Oil Conservation Division  
1220 S. St. Francis Drive  
Santa Fe, NM 87505

**Application for administrative approval for pool/lease commingling and off-lease measurement, sales and storage of the Wolfcamp (Gas) (98220) and Bone Spring South (15011), Eddy County, NM**

Dear Sir/Madam,

Chevron U.S.A. Inc. (OGRID: 4323) seeks administrative approval for a Central Tank Battery/Off Lease Measurement Facility to commingle oil and gas production from the Purple Sage; Wolfcamp (Gas) (98220) and Culebra Bluff; Bone Spring South (15011) pools for the attached list of existing and future wells and leases drilled within the mentioned areas of diverse ownership in Sec. 14 and 23 T23S-R29E & Sec. 25 and 36, T32S-R28E, Eddy County, New Mexico. Copies of the certified C-102 for each well and facilities supporting documents are included with this notification.

Pursuant to NMAC 19.15.12.7, approved spacing units with diverse ownership are considered separate leases for commingling purposes. Chevron USA Inc. is requesting approval to commingle production according to the provisions of NMAC 19.15.12.10.C for all existing and future wells in these separate areas of diverse ownership at the Culebra Bluff Sec. 23 Central Tank Battery in UL: O, T23S-R28E. Pursuant to 19.15.12.10(C)(4)(g), Chevron USA Inc. requests authority to produce future leases with notice provided to only the interest owners of the future wells on these leases.

Names of all WIO and RIO are included with this request. All owners have been notified of this request and that each will have 20 days with which to object to the commingling request per NMOCD Rule 19.15.12.10 Surface Commingling C. (4) c.

Sincerely,

A handwritten signature in black ink, appearing to read 'Laura Becerra', with a stylized flourish at the end.

October 12, 2020

RE: Application for off lease measurement/sales/storage and surface lease and pool commingling of the Purple Sage;Wolfcamp (Gas) (98220) and Culebra Bluff; Bone Spring South (15011), Eddy County, NM; Culebra Bluff 23 Central Tank Battery

The Culebra Bluff 23 Central Tank Battery is located in the S2SE (UL: P), Sec. 23, T23S-R28E. The Culebra Bluff 26 Compressor Station is located in Section 26, T23S R28E. CB BERU wells are located in Section 14 & 23, T23S R29E. CB CAL wells are located in Section 25 & 36, T23S R28E.

This facility will be commingling new wells (quantity 10), CB CAL 25 36 STATE COM 08 401H, 402H, 403H, 302H and 303H; and CB BERU 23 14 FEE 06 401H, 402H, 403H, 301H and 302H; and are targeted to begin producing in March and May 2021 respectively.

The 401H, 402H, and 403H wells are in the Purple Sage/Wolfcamp formation and 302H and 303H wells are in the Bone Spring formation. CB BERU 23 14 FEE 06 401H, 402H, 403H wells are in the Purple Sage/Wolfcamp formation and 301H and 302H wells are in the Bone Spring formation.

Well production will be allocated based on a production curve from well tests, tested at a frequency of once every 3 days during the initial production phase before peak production is reached but not to exceed 30 days. For each well, during the plateau period and while decline rate is greater than 22%, the oil and gas production shall be allocated using a minimum of three (3) well tests per month. During the final stages of the well decline period, each well will be tested at a frequency of two (2) well tests per month when the decline rate is between 22% and 10% per month; and one (1) well test per month when the decline rate is less than 10% per month.

Santa Fe, New Mexico 87505

Submit the original application to the Santa Fe office with one copy to the appropriate District Office.

**APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)**

OPERATOR NAME: Chevron USA Inc.  
OPERATOR ADDRESS: 6301 Deauville Blvd., Midland, TX 79706  
APPLICATION TYPE:

Pool Commingling  Lease Commingling  Pool and Lease Commingling  Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE:  Fee  State  Federal

Is this an Amendment to existing Order?  Yes  No If "Yes", please include the appropriate Order No. \_\_\_\_\_  
Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling  
 Yes  No

**(A) POOL COMMINGLING**  
Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production		Calculated Value of Commingled Production	Volumes
Bone Spring - (15011)	44 API	Gravity of commingled production: 45			
Wolfcamp (Gas) - (98220)	45 API				

(2) Are any wells producing at top allowables?  Yes  No  
(3) Has all interest owners been notified by certified mail of the proposed commingling?  Yes  No.  
(4) Measurement type:  Metering  Other (Specify)  
(5) Will commingling decrease the value of production?  Yes  No If "yes", describe why commingling should be approved

**(B) LEASE COMMINGLING**  
Please attach sheets with the following information

(1) Pool Name and Code.  
(2) Is all production from same source of supply?  Yes  No  
(3) Have all interest owners been notified by certified mail of the proposed commingling?  Yes  No  
(4) Measurement type:  Metering  Other (Specify)

**(C) POOL and LEASE COMMINGLING**  
Please attach sheets with the following information

(1) Complete Sections A and E.

