should be subject to Division Rules 19.15.13.9 NMAC through 19.15.13.10 NMAC and to the terms and conditions of this order.

(15) Any pooled working interest owner who does not pay its share of estimated well costs for any well in advance should have withheld from production its share of reasonable well costs of such well plus an additional 200% thereof as a reasonable charge

Case No. 16141
Order No. R-20030
Page 4 of 7

for the risk involved in drilling the well.

(16) Reasonable charges for supervision (combined fixed rates) should be fixed at \$8,000 per month, per well, while drilling and \$800 per month, per well, while producing, provided that these rates should be adjusted annually pursuant to the COPAS form titled "Accounting Procedure-Joint Operations."

IT IS THEREFORE ORDERED THAT:

(1) A 320-acre (more or less) non-standard gas spacing unit and project area ("the Unit") is hereby established for oil and gas production from the Wolfcamp formation, Purple Sage; Wolfcamp Gas (Pool Code 98220) underlying the SE/4 of Section 20 and the SW/4 of Section 21, all in Township 23 South, Range 28 East, NMPM, in Eddy County, New Mexico.

(2) Pursuant to the application of Kaiser-Francis Oil Company, all uncommitted interests whatever they may be, in the oil and gas in the Wolfcamp formation underlying the Unit are hereby pooled.

(3) The Unit shall be dedicated to the following "proposed wells" all completed at standard well locations:

Loving Townsite 2021 WA Well No. 1H, API No. 30-015-45003

SHL: 1148 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 1980 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WA Well No. 2H, API No. 30-015-45004

SHL: 948 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 660 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 1H, API No. 30-015-45005

SHL: 1188 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 2310 feet from the South line and 2310 feet from the West line
Unit K of Section 20, Township 23 South, Range 28 East, NMPM.

Loving Townsite 2021 WC Well No. 2H, API No. 30-015-45006

SHL: 908 feet from the South line and 2499 feet from the East line,
Unit O of Section 20, Township 23 South, Range 28 East, NMPM.

BHL: 330 feet from the South line and 2310 feet from the West line
Unit N of Section 20, Township 23 South, Range 28 East, NMPM.

Case No. 16141
Order No. R-20030
Page 5 of 7

(4) The operator of the Unit shall commence drilling the proposed wells on or before October 31, 2019 and shall thereafter continue drilling the wells with due diligence to test the Wolfcamp formation.

(5) In the event the operator does not commence drilling at least one of the proposed wells on or before October 31, 2019, Ordering Paragraphs (1) and (2) shall be of no effect, unless the operator obtains a time extension from the Division Director for good cause demonstrated by satisfactory evidence.

(6) If at least one of the proposed wells is not drilled and completed within 120 days after commencement of drilling, then Ordering Paragraphs (1) and (2) shall be of no further effect, and the Unit shall terminate unless operator requests in writing an extension of the time for completion of the proposed wells for good cause shown by satisfactory evidence and the Division issues written approval.

(7) Upon final plugging and abandonment of the proposed wells and any other well drilled on the Unit pursuant to Division Rule 19.15.13.9 NMAC, the pooled unit created by this order shall terminate unless this order has been amended to authorize further operations.

(8) Infill wells within the Unit shall be subject to the terms and conditions of this order.

(9) Kaiser-Francis Oil Company (OGRID 12361) is hereby designated the operator of the wells and of the Unit.

(10) After pooling, uncommitted working interest owners are referred to as pooled working interest owners. ("Pooled working interest owners" are owners of working interests in the Unit, including unleased mineral interests, who are not parties to an operating agreement governing the Unit.) After the effective date of this order, the operator shall furnish the Division and each known pooled working interest owner in the Unit separate itemized schedules of estimated costs of drilling, completing and equipping the proposed wells ("well costs").

(11) Within 30 days from the date the schedule of estimated well costs for any well is furnished, any pooled working interest owner shall have the right to pay its share of estimated well costs to the operator in lieu of paying its share of reasonable well costs out of production as hereinafter provided, and any such owner who pays its share of estimated well costs as provided above for any well shall remain liable for operating costs but shall not be liable for risk charges to the extent computed based on costs of such well. Pooled working interest owners who elect not to pay their share of estimated well costs as provided in this paragraph for shall thereafter be referred to as "non-consenting working interest owners."

