NMOCD has denied Surface Commingling Application PLC-811 for the following reason(s):

- Failure to identify and demonstrate the “leases” proposed to be commingled; “leases” is defined by 19.15.12.7 C. NMAC

The applicant may re-submit a new application addressing the above concerns. Adequate notification of the new application shall be provided.

Mr. Bankes,

For the well related to PLC-811, what “lease” is this well being allocated to? Presumably there is or intends to be a CA. Since I am unable to find record of the CA within the BLM’s site, I will need to see the CA packet.

Mr. McClure,

I have submitted the Sundry addressing the name change for 30-015-47547 (Action ID 157672).

The intended spacing for our two wells (Stevens A 13F-14E and Stevens B 13C-14D) are confirmed to be as written in the proposed commingling applications.

Thank you for your assistance in this matter.

This will be sufficient. While the BLM will need to approve of the commingling prior to commingling occurring, at this point I only need to confirm that the BLM is aware of the situation rather than confirm that they approve of the commingling.

Dean,

This was the last one we submitted. It was sent back to us with a request for additional information. We are working through several like this with them. Commingling was originally approved by them in 2002 but since their process has changed since that time, we are having to work through things with them when trying to update these old commingling approvals. It has been a slow process.

Ms. Garvis,

I am reviewing surface commingling application PLC-811 which involves a commingling project that includes the Stevens A Central Tank Battery and is operated by Burnett Oil Company, Inc. (3080).

Please confirm that the BLM has been notified of this application.

I am not finding the CA on file for the tract of land shown below. Please provide a copy of the CA packet.