**(D) OFF-LEASE STORAGE and MEASUREMENT**  
Please attached sheets with the following information

(1) Is all production from same source of supply?  Yes  No  
(2) Include proof of notice to all interest owners.

**(E) ADDITIONAL INFORMATION (for all application types)**  
Please attach sheets with the following information

(1) A schematic diagram of facility, including legal location.  
(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved.  
(3) Lease Names, Lease and Well Numbers, and API Numbers.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

APPLICATION FOR COMMINGLING AT A COMMON CENTRAL TANK BATTERY Chevron U.S.A. Inc.

## Culebra Bluff Central Section 23 Tank Battery

**Oil & Gas metering:**

The central tank battery (Culebra Bluff Central 23 CTB) is located in the S2SE corner of Sec. 23, T23S-R28E. The wells from the Bone Spring Pool and the Purple Sage/Wolfcamp Pool will be commingled through a common production train (Train 1) for separation and measurement. Additionally, wells from CB BERU Section 14 & 23, T23S R29E lease and CB CAL Section 25 & 36, T23S R28E lease will also be commingled through the same production train (Train 1).

For gas, there will be a common central delivery point (CDP) gas sales at the Culebra Bluff Central gas compression station in Section 26, T23S R28E. that takes combined suction gas from Culebra Central CTB 23. This compressor station sends gas either to a High Pressure sales point (Targa) or to a gas lift system. The produced water will go to common water tanks on location and then to NGL (third party) water disposal station.

Flash gas from the Tanks & the Heated Vessels (Heated Production Separator & Heater Treater) will be compressed via the VRU/FGC system and sent through the common facility gas meter before leaving the CTB.

Oil from all wells will be sent to common oil tanks and sold through common LACT units (SN 1912E10170 and 1945E10151). All wells will be tested monthly in order to meet all federal and state requirements regardless of the phase of decline. The value of gas and oil will not be affected due to different formations as BTUs & API gravities are expected to be the same or similar.

**Gas Processing:**

Gas from Culebra Bluff Central 23 CTB will flow to the Culebra Bluff Central 26 Compressor Station. The CTB's gas will be continuously measured utilizing orifice meters fitted with EFM flow computers located at Culebra Bluff Central 23 CTB (SN 160108778 and SN 160108785) prior to entering the Compressor Station suction. Gas will be compressed and utilized for gas lift of all wells producing into Culebra Bluff Central 23 CTB. Total gas lift volumes for each well will be measured through individual well gas lift orifice meters fitted with Total Flow EFM flow computers as well as a common gas lift meter at the compressor station outlet for total gas lift volume via Total Flow EFM (SN TBD).

- CB CAL 25 36 STATE COM 08 401H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB CAL 25 36 STATE COM 08 402H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB CAL 25 36 STATE COM 08 403H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB CAL 25 36 STATE COM 08 302H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB CAL 25 36 STATE COM 08 303H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB BERU 23 14 FEE 06 401H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB BERU 23 14 FEE 06 402H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB BERU 23 14 FEE 06 403H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB BERU 23 14 FEE 06 301H gas lift meter consists of a Total Flow EFM (SN #TBD)
- CB BERU 23 14 FEE 06 302H gas lift meter consists of a Total Flow EFM (SN #TBD)

Each Sales Point will have an orifice meter fitted with an EFM flow computer.

- Culebra Bluff Central 26 CS Targa Sales 1 EFM (SN TBD)
- Culebra Bluff West 26 CS Targa Sales 2 EFM (SN TBD)

APPLICATION FOR COMMINGLING AT A COMMON CENTRAL TANK BATTERY Chevron U.S.A. Inc.

Culebra Bluff Central Section 23 Tank Battery

Flaring in the event of an upset will also be measured with a thermal mass meter fitted with an EFM Flow Computer (SN TBD). This flare meter is located upstream of the common Targa sales orifice meters/FMP.

**Process and Flow Descriptions:**

The flow of production is shown in detail on the enclosed facility flow diagram and map which shows the lease boundaries, location of wells, and locations of the flow lines, facility, and gas sales meter. The commingling of this will not result in reduced royalty or improper measurement of production. The proposed commingling will reduce the surface facility footprint and overall emissions.

Chevron U.S.A. Inc. understands the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument.

Crude Statement

- Chevron will receive the same sales price for all crude production in this area, and surface commingling of these pools will not change the value of the crude sales price under current contract terms.

Gas Statement

- The commingling of gas between the captioned wells will not have an impact on the value of the production and Chevron will receive the same sales price, as the same gathering and processing fees are expected to apply to all gas production.