(12) The operator shall furnish the Division and each known pooled working interest owner (including non-consenting working interest owners) an itemized schedule

Case No. 16141
Order No. R-20030
Page 6 of 7

of actual well costs of each well within 90 days following completion of the proposed well. If no objection to the actual well costs for any well is received by the Division, and the Division has not objected, within 45 days following receipt of the schedule for such well, the actual well costs shall be deemed to be the reasonable well costs. If there is an objection to actual well costs within the 45-day period, the Division will determine reasonable well costs for such well after public notice and hearing.

(13) Within 60 days following determination of reasonable well costs for any well, any pooled working interest owner who has paid its share of estimated costs of such well in advance as provided above shall pay to the operator its share of the amount that reasonable well costs exceed estimated well costs and shall receive from the operator the amount, if any, that the estimated well costs it has paid for such well exceed its share of reasonable well costs.

(14) The operator is hereby authorized to withhold the following costs and charges from each non-consenting working interest owner's share of production from each well:

- (a) the proportionate share of reasonable well costs attributable to each non-consenting working interest owner; and
- (b) as a charge for the risk involved in drilling the well, 200% of the above costs.

(15) The operator shall distribute the costs and charges withheld from production, proportionately, to the parties who advanced the well costs for such well.

(16) Reasonable charges for supervision (combined fixed rates) are hereby fixed at \$8,000 per month, per well, while drilling and \$800 per month, per well, while producing, provided that these rates shall be adjusted annually pursuant to the COPAS form titled "Accounting Procedure-Joint Operations." The operator is authorized to withhold from production from each well the proportionate share of both the supervision charges and the actual expenditures required for operating of such well, not more than what are reasonable, attributable to pooled working interest owners.

(17) Except as provided in the foregoing paragraphs, all proceeds from production from the well that are not disbursed for any reason shall be held for the account of the person or persons entitled thereto pursuant to the Oil and Gas Proceeds Payment Act (NMSA 1978 Sections 70-10-1 through 70-10-6, as amended). If not disbursed, such proceeds shall be turned over to the appropriate authority as and when required by the Uniform Unclaimed Property Act (NMSA 1978 Sections 7-8A-1 through 70-8A-31, as amended).

(18) Any unleased mineral interest shall be considered a seven-eighths (7/8) working interest and a one-eighth (1/8) royalty interest for allocating costs and charges

Case No. 16141
Order No. R-20030
Page 7 of 7

under this order. Any costs that are to be paid out of production shall be withheld only from the working interests' share of production, and no costs or charges shall be withheld from production attributable to royalty interests.

(19) Should all the parties to this compulsory pooling order reach voluntary agreement after entry of this order, this order shall thereafter be of no further effect.

(20) The operator of the wells and Unit shall notify the Division in writing of the subsequent voluntary agreement of any party subject to the compulsory pooling provisions of this order.

(21) Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

THE OIL CONSERVATION DIVISION TO
CONSIDER:**

**CASE NO. 20290
ORDER NO. R-20854**

**APPLICATION OF KAISER-FRANCIS OIL COMPANY FOR COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO.**

ORDER OF THE DIVISION

BY THE DIVISION:

This case came on for hearing at 8:15 a.m. on June 27, 2019, at Santa Fe, New Mexico, before Examiner Leonard R. Lowe.

NOW, on this 11th day of September 2019, the Division Director, having considered the testimony, the record and the recommendations of the Examiner,

FINDS THAT

- (1) Due public notice has been given and the Division has jurisdiction of this case and the subject matter.
- (2) Applicant seeks to compulsory pool all uncommitted oil and gas interests within a spacing unit, as that unit is described in the attached Exhibit "A".
- (3) Applicant seeks to dedicate the Proposed Well(s) detailed in Exhibit "A" to the Unit.
- (4) No other party appeared or otherwise opposed the case.
- (5) Applicant appeared at the hearing through counsel and presented evidence to the effect that:
 - (a) All completed well locations are expected to be standard or Applicant will apply administratively for approval of location exceptions.
 - (b) Notice by certified mail was provided to all uncommitted interest owners in the proposed Unit whose interests were evidenced by a conveyance

Case No. **20290**
Order No. R-20854
Page 2 of 8

instrument, either of record or known to Applicant when the Application was filed, and to heirs known to Applicant of deceased persons who appear as owners in such instrument.

