Re: Application of Centennial Resource Production, LLC, for administrative approval of an unorthodox well location for its Gordita 6 State Com #603H well in the W/2 of Sections 7 and 18, Township 22 South, Range 35 East, N.M.P.M., Lea County, New Mexico.

Dear Ms. Sandoval:

Centennial Resource Production, LLC (“Centennial”) (OGRID No. 372165) seeks administrative approval of an unorthodox well location for its **Gordita 6 State Com #603H well** (API No. 30-025-49036) to be completed within the Ojo Chiso; Bone Spring Pool (Pool Code 96553) underlying the 619.28-acre, more or less, spacing unit in the W/2 of Sections 7 and 18, Township 22 South, Range 35 East, N.M.P.M., Lea County, New Mexico.

This well is to be drilled at the following location:

- Surface location: 275 feet from the south line and 1,380 feet from the west line (Unit N) of Section 6;
- Bottom hole location: 100 feet from the south line and 2,456 feet from the west line (Unit N) of Section 18;
- First take point: 100 feet from the north line and 2,437 feet from the west line (Unit C) of Section 7;
- Last take point: 100 feet from the south line and 2,456 feet from the west line (Unit N) of Section 18.

Since this acreage is governed by the Division's statewide rules, the completed interval for the **Gordita 6 State Com #603H well** is unorthodox because the completed interval is closer than the standard offsets to the eastern boundary of the spacing unit in the E/2 of Sections 7 and 18. Approval of the unorthodox completed interval will allow Centennial to use its preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Exhibit A is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Gordita 6 State Com #603H well** encroaches on the spacing unit to the east in the E/2 of Sections 7 and 18.

Exhibit B is a land plat for Sections 7 and 18, that shows the proposed **Gordita 6 State Com #603H well** in relation to the adjoining spacing unit to the east in the E/2 of Sections 7 and 18.

Ownership is diverse between the subject spacing unit and the affected spacing unit to the east. **Exhibit C** includes the tracking information that reflects the "affected parties" were sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application. Exhibit D is a statement from a Centennial’s petroleum engineer confirming that Centennial’s requested unorthodox location is necessary due to unforeseen circumstances while drilling and to prevent wasted resources.

Your attention to this matter is appreciated.

Sincerely,

To Whom it May Concern,

Centennial Resource Production, LLC respectfully requests administrative approval on a non-standard location for the Gordita 6 State Com #603H to allow the completed interval to be less than 330 feet from the eastern boundary of the existing 619.28-acre horizontal spacing unit. This well is located in the Ojo Chiso; Bone Spring pool (96553). Due to the current spacing of the producing wells in this section, Centennial has planned the Gordita 6 State Com #601H, Gordita 6 State Com #602H, Gordita 6 State Com #603H, Tostada 18 State Com #601H and Tostada 18 State Com #602H wells with at least 900 feet of spacing between each well. This spacing pattern causes the Gordita 6 State Com #603H to be drilled less than 330 feet from the western boundary of the spacing unit. Centennial requests approval of this non-standard location to avoid causing wasted resources and reducing the production of the wells listed above.

Sincerely,

Grayson Viles
Sr. Reservoir Engineer