**Total Sales Gas from CS 26**

= CS26 Targa Check Meter 1 + CS26 Targa Check Meter 2 + Gas Lift Meter  
- Targa Buyback Meter

**Total Gas Lift** = Sum of all well gas lift meters

**CTB 23 Produced Gas** = 23 CTB Facility Gas Meters (SN: TBD + SN: TBD)

APPLICATION FOR
COMMINGLING AND OFF-LEASE STORAGE
ON STATE TRUST LANDS

This application form is required for all commingling applications requiring approval by the Commissioner of Public Lands.

Applicant: CHEVRON USA INC. OGRID #: 4323
Well Name: CB CAL 25 36 STATE COM 08 303H API #: 30-015-46635
Pool: BONE SPRING (15011)

OPERATOR NAME: CHEVRON USA INC.
OPERATOR ADDRESS: 6301 DEAUVILLE BLVD., MIDLAND, TX 79706

APPLICATION REQUIREMENTS - SUBMIT:

- 1. New Mexico Oil Conservation Division (NMOCD) application packet (or equivalent information if no application is required by NMOCD),
2. Commingling application fee of \$150.

CERTIFICATION: To the best of my knowledge,

- All business leases and rights-of-way necessary for conducting the proposed operation on State Trust lands have been applied for or obtained,
The information submitted with this application is accurate and complete, and
No loss will accrue to the state of New Mexico as a result of the proposed operation.

I also understand that no action will be taken on this application until the required information and fee are submitted to the State Land Office.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

Dear Interest Owner:

This letter will serve as notice that Chevron U.S.A. Inc. is filing an application with the New Mexico Oil Conservation Division (“NMOCD”) in Santa Fe, NM. seeking approval to commingle production from the attached list of wells and for Off-Lease Measurement, Sales & Storage at a common central tank battery.

Should your company have any objection, it must be filed in writing within twenty (20) days from the date of this notice. If the Oil Conservation Division determines the application complies with the applicable regulations, then it will be approved. The New Mexico Oil Conservation Division address is 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505, the telephone number is 505-476-3200.

Sincerely,

Kelly Rau  
Land Representative

Application of Chevron U.S.A. Inc. to authorize pool and lease commingling, off-lease storage, off lease measurement, and off-lease marketing at the Culebra Bluff 23 Central Tank Battery located in the SE/4 SE/4 (Unit P) of Section 23, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico. Pursuant to 19.15.12.7 NMAC, Chevron U.S.A. Inc. (OGRID No. 324932) seeks administrative approval for pool and lease commingling, off-lease storage, off-lease measurement, and off-lease marketing at the Culebra Bluff 23 Central Tank Battery of production from the Purple Sage; Wolfcamp Pool (Pool Code 98220), and the Culebra Bluff; Bone Spring, South Pool (Pool Code 15011), from all existing and future wells drilled in the following spacing units:

(a) The 320-acre, more or less, spacing unit in the Culebra Bluff; Bone Spring, South Pool (Pool Code 15011) underlying the W/2 W/2 of Sections 25 and 36, Township 23 South, Range 28 East. The spacing unit is currently dedicated to the CB CAL 25 36 State Com 08 #302H Well (API No. 30-015-46634);

(b) The 320-acre, more or less, spacing unit in the Culebra Bluff; Bone Spring, South Pool (Pool Code 15011) underlying the E/2 W/2 of Sections 25 and 36, Township 23 South, Range 28 East. The spacing unit is currently dedicated to the CB CAL 25 36 State Com 08 #303H Well (API No. 30-015-46635);

(c) The 640-acre, more or less, spacing unit in the Purple Sage; Wolfcamp Pool (Pool Code 98220) underlying the W/2 of Sections 25 and 36, Township 23 South, Range 28 East. The spacing unit is currently dedicated to the CB CAL 25 36 State Com 08 #401H Well (API No. 30-015-46631), the CB CAL 25 36 State Com 08 #402H Well (API No. 30-015-46632), and the CB CAL 25 36 State Com 08 #403H Well (API No. 30-015-46636);

(d) The 240-acre, more or less, spacing unit in the Culebra Bluff; Bone Spring, South Pool (Pool Code 15011) underlying the W/2 E/2 of Section 23 and the W/2 SE/4 of Section 14, Township 23 South, Range 28 East. The spacing unit is currently dedicated to the CB BERU 23 14 FEE 06 #301H Well (API No. 30-015-46926);

(e) The 240-acre, more or less, spacing unit in the Culebra Bluff; Bone Spring, South Pool (Pool Code 15011) underlying the E/2 E/2 of Section 23 and the E/2 SE/4 of Section 14, Township 23 South, Range 28 East. The spacing unit is currently dedicated to the CB BERU 23 14 FEE 06 #302H Well (API No. 30-015-46927); and

(f) The 480-acre, more or less, spacing unit in the Purple Sage; Wolfcamp Pool (Pool Code 98220), underlying the E/2 of Section 23 and the SE/4 of Section 14, Township 23 South, Range 28 East. The spacing unit is currently dedicated to the CB BERU 23 14 FEE 06 #401H Well (API No. 30-015-46928), the CB BERU 23 14 FEE 06 #402H Well (API No. 30-015-46929), and the CB BERU 23 14 FEE 06 #403H Well (API No. 30-015-46930).