- (c) Notice to certain affected parties was posted in a newspaper of general circulation in the county as provided in Rule 19.15.4.12.B NMAC.

The Division finds and concludes that

(6) If the location of any of the Well(s) is unorthodox when the well is completed under the spacing rules then in effect and applicable to the well, the operator must obtain a non-standard location approval prior to producing the well.

(7) Two or more separately owned tracts are embraced within the Unit, and/or there are royalty interests and/or undivided interests in oil and gas minerals in one or more tracts included in the Unit that are separately owned.

(8) Applicant is owner of an oil and gas working interest within the Unit. Applicant has the right to drill and proposes to drill the Well(s) to a common source of supply within the Unit at the described depths and location(s). Applicant should be allowed a one year period to complete at least one of the Well(s) after commencing drilling of the Well(s).

(9) There are interest owners in the Unit that have not agreed to pool their interests.

(10) To avoid the drilling of unnecessary wells, protect correlative rights, prevent waste and afford to the owner of each interest in the Unit the opportunity to recover or receive without unnecessary expense a just and fair share of hydrocarbons, this application should be approved by pooling all uncommitted interests, whatever they may be, in the oil and gas in the pooled depth interval within the Unit.

(11) To ensure protection of correlative rights, any pooled working interest owner whose address is known, and who has elected to participate under the terms of this order should be notified before the Division grants any extension of the time provided herein for commencing drilling. Any such owner may file an application, with notice to the operator, requesting that the extension be denied.

(12) Infill wells within the Unit should be subject to Division Rules 19.15.13.9 NMAC through 19.15.13.10 NMAC, and to the terms and conditions of this order.

(13) Any pooled working interest owner who does not pay its share of estimated well costs of any well should have withheld from production from such well its share of reasonable well costs plus an additional reasonable charge [see Exhibit "A"] for the risk involved in drilling the Well(s).

Case No. 20290
Order No. R-20854
Page 3 of 8

IT IS THEREFORE ORDERED THAT

(1) All uncommitted interests, whatever they may be, in the oil and gas within the spacing unit (or the portion thereof within the pooled vertical extent) described in Exhibit "A" are hereby pooled. Exhibit "A" hereto is incorporated herein by this reference and made a part of this order for all purposes.

(2) The Unit shall be dedicated to the proposed "Well(s)".

(3) If any of the Well(s) is completed at an unorthodox location under applicable rules in effect at the time such well is completed, the operator shall provide notice and apply administratively for a location exception prior to producing the well.

(4) The operator of the Unit shall commence drilling the Well(s) on or before the end of the month corresponding to the date of this order, in the year following the date of issuance of this order and shall thereafter continue drilling the Well(s) with due diligence to test the pooled formation or pooled vertical depths. The Well(s) shall be drilled approximately to the proposed true vertical and measured depths.

(5) In the event the operator does not commence drilling the Well(s) on or before the date provided in the foregoing paragraph, the compulsory pooling provision of this order shall be of no effect, unless the operator obtains a written time extension from the Division Director pursuant to a written request stating its reasons for such extension and attaching satisfactory evidence.

(6) In the event the operator does not commence completion operations within one year after commencement of drilling operations pursuant to this order, then the compulsory pooling provisions of this order shall be of no effect unless operator obtains a written time extension from the Division Director pursuant to a written request stating its reasons for such extension and attaching satisfactory evidence.

(7) The operator shall provide a copy of any request for extension of time to drill or complete any well filed with the Director pursuant to this order to each pooled working interest owner who has elected to participate in the drilling of any well that is the subject of the request. Such copy shall be sent at the same time the request is sent to the Director.

(8) Upon final plugging and abandonment of the Well(s) and any other well drilled on the Unit pursuant to Division Rule 19.15.13.9 NMAC, the pooled unit created by this order shall terminate unless this order has been amended to authorize further operations.

(9) Infill wells within the Unit shall be subject to Division Rule 19.15.13.9 NMAC and to the terms and conditions of this order.

(10) After pooling, uncommitted working interest owners are referred to as pooled working interest owners. ("Pooled working interest owners" are owners of working interests in the

Case No. **20290**
Order No. R-20854
Page 4 of 8

Unit, including unleased mineral interests, who are not parties to an operating agreement governing the Unit.) After the effective date of this order, the operator shall furnish the Division and each known pooled working interest owner in the Unit separate itemized schedules of estimated costs of drilling, completing and equipping each of the Well(s) ("well costs").

