Amy,

Great story about Charles Fenny. Wish I would have won the Powerball the other day so that I could've had his kind of issue... too much money. Enjoy the weekend. Please see the attached 120-day temporary permission renewal approval for HBP-44. Please print a copy for your records. OCD will not be sending a hard copy in the mail. If you have any questions regarding this matter, please do not hesitate to contact me.

Sincerely,

Brad Jones

Hey Mr. Brad,

This is the most amazing article!

A great read!!!

Did you hear that 1 person won the entire Power Ball Lottery of 1.7 million?!

Have a great day!

Amy

Re: Request for Temporary Permission to Discharge Hydrostatic Test Water

El Paso Natural Gas Company, L.L.C. - OGRID 7046

Permit: HBP – 44

Dear Ms. Blythe:

The New Mexico Oil Conservation Division (OCD) has completed its review of El Paso Natural Gas Company, L.L.C.'s (EPNG) renewal request, dated October 4, 2023, for approval of a 120-day temporary permission to discharge small quantities of hydrostatic test wastewater generated from the testing of new transmission pipelines and/or new aboveground storage tank from facilities for the production, refinement, pipeline transmission of oil and gas or products thereof throughout the State of New Mexico, which expires on October 14, 2023. OCD acknowledges receipt of the filing fee (\$100.00) and temporary permission fee (\$50.00) with a separately mailed submittal received by OCD on October 12, 2023.

Based on the information provided in the request, temporary permission is hereby granted to EPNG for the discharge of the hydrostatic test wastewater generated from all new pipeline and/or new aboveground storage tank hydrostatic tests an operator may perform during the approved 120-day period with the following understandings and conditions:

- 1. the volume of the discharge is less than 25,000 gallons per hydrostatic test;
- 2. water from a public/municipal water supply or other OCD approved sources, by written request and analytical results, is used for each hydrostatic test;
- 3. email or written notification must be provided to the OCD 72 hours prior to each hydrostatic discharge event. The notice shall contain the following information:

El Paso Natural Gas Company, L.L.C. Permit: HBP - 44 October 13, 2023 Page 2 of 3

- a. the proposed location of hydrostatic test discharge (Section/Township/Range or GPS coordinates);
- b. the date of the proposed discharge;
- c. the volume of the proposed discharge; and
- d. the source of hydrostatic test water;
- 4. no discharge shall enter any lake, perennial stream, river, or their respective tributaries that may be seasonal;
- 5. no discharge shall occur:
 - a. where ground water is less than 10 feet below ground surface.
 - b. within 200 feet of a watercourse (19.15.2.7.W(4) NMAC), lakebed, sinkhole, or playa lake (19.15.2.7.P(4) NMAC);
 - c. within an existing wellhead protection area (19.15.2.7.W(8) NMAC);
 - d. within 500 feet of a wetland (19.15.2.7.W(9) NMAC); or
 - e. within 500 feet from the nearest permanent residence, school, hospital, institution, or church;
- 6. no discharge shall occur to a surface water body without obtaining a National Pollution Discharge Elimination Systems (NPDES) permit from the US EPA, NMED, and OCD prior to the discharge;
- 7. best management practices must be implemented to contain the discharge onsite, to ensure that the discharge does not impact adjacent property, and to control erosion;
- the discharge does not cause any fresh water supplies to be degraded or to exceed standards as set forth in Subsections A, B, and C of the 20.6.2.3103 NMAC (the Water Quality Regulations);
- EPNG shall report all unauthorized discharges, spills, leaks, and releases of hydrostatic test wastewater and conduct corrective action pursuant to the Water Quality Regulations of 20.6.2.1203 NMAC and release notification pursuant to OCD Rule 29 (19.15.29 NMAC);
- the landowner(s) of each proposed discharge and/or collection/retention or alternative discharge location must be properly notified of the activities prior to each proposed hydrostatic test event; and
- 11. a report, summarizing each test of new pipeline and/or a new aboveground storage tank with less than 25,000 gallons per hydrostatic test per discharge event performed within the approved 120-day period, shall be submitted to OCD within 45 days after the temporary permission expiration date and shall contain the following information:
 - a. the location of hydrostatic test discharge (Section/Township/Range or GPS coordinates);
 - b. the date of each discharge;
 - c. the volume of each discharge; and
 - d. the source and quality of test water (laboratory analysis, if necessary).

El Paso Natural Gas Company, L.L.C. Permit: HBP - 44 October 13, 2023 Page 3 of 3

This temporary permission shall expire 120-days after October 14, 2023. **This temporary permission will expire on February 11, 2024**. Renewal requests for a 120-day temporary permission to discharge shall be submitted forty-five (45) days prior to the expiration date. A 120-day temporary permission may be revoked or suspended for violation of any applicable provisions and/or conditions of this approval.

Please be advised that approval of this request does not relieve EPNG of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve EPNG of its responsibility to comply with any other applicable governmental authority's rules and regulations.

If there are any questions, please do not hesitate to contact me at (505) 469-7486 or brad.a.jones@emnrd.nm.gov.

Respectfully,

Brad A. Jones