Any objection to this application must be filed in writing within twenty days from date of publication with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division. If you have any questions about this application, please contact Kelly Rau, Chevron U.S.A. Inc, (713) 372-7411, Kelly.Rau@chevron.com.

Oil, Gas, & Minerals Division

STATE/FEDERAL OR  
STATE/FEDERAL/FEE  
Revised Feb. 2013

ONLINE Version  
COMMUNITIZATION AGREEMENT

Contract No. \_\_\_\_\_

THIS AGREEMENT, entered into as of the date shown in Section 10 hereof by and between the parties subscribing, ratifying, or consenting hereto, such parties being hereinafter referred to as "parties hereto,"

WITNESSETH:

WHEREAS, the Act of February 25, 1920, 41 Stat. 437, as amended and supplemented, authorizes communitization or drilling agreements communitizing or pooling a federal oil and gas lease, or any portions thereof, with other lands, whether or not owned by the United States, when separate tracts under such federal lease cannot be independently developed and operated in conformity with an established well-spacing program for the field or area, and such communitization or pooling is determined to be in the public interest; and,

WHEREAS, the Commissioner of Public Lands of the State of New Mexico, herein called "the Commissioner", is authorized to consent to and approve agreements pooling state oil and gas leases or any portion thereof, when separate tracts under such state leases cannot be independently developed and operated economically in conformity with well-spacing and gas proration rules and regulations established for the field or area and such pooling is determined to be in the public interest; and,

WHEREAS, the parties hereto own working, royalty, or other leasehold interests, or operating rights under the oil and gas leases and land subject to this agreement which cannot be independently developed and operated in conformity with the well-spacing program established for the field or area in which said lands are located; and,

WHEREAS, the parties hereto desire to communitize and pool their respective mineral interests in lands subject to this agreement for the purpose of developing and producing communitized substances in accordance with the terms and conditions of the agreement;

NOW, THEREFORE, in consideration of the premises and the mutual advantages to the parties hereto, it is mutually covenanted and agreed by and between the parties hereto as follows:

1. **The** lands covered by this agreement (hereinafter referred to as "communitized area") are described as follows:  
Subdivisions W2,  
Sect 25, 36, T 23S, R 28E, NMPM Eddy County NM  
containing 640 acres, more or less, and this agreement shall include only the  
Bone Springs and Wolfcamp Formations  
underlying said lands and the Oil and Gas (hereinafter  
referred to as "communitized substances") producible from such formation.

2. Attached hereto, and made a part of this agreement for all purposes, is Exhibit "B" designating the operator of the communitized area and showing the acreage, percentage, and ownership of oil and gas interests in all lands within the communitized area, and the authorization, if any, for communitizing or pooling any patented or fee lands within the communitized area.
3. All matters of operation shall be governed by the operator under and pursuant to the terms and provisions of this agreement. A successor operator may be designated by the owners of the working interest in the communitized area and three (3) executed copies of a designation of successor operator shall be filed with the Authorized Officer and three (3) additional executed copies thereof shall be filed with the Commissioner.
4. Operator shall furnish the Secretary of the Interior, or his authorized representative, and the Commissioner, or his authorized representative, with a log and history of any well drilled on the communitized area, monthly reports of operations, statements of oil and gas sales and royalties, and such other reports as are deemed necessary to compute monthly the royalty due the United States and the State of New Mexico, as specified in the applicable oil and gas operating regulations.
5. The communitized area shall be developed and operated as an entirety with the understanding and agreement between the parties hereto that all communitized substances produced therefrom shall be allocated among the leaseholds comprising said area in the proportion that the acreage interest of leasehold bears to the entire acreage interest committed to this agreement.
6. The royalties payable on communitized substances allocated to the individual leases comprising the communitized area and the rentals provided for in said leases shall be determined and paid on the basis prescribed in each of the individual leases. Payments of rentals under the terms of leases subject to this agreement shall not be affected by this agreement except as provided for under the terms and provisions of said leases or as may herein be otherwise provided. Except as herein modified and changed, the oil and gas leases subject to this agreement shall remain in full force and effect as originally made and issued. It is agreed that for any federal lease bearing a sliding-or step-scale rate of royalty, such rate shall be determined separately as to production from each communitization agreement to which such lease may be committed, and separately as to any noncommunitized lease production, provided, however, as to leases where the rate of royalty for gas is based on total lease production per day such rate shall be determined by the sum of all communitized production allocated to such a lease plus any noncommunitized lease production.
7. There shall be no obligation on the lessees to offset any well or wells completed in the same formation as covered by this agreement on separate component tracts into which the communitized area is now or may hereafter be divided, nor shall any lessee be required to measure separately communitized substances by reason of the diverse ownership thereof, but the lessees hereto shall not be released from their obligation to protect said communitized area from drainage of communitized substances by a well or wells which may be drilled offsetting said area.