(11) Within 30 days from the date the schedule of estimated well costs for any well is furnished, any pooled working interest owner shall have the right to elect to pay its share of estimated well costs to the operator in lieu of paying its share of reasonable well costs out of production as hereinafter provided. Payment shall be rendered within 30 days after expiration of the 30-day election period and any such owner who pays its share of estimated well costs as provided above for any well shall remain liable for operating costs but shall not be liable for risk charges to the extent computed based on costs of such well. Pooled working interest owners who do not elect to pay their share of estimated well costs, or who do not render timely payment to the operator, as provided in this paragraph shall thereafter be referred to as "non-consenting working interest owners."

(12) The operator shall furnish the Division and each known pooled working interest owner (including non-consenting working interest owners) an itemized schedule of actual well costs of each well within 180 days following completion of the proposed well. If no objection to the actual well costs for any well is received by the Division, and the Division has not objected, within 45 days following receipt of the schedule for such well, the actual well costs shall be deemed to be the reasonable well costs. If there is an objection to actual well costs within the 45-day period, the Division will determine reasonable well costs for such well after public notice and hearing.

(13) Within 60 days following determination of reasonable well costs for any well, any pooled working interest owner who has paid its share of estimated costs of such well in advance as provided above shall pay to the operator its share of the amount that reasonable well costs exceed estimated well costs and shall receive from the operator the amount, if any, that the estimated well costs it has paid for such well exceed its share of reasonable well costs.

(14) The operator is hereby authorized to withhold the following costs and charges from each non-consenting working interest owner's share of production from each well:

- (a) the proportionate share of reasonable well costs attributable to the non-consenting working interest owner; and
- (b) as a charge for the risk involved in drilling the well, the percent (shown in Exhibit "A") of the above costs.

(15) During the cost recovery period, the operator shall furnish to the Division and to each known non-consenting pooled working interest owner, annually, and within 90 days after payout occurs, a schedule of all revenues attributable to each proposed well, and all charges for supervision and operating costs charged against such revenues. Operating costs shall include all reasonable costs incurred for the maintenance and operation of the well, except for "well costs"

Case No. **20290**
Order No. R-20854
Page 5 of 8

reported pursuant to prior ordering paragraphs, that are properly chargeable to the joint account pursuant to COPAS procedures. If no objection to the operating costs is received by the Division, and the Division has not objected, within 45 days following receipt of any schedule, the costs shall be deemed to be the reasonable operating costs. If there is an objection to the accuracy or reasonableness of operating costs reported within the 45-day period, the Division will determine reasonable operating costs after public notice and hearing.

(16) The operator shall distribute the costs and charges withheld from production, proportionately, to the parties who advanced the well costs for such well.

(17) Reasonable charges for supervision (combined fixed rates) are hereby fixed at the rates shown in Exhibit "A" per month, per well, while drilling and while producing, provided that these rates shall be adjusted annually pursuant to the COPAS form titled "Accounting Procedure-Joint Operations." The operator is authorized to withhold from production from each well the proportionate share of both the supervision charges and the actual expenditures required for operating of such well, not more than what are reasonable, attributable to pooled working interest owners.

(18) Except as provided in the foregoing paragraphs, all proceeds from production from the Well(s) that are not disbursed for any reason shall be held for the account of the person or persons entitled thereto pursuant to the Oil and Gas Proceeds Payment Act (NMSA 1978 Sections 70-10-1 through 70-10-6, as amended). If not sooner disbursed, such proceeds shall be turned over to the appropriate authority as and when required by the Uniform Unclaimed Property Act (NMSA 1978 Sections 7-8A-1 through 7-8A-31, as amended).

(19) Any unleased mineral interest shall be considered a seven-eighths (7/8) working interest and a one-eighth (1/8) royalty interest for allocating costs and charges under this order. Any costs that are to be paid out of production shall be withheld only from the working interests' share of production, and no costs or charges shall be withheld from production attributable to royalty interests.

(20) Should all the parties to this compulsory pooling order reach voluntary agreement after entry of this order, this order shall thereafter be of no further effect.

(21) The operator of the wells and Unit shall notify the Division in writing of the subsequent voluntary agreement of any party subject to the compulsory pooling provisions of this order.

