Santa Fe, NM 87004

Re: Request for Approval of Unorthodox Location  
Moore #5

Dear Mr. Lowe,

Rhombus Operating Co., Ltd is requesting the approval of the unorthodox location for the Moore #5 vertical well. Here are the details:

1. Name of Well: Moore #5
2. API No. 30-025-PENDING
3. Location: 330' FNL, 1298' FWL, Unit D, Section 25, T-11-S, R-32-E, Lea Co., NM  
Surface location and bottom hole location should be the same.
4. C-102 is attached
5. Type of Well: Oil
6. Pool Name: Moore Devonian
7. Pool Code: 47120
8. Well spacing: 40 Acres
9. The reason for the unorthodox location is that the proposed location is expected to be at the top of the structure, based on seismic data. The structures dips steeply to the west, and there is a possible fault to the west. Drilling further to the west would risk being too far down dip such that the well might miss the oil column. The proposed location is expected to be at the top of the structure and thus should capture the maximum oil reserves, thereby preventing waste.
10. The adjoining 40 acre spacing unit towards which the Moore #5 encroaches is located in Unit C (NE/4 NW/4), Section 25, T-11-S, R-32-E. Rhombus Operating Co. also operates the well in this acreage. There are three other working interest owners in this well. See the attached Affected Persons Table.

If you need any additional information, you may reach me at [greg@rhombusop.com](mailto:greg@rhombusop.com) or 720-839-2555.

Sincerely,

Greg Cielinski  
Engineer