8. The commencement, completion, continued operation or production of a well or wells for communitized substances on the communitized area shall be construed and considered as the commencement, completion, continued operation or production on each and all of the lands within and comprising said communitized area, and operations or production pursuant to this agreement shall be deemed to be operations or production as to each lease committed hereto.
9. Production of communitized substances and disposal thereof shall be in conformity with allocation, allotments, and quotas made or fixed by any duly authorized person or regulatory body under applicable Federal or State statutes. This agreement shall be subject to all applicable Federal and State laws or executive orders, rules, and regulations, and no party hereto shall suffer a forfeiture or be liable in damages for failure to comply with any of the provisions of this agreement if such compliance is prevented by, or is such failure results from, compliance with any such laws, orders, rules or regulations.
10. The date of this agreement is \_\_\_\_\_ Month \_\_\_\_\_ Day, \_\_\_\_\_ Year, and it shall become effective as of this date or from the onset of production of communitized substances, whichever is earlier upon execution of the necessary parties, notwithstanding the date of execution, and upon approval by the Secretary of Interior, or his duly authorized representative, and by the Commissioner or his duly authorized representative, and shall remain in force and effect for a period of two (2) years and so long thereafter as communitized substances are produced or can be produced from the communitized area in paying quantities; provided, that the two-year term of this agreement will not in itself serve to extend the term of any Federal lease which would otherwise expire during said period; provided further that prior to production in paying quantities from the communitized area and upon fulfillment of all requirements of the Secretary of Interior, or his duly authorized representative, and all requirements of the Commissioner, with respect to any dry hole or abandoned well, this agreement may be terminated at any time by mutual agreement of the parties hereto. This agreement shall not terminate upon cessation of the capability of production if, within sixty (60) days thereafter, reworking or drilling operations on the communitized area are commenced and are thereafter conducted and prosecuted with reasonable diligence. As to lands owned by the State of New Mexico, written notice of intention to commence such operations shall be filed with the Commissioner within thirty (30) days after the cessation of such capability of production, and a report of the status of such operations shall be made by the Operator to the Commissioner every thirty (30) days, and the cessation of such operations for more than twenty (20) consecutive days shall be considered as an abandonment of such operations as to any lease from the State of New Mexico included in this agreement.
11. The covenants herein shall be construed to be covenants running with the land with respect to the communitized interests of the parties hereto and their successors in interest until this agreement terminates, and any grant, transfer, or conveyance of any such land or interest subject hereto, whether voluntary or not, shall be and hereby is conditioned upon the assumption of all obligations hereunder by the grantee, transferee, or other successor in interest, and as to Federal lands shall be subject to approval by the Secretary of the Interior, and as to State of New Mexico lands shall be subject to approval by the Commissioner.

- 12. It is agreed by the parties hereto that the Secretary of the Interior, or his duly authorized representative, shall have the right of supervision over all operations within the communitized area to the same extent and degree as provided in the oil and gas leases under which the United States of America is lessor, and in the applicable oil and gas operating regulations of the Department of the Interior. It is further agreed between the parties hereto that the Commissioner shall have the right of supervision over all operations to the same extent and degree as provided in the oil and gas leases under which the State of New Mexico is lessor and in the applicable oil and gas statutes and regulations of the State of New Mexico.
- 13. The agreement shall be binding upon the parties hereto and shall extend to and be binding upon their respective heirs, executors, administrators, successors and assigns.
- 14. This agreement may be executed in any number of counterparts, no one of which needs to be executed by all parties, or may be ratified or consented to by separate instrument, in writing, specifically referring hereto and shall be binding upon all parties who have executed such a counterpart, ratification or consent hereto with the same force and effect as if all parties had signed the same document.
- 15. Nondiscrimination: In connection with the performance of work under this agreement, the Operator agrees to comply with all of the provisions of Section 202 (1) to (7) inclusive, of Executive Order 11246 (30 F. R. 12319), as amended which are hereby incorporated by reference in this agreement.

**IN WITNESS WHEREOF**, the parties hereto have executed this agreement as of the day and year first written and have set opposite their respective names the date of execution.