(22) Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Exhibit "A"

Applicant: Kaiser-Francis Oil Co.
Operator: Kaiser-Francis Oil Co. (OGRID 12361)

Spacing Unit: Horizontal Gas
Building Blocks: Quarter section equivalent
Unit Size: 320 acres (more or less)
Orientation of Unit: West/East

Unit Description:
SE/4 of Section 20 and SW/4 of Section 21
Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico

Pooling this Vertical Extent: Wolfcamp Formation
Depth Severance? (Yes/No): No

Pool: Purple Sage; Wolfcamp, GAS (Pool code 98220)
Pool Spacing Unit Size: Half section
Governing Well Setbacks: Horizontal Gas Well Rules
Pool Rules: R-14262

Proximity Well/Tracts: None Included

Monthly charge for supervision: While drilling: \$8000 While producing: \$800
As the charge for risk, 200 percent of reasonable well costs.

Proposed Well(s):

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION FOR SURFACE COMMINGLING
SUBMITTED BY KAISER FRANCIS OIL COMPANY**

ORDER NO. CTB-979

ORDER

The Director of the New Mexico Oil Conservation Division ("OCD"), having considered the application and the recommendation of the OCD Engineering Bureau, issues the following Order.

FINDINGS OF FACT

1. Kaiser Francis Oil Company ("Operator") submitted a complete application to surface commingle and off-lease measure the oil and gas production ("Application") from the pools, leases, and wells identified in Exhibit A.
2. To the extent that ownership is identical, Operator submitted a certification by a licensed attorney or qualified petroleum landman that the ownership in the pools, leases, and wells to be commingled is identical as defined in 19.15.12.7(B) NMAC.
3. Operator proposed a method to allocate the oil and gas production to the pools, leases, and wells to be commingled.
4. To the extent that ownership is diverse, Operator provided notice of the Application to all persons owning an interest in the oil and gas production to be commingled, including the owners of royalty and overriding royalty interests, regardless of whether they have a right or option to take their interests in kind, and those persons either submitted a written waiver or did not file an objection to the Application.
5. Operator provided notice of the Application to the Bureau of Land Management ("BLM") or New Mexico State Land Office ("NMSLO"), as applicable.

CONCLUSIONS OF LAW

6. OCD has jurisdiction to issue this Order pursuant to the Oil and Gas Act, NMSA 1978, §§ 70-2-6, 70-2-11, 70-2-12, 70-2-16, and 70-2-17, and 19.15.12 NMAC.
7. Operator satisfied the notice requirements for the Application in accordance with 19.15.12.10(A)(2), (C)(4)(c), and (C)(4)(e) NMAC, as applicable.
8. Operator's proposed method of allocation, as modified herein, complies with 19.15.12.10(B)(1) or (C)(1) NMAC, as applicable.
9. Commingling of oil and gas production from state, federal, or tribal leases shall not commence until approved by the BLM or NMSLO, as applicable, in accordance with 19.15.12.10(B)(3) and (C)(4)(h) NMAC.

10. By granting the Application with the conditions specified below, this Order prevents waste and protects correlative rights, public health, and the environment.

ORDER

1. Operator is authorized to surface commingle and off-lease measure oil and gas production from the pools, leases, and wells identified in Exhibit A.
2. The oil and gas production for each well identified in Exhibit A shall be separated and metered prior to commingling.
3. Operator shall measure the commingled oil at a central tank battery described in Exhibit A in accordance with 19.15.18.15 NMAC or 19.15.23.8 NMAC.
4. Operator shall measure the commingled gas at a central delivery point or central tank battery described in Exhibit A in accordance with 19.15.19.9 NMAC, provided however that if the gas is flared, and regardless of whether OCD has granted an exception pursuant to 19.15.18.12(B) NMAC, Operator shall report the gas in accordance with 19.15.18.12(F) NMAC.
5. Operator shall calibrate the meters used to measure or allocate oil and gas production in accordance with 19.15.12.10(C)(2) NMAC.
6. Operator shall not commence commingling oil or gas production from state, federal, or tribal leases until approved by the BLM or NMSLO, as applicable.
7. OCD retains jurisdiction and reserves the right to modify or revoke this Order as it deems necessary to prevent waste or protect correlative rights, public health, or the environment.
