ABOVE THIS TABLE FOR OCD DIVISION USE ONLY

**NEW MEXICO OIL CONSERVATION DIVISION**  
 - Geological & Engineering Bureau -  
 1220 South St. Francis Drive, Santa Fe, NM 87505

**ADMINISTRATIVE APPLICATION CHECKLIST**

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

**Applicant:** DJR Operating, LLC **OGRID Number:** 371838  
**Well Name:** Bisti #100H well **API:** pending  
**Pool:** Bisti Lower-Gallup (Oil) Pool & Basin Mancos (Gas) Pool **Pool Code:** 5890 & 97232

**SUBMIT ACCURATE AND COMPLETE INFORMATION REQUIRED TO PROCESS THE TYPE OF APPLICATION INDICATED BELOW**

- 1) **TYPE OF APPLICATION:** Check those which apply for [A]  
 A. Location - Spacing Unit - Simultaneous Dedication  
 NSL       NSP (PROJECT AREA)       NSP (PRORATION UNIT)       SD
- B. Check one only for [ I ] or [ II ]  
 [ I ] Commingling - Storage - Measurement  
 DHC    CTB    PLC    PC    OLS    OLM  
 [ II ] Injection - Disposal - Pressure Increase - Enhanced Oil Recovery  
 WFX    PMX    SWD    IPI    EOR    PPR

- 2) **NOTIFICATION REQUIRED TO:** Check those which apply.  
 A.  Offset operators or lease holders  
 B.  Royalty, overriding royalty owners, revenue owners  
 C.  Application requires published notice  
 D.  Notification and/or concurrent approval by SLO  
 E.  Notification and/or concurrent approval by BLM  
 F.  Surface owner  
 G.  For all of the above, proof of notification or publication is attached, and/or,  
 H.  No notice required

<b>FOR OCD ONLY</b>	
<input type="checkbox"/>	Notice Complete
<input type="checkbox"/>	Application Content Complete

3) **CERTIFICATION:** I hereby certify that the information submitted with this application for administrative approval is **accurate** and **complete** to the best of my knowledge. I also understand that **no action** will be taken on this application until the required information and notifications are submitted to the Division.

**Note: Statement must be completed by an individual with managerial and/or supervisory capacity.**

Adrienne Sandoval, Director  
 Oil Conservation Division  
 New Mexico Department of Energy,  
 Minerals and Natural Resources  
 1220 South Saint Francis Drive  
 Santa Fe, New Mexico 87505

**Re: Application of DJR Operating, LLC for administrative approval of a 320-acre non-standard horizontal spacing created under Division Rules 19.15.16.15 NMAC and comprised of the S/2 NW/4, the SW/4 NE/4, and the N/2 S/2 of Section 2, and the SE/4 NE/4 of Section 3, Township 25 South, Range 12 West, N.M.P.M., San Juan County, New Mexico.**

Dear Ms. Sandoval:

Pursuant to 19.15.16.15(B)(5) NMAC, DJR Operating, LLC (“DJR Operating”) (OGRID No. 371838) seeks administrative approval of a 320-acre non-standard horizontal spacing unit comprised of the S/2 NW/4, the SW/4 NE/4, and the N/2 S/2 of Section 2, and the SE/4 NE/4 of Section 3, Township 25 South, Range 12 West, N.M.P.M., San Juan County, New Mexico. The proposed non-standard spacing unit will be dedicated to the **Bisti #100H well** and be comprised of acreage within the Bisti Lower-Gallup (Oil) Pool (5890) and the Basin Mancos (Gas) Pool (97232).

Under Division Rules, 19.15.16.15(B)(3) and (4) NMAC, standard horizontal gas spacing units are comprised of 160-acre tracts, or at the operator’s option, the designated tract size for single spacing unit identified in a Division Order for a pool associated with the proposed well. Division Rule 19.15.16.15(B)(5) NMAC authorizes administrative approval of non-standard spacing units to prevent waste and protect correlative rights in conformance with the procedures provided for director approval in 19.15.15.11(B) NMAC.

DJR Operating seeks approval of this non-standard spacing unit because the **Bisti #100H well** (API No. pending) wellbore will be drilled into a Gallup sandstone reservoir containing oil as the primary hydrocarbon phase. The surrounding organic rich Mancos formation is locally mature for oil generation. While some associated gas is produced in nearly all Gallup horizontal wells, the primary phase will be liquid oil. As such, the proposed non-standard unit is based on

T 505.988.4421 F 505.983.6043  
 110 North Guadalupe, Suite 1, Santa Fe, NM 87501-1849

Alaska	Montana	Utah
Colorado	Nevada	Washington, D.C.
Idaho	New Mexico	Wyoming

the standard quarter-quarter section tracts for oil wells as identified in 19.15.16.15(B)(1) NMAC to include all 40-acre tracts that are penetrated by or within proximity of 330 feet or less of the completed interval being included in the proposed spacing unit.

The location of the completed interval for the **Bisti #100H well**, as proposed, satisfies oil well setbacks, however, since there are two points on the completed interval for the well that are less than the 660-foot setback requirement for gas wells under the Division Rules, 19.15.16.15(C)(5) NMAC, DJR Operating has separately filed an application for approval of an unorthodox well location.

**Exhibit A** is a copy of the Well Location and Acreage Dedication Plat (Form C-102) for the **Bisti #100H well** within the proposed non-standard spacing unit.

**Exhibit B** is a map showing the proposed **Bisti #100H well**; the proposed non-standard spacing unit; and the ownership of the Mancos formation underlying the proposed spacing unit and surrounding area.

The affected parties in the offsetting tracts are the same parties included in the proposed spacing unit, being Dugan Production Corporation, DJR Nominee Corporation, DJR Assets, LLC, Speerex Limited Partnership, the New Mexico State Land Office, and the Bureau of Land Management. A copy of this application with all attachments has been sent by certified mail to each affected party advising them that if they have an objection, it must be filed in writing with the Division within 20 days from the date the Division receives the application. Proof of mailing and a copy of the notice letter is attached as **Exhibit C**.

Your attention to this matter is appreciated.

Sincerely,

Kaitlyn A. Luck