## DECLARATION OF UNIT

CB BERU 23 14 FEE 06

State of New Mexico

County of Eddy County

The undersigned, being the owners of or having the contractual right to acquire all of the working interest in and to the oil, gas, and mineral leases listed on Exhibit A—Pooled Leases (“Leases”) do, by virtue of the authority conferred in the Leases hereby pool, consolidate, combine, and unitize the Leases, insofar as the Leases cover production from the land described in Exhibit B—Unit Acreage (“Unit Acreage”) and do pool, consolidate, combine, and unitize the royalties, working interests, overriding royalties, production payments, and all other interests pertaining to the Leases and the Unit Acreage and production therefrom, insofar and only insofar as the Leases and other interests cover and include all oil, gas, and other related hydrocarbons produced from a well on the Unit (“Unitized Substances”), in and under the Unit Acreage from the subsurface interval known as the Wolfcamp and Bone Spring beneath the Unit Acreage (“Unitized Interval”), so as to form a single operating production unit known as the CB BERU 23 14 FEE, Unit No. 06 (“Unit”) for the production of Unitized Substances. As used herein, the words “include(s)” and “including” are not limiting, but are terms of enlargement so other items or components are includable although not specifically expressed.

The production of Unitized Substances from any part of the Unit Acreage, insofar as the Unit Acreage covers the Unitized Interval, will constitute production of such Unitized Substances from all of the Leases contained in the Unit. Drilling or reworking operations or other operations conducted on the Unit for the production of Unitized Substances, will constitute operations for the production of Unitized Substances on all of the Leases and Unit Acreage.

All Unitized Substances produced from any well on the Unit must be allocated proportionately among all of the tracts within the Unit in the proportion that the number of acres in each tract included in the Unit bears to the total number of acres in the Unit. All working interests, royalties, overriding royalties, production payments, and all other interests in the Leases must be computed on the basis of the respective interests in the production allocated to the tract or tracts in which those interests are owned.

All parties owning any interest in the oil, gas, and other related hydrocarbons in and under the Unit Acreage who execute this instrument or a counterpart thereof, or who ratify the same, or who hereafter acquire an interest in the Unit Acreage subject to the terms hereof, hereby adopt and confirm the creation of the Unit and agree to all of the terms hereof, and covenant that any leases or assignments affecting their interests are amended to the extent necessary to authorize the formation of the Unit and conform to all of the terms hereof. In the event the owners of the Leases, or their respective heirs, successors, or assigns, own any lease or interest in a lease covering lands within the Unit Acreage other than those listed on Exhibit A, or any unleased interest in the Unit Acreage, the same is hereby pooled into the Unit without the necessity of specifically enumerating that lease or interest and the specific land it covers. Notwithstanding anything to the contrary herein, this instrument does not cause or intend to cause any cross-assignment or cross-conveyance of any lease or interest covered hereby.

The Unit is effective as of the date this instrument is executed by all parties or from the date of first production from the Unitized Interval, whichever first occurs, and will remain in effect for a term of 3 years and so long thereafter as Unitized Substances are produced from the Unit or as long as drilling, reworking, plugging back, or sidetracking operations are conducted on any well on Unit Acreage completed in or targeted for the Unitized Interval, with no cessation of more than 60 consecutive days, and if any such operations result in the production of Unitized Substances, for so long thereafter as the same are produced, or such operations are again commenced within 60 days from the cessation of production. It will be considered that Unitized Substances are being produced in paying quantities while a well is shut-in on the Unit and the lessees of the Leases pay or tender shut-in rentals or royalties in accordance with the terms of the Leases or otherwise perpetuate the Leases pursuant to each of their respective terms and conditions.

The undersigned reserve the continuing right to amend, correct, or alter this instrument and the Unit including increasing, decreasing, or changing the configuration of the unit acreage, and relocating or changing the Unitized Interval, at any time and from time to time after the original formation hereof. Any such amendment must be in writing, signed by the parties bound hereby and filed for record in the Eddy County, New Mexico.

For convenience, this instrument may be executed in multiple counterparts, with each separate counterpart constituting a valid and binding instrument. Each of the undersigned agree that for recording purposes their respective signature pages and acknowledgements may be removed from their respective counterpart and attached to a single Declaration of Unit.

IN WITNESS WHEREOF, this Declaration of Unit is executed by the undersigned on the respective dates set opposite their names below, but is effective as of the date hereinabove provided.

---

Good afternoon Dean,

We have had some major changes here at Chevron and Laura no longer works for our department. I am catching up on everything she was working, so apologies on the late response.

Below, I have addressed your questions in red and have attached additional documentation.

Please let me know if you have any questions.

Thank you.

Kayla

**Subject:** **[\*\*EXTERNAL\*\*]** surface commingling application PLC-711

Hello Ms. Becerra,

I am reviewing the surface commingling application for the Culebra Bluff Sec 23 CTB (PLC-711) operated by Chevron USA, Inc. (4323).

