Silverback respectfully requests approval of a non-standard horizontal spacing unit to develop the acreage as a single unit. This will allow Silverback to use a single surface facility, consolidate roads, tanks, and pipelines, and promote effective well spacing. Consolidation to a single unit is necessary to reduce waste and will also protecting correlative rights within the

referenced horizontal spacing unit. The non-standard proration unit is necessary to maximize the recovery of oil and gas reserves from the formation underlying the N/2, S/2 of Section 11 and the S/2 of Section 11.

Exhibit A is a Form C-102 for each of the wells within the proposed non-standard horizontal spacing unit.

Exhibit B is a map showing the proposed non-standard horizontal spacing unit, including the affected offset acreage for the proposed nonstandard horizontal spacing unit.

Exhibit C is a spreadsheet listing all "affected persons" in the affected offset acreage to be noticed. Exhibit C also includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

Your attention to this matter is appreciated.

Sincerely,

A handwritten signature in black ink that reads "Fatma Abdallah". The script is cursive and fluid.