Please submit the CA packets for the W/2 of Sec 25 and 36.

**Document attached.**

Please confirm that pooling agreements are either in place or unneeded for the SE/4 of sec 14 and E/2 of Sec 23.

**Document attached.**

Please provide an estimated BTU value of the gas from these pools.

**Estimated BTU Value: 1350-1500 BTU/ft3**

Please provide the quarter quarter that the Culebra Bluff 26 Compressor Station is located in.

**Quarter: SW ¼ of NE ¼ of**  
**Section: S26 T23S R28E**

Please provide the quarter quarter that the gas custody transfer meters are located in.

**Quarter:** SW ¼ of NE ¼ of

**Section:** S26 T23S R28E

Please provide a table with the noticed persons and the tracking numbers for each notice in an excel format.

Excel Form Attached.

**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION FOR SURFACE COMMINGLING  
SUBMITTED BY CHEVRON USA, INC.**

**ORDER NO. PLC-711**

**ORDER**

The Director of the New Mexico Oil Conservation Division (“OCD”), having considered the application and the recommendation of the OCD Engineering Bureau, issues the following Order.

**FINDINGS OF FACT**

1. Chevron USA, Inc. (“Operator”) submitted a complete application to surface commingle and off-lease measure the oil and gas production ("Application") from the pools, leases, and wells identified in Exhibit A.
2. To the extent that ownership is identical, Operator submitted a certification by a licensed attorney or qualified petroleum landman that the ownership in the pools, leases, and wells to be commingled is identical as defined in 19.15.12.7(B) NMAC.
3. Operator proposed a method to allocate the oil and gas production to the pools, leases, and wells to be commingled.
4. To the extent that ownership is diverse, Operator provided notice of the Application to all persons owning an interest in the oil and gas production to be commingled, including the owners of royalty and overriding royalty interests, regardless of whether they have a right or option to take their interests in kind, and those persons either submitted a written waiver or did not file an objection to the Application.
5. Operator provided notice of the Application to the Bureau of Land Management (“BLM”) or New Mexico State Land Office (“NMSLO”), as applicable.
6. Operator certified the commingling of oil and gas production from the pools, leases, and wells will not in reasonable probability reduce the value of the oil and gas production to less than if it had remained segregated.
7. Operator in the notice for the Application stated that it sought authorization to add additional pools, leases, and wells and identified the parameters to make such additions.
8. Operator stated that it sought authorization to surface commingle and off-lease measure, as applicable, oil and gas production from an infill well which produces from a pool and spacing unit dedicated to a well identified in Exhibit A.
9. Operator submitted or intends to submit one or more proposed communitization agreement(s) (“Proposed Agreement(s)”) to the BLM or NMSLO, as applicable, identifying

the leases to be consolidated into a single pooled area (“Pooled Area”), as described in Exhibit B.

### **CONCLUSIONS OF LAW**

10. OCD has jurisdiction to issue this Order pursuant to the Oil and Gas Act, NMSA 1978, §§ 70-2-6, 70-2-11, 70-2-12, 70-2-16, and 70-2-17, and 19.15.12 NMAC.
11. Operator satisfied the notice requirements for the Application in accordance with 19.15.12.10(A)(2), (C)(4)(c), and (C)(4)(e) NMAC, as applicable.
12. Operator’s proposed method of allocation, as modified herein, complies with 19.15.12.10(B)(1) or (C)(1) NMAC, as applicable.
13. Commingling of oil and gas production from state, federal, or tribal leases shall not commence until approved by the BLM or NMSLO, as applicable, in accordance with 19.15.12.10(B)(3) and (C)(4)(h) NMAC.
14. Operator satisfied the notice requirements for the subsequent addition of pools, leases, and wells in the notice for the Application, in accordance with 19.15.12.10(C)(4)(g) NMAC. Subsequent additions of pools, leases, and wells within Operator’s defined parameters, as modified herein, will not, in reasonable probability, reduce the commingled production’s value or otherwise adversely affect the interest owners in the production to be added.
15. By granting the Application with the conditions specified below, this Order prevents waste and protects correlative rights, public health, and the environment.

### **ORDER**

1. Operator is authorized to surface commingle and off-lease measure oil and gas production from the pools, leases, and wells identified in Exhibit A.

Operator is authorized to surface commingle and off-lease measure, as applicable, oil and gas production from an infill well producing from the same pool and spacing unit dedicated to a well identified in Exhibit A.

2. For each Pooled Area described in Exhibit B, Operator shall submit a Proposed Agreement to the BLM or NMSLO, as applicable, prior to commencing oil and gas production. If Operator fails to submit the Proposed Agreement, this Order shall terminate on the following day.
3. No later than sixty (60) days after the BLM or NMSLO approves or denies a Proposed Agreement, Operator shall submit Form C-103 to OCD with a copy of the decision and a description of the approved lands, as applicable. If Operator withdraws or the BLM or NMSLO denies a Proposed Agreement, this Order shall terminate on the date of such action, and Operator shall cease commingling the production from the Pooled Area. If the BLM or NMSLO approves but modifies the Proposed Agreement(s), Operator shall comply with the approved Agreement(s), and no later than sixty (60) days after such decision, Operator shall submit a new surface commingle application to OCD to conform this Order with the

approved Agreement(s). If OCD denies the new surface commingle application, this Order shall terminate on the date of such action.

4. Operator shall allocate the oil and gas production to each lease within a Pooled Area in proportion to the acreage that each lease bears to the entire acreage of the Pooled Area described in Exhibit B.
5. The allocation of oil and gas production to an infill well shall be determined in the same manner as oil and gas production to the well dedicated to the pool and spacing unit.
6. The allocation of oil and gas production shall be based on the production life of each well as measured for three periods: (a) the initial production period shall be measured from the first production until the earlier of either the peak production rate or thirty (30) days after the first production; (b) the plateau period shall be measured from the end of the initial production period to the peak decline rate; and (c) the decline period shall be measured from the end of the plateau period until the well is plugged and abandoned.

During the initial production period, the oil and gas production for each well identified in Exhibit A shall be allocated using a production curve calculated from a minimum of ten (10) well tests per month, except that any day in which a well test cannot achieve an accurate result due to a temporary change in oil and gas production shall not be included in the computation of time determining the well test schedule. The production curve shall be calculated by interpolating daily production for each day using the known daily production obtained by well tests and shall use a method of interpolation that is at minimum as accurate as maintaining a constant rate of change for each day's production between the known daily production values.

During the plateau period, the oil and gas production for each well identified in Exhibit A shall be allocated using a minimum of three (3) well tests per month.

During the decline period, the oil and gas production for each well identified in Exhibit A shall be allocated as follows: (a) a minimum of three (3) well tests per month when the decline rate is greater than twenty-two percent (22%) per month; (b) a minimum of two (2) well tests per month when the decline rate is between twenty-two percent (22%) and ten percent (10%) per month; and (c) a minimum of one (1) well test per month when the decline rate is less than ten percent (10%) per month.

Upon OCD's request, Operator shall submit a Form C-103 to the OCD Engineering Bureau that contains the decline rate curve and other relevant information demonstrating the production life of a well.

Operator shall conduct a well test by separating and metering the oil and gas production from that well for either (a) a minimum of twenty-four (24) consecutive hours; or (b) a combination of nonconsecutive periods that meet the following conditions: (i) each period shall be a minimum of six (6) hours; and (ii) the total duration of the nonconsecutive periods shall be a minimum of eighteen (18) hours.

The well test requirements of this Order shall be suspended for any well shut-in for a period that continues for more than fifteen (15) days until the well commences production.

7. Operator shall measure the commingled oil at a central tank battery described in Exhibit A in accordance with 19.15.18.15 NMAC or 19.15.23.8 NMAC.
8. Operator shall measure the commingled gas at a central delivery point or central tank battery described in Exhibit A in accordance with 19.15.19.9 NMAC, provided however that if the gas is flared, and regardless of whether OCD has granted an exception pursuant to 19.15.18.12(B) NMAC, Operator shall report the gas in accordance with 19.15.18.12(F) NMAC.
9. Operator shall calibrate the meters used to measure or allocate oil and gas production in accordance with 19.15.12.10(C)(2) NMAC.
10. If the commingling of oil and gas production from any pool, lease, or well reduces the value of the commingled oil and gas production to less than if it had remained segregated, no later than sixty (60) days after the decrease in value has occurred Operator shall submit a new surface commingling application to OCD to amend this Order to remove the pool, lease, or well whose oil and gas production caused the decrease in value. If Operator fails to submit a new application, this Order shall terminate on the following day, and if OCD denies the application, this Order shall terminate on the date of such action.
11. Operator may submit an application to amend this Order to add pools, leases, and subsequently drilled wells with spacing units adjacent to or within the tracts commingled by this Order by submitting a Form C-107-B via the OCD Fee Portal in accordance with 19.15.12.10(C)(4)(g) NMAC.
12. Operator shall submit Forms C-102 and C-103 to the OCD Engineering Bureau identifying an infill well prior to commingling and off-lease measuring, as applicable, oil and gas production from an infill well with the production from another well.
13. Operator shall not commence commingling oil or gas production from state, federal, or tribal leases until approved by the BLM or NMSLO, as applicable.
14. OCD retains jurisdiction and reserves the right to modify or revoke this Order as it deems necessary to prevent waste or protect correlative rights, public health, or the environment.
