ADMINISTRATIVE NON-STANDARD LOCATION

Administrative Order NSL – 8977

**EOG Resources, Inc. [OGRID 7377]
Osprey 10 Well No. 523H
API No. 30-025-PENDING**

Reference is made to your application received on May 7th, 2025.

Proposed Location

	Footages	Unit/Lot	Sec.	Twsp	Range	County
Surface	894 FSL & 1333 FEL	O	10	25S	34E	Lea
First Take Point	100 FSL & 2595 FEL	O	10	25S	34E	Lea
Last Take Point/ Terminus	2538 FSL & 2595 FEL	J	03	25S	34E	Lea

Proposed Horizontal Units

Description	Acres	Pool	Pool Code
W/2 E/2 Section 10 W/2 SE/4 Section 03	240	Red Hills; Bone Spring, East	97369

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(1)(a) NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal oil well a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter - quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the completed interval to any outer boundary of the horizontal spacing unit, measured along a line

Administrative Order NSL – 8977

EOG Resources, Inc.

Page 2 of 2

perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 330 feet for an **oil** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 100 feet in the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 45 feet to the western edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 10, encroachment to the E/2 W/2

Section 03, encroachment to the E/2 SW/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location in order to develop the formation efficiently and in an economic manner. Therefore, optimizing pressures related to the completion of the well to yield a higher recovery of resources all while preventing waste and protect the correlative rights within the Bone Spring formation underlying the W/2 E/2 Section 10, and the W/2 SE/4 Section 03.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Osprey 10 #523H well dedicated to the W2SE4 of Section 3 and W2E2 of Section 10, Township 25 South, Range 34 East, NMPM, Lea County, New Mexico.

Dear (Acting) Director Razatos,

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its Osprey 10 #523H well (API No. not yet assigned). The spacing unit dedicated to the well is comprised of the W2SE4 of Section 3 and W2E2 of Section 10, Township 25 South, Range 34 East, NMPM, Lea County, New Mexico and is within the Red Hills; Bone Spring, East (97369). The horizontal spacing unit for the well is approximately 240 acres and does not include proximity tracts.

This well has not yet been drilled nor approved. It is proposed to be drilled as follows:

- Surface location is located 894 feet from the South line, 1333 feet from the East line (Unit O) of Section 10,
- Bottom hole location is located 2538 feet from the South line, 2595 feet from the East line (Unit J) of Section 3,
- First take point is located 100 feet from the South line, 2595 feet from the East line (Unit O) of Section 10,
- Last take point is located 2538 feet from the South line, 2595 feet from the East line (Unit J) of Section 3.

The acreage is governed by the Division's statewide rules. The proposed completed interval is unorthodox because it will be closer than 330 feet to the western boundary. It encroaches on the spacing units in the E2SW4 of Section 3 and E2W2 of Section 10. Approval of the unorthodox

location will allow EOG to use its preferred well spacing plan for horizontal wells, which will prevent waste.

Exhibit A – Draft C-102 that shows a change in the horizontal lateral. This C-102 has been submitted to the OCD. This plat also shows the location of the proposed well, including the proposed unorthodox, completed interval. The proposed completed interval encroaches on the spacing unit/tracts to the West.

Exhibit B – Lease Cartoon showing the Osprey 10 #523H well in relation to the adjoining spacing units/tracts to the West.

Exhibit C – Certification Statement indicating that all tracts affected by this request have been reviewed, including a list of the affected parties.

Exhibit D – Provides proof that a copy of this application, including exhibits, was mailed to each affected party. This notice advises affected parties that any objection must be filed in writing with the Division within 20 days from the date the Division receives the application.

Exhibit E – Engineering Statement providing justification for the requested non-standard location.

Thank you for your attention to this matter.

Thank you,

A handwritten signature in black ink that reads "Kayla McConnell". The signature is written in a cursive, flowing style.

TO: AFFECTED PARTIES

Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Osprey 10 #523H well dedicated to the W2SE4 of Section 3 and W2E2 of Section 10, Township 25 South, Range 34 East, NMPM, Lea County, New Mexico.

Ladies and Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the New Mexico Oil Conservation Division on this date. Any objection to this application must be filed in writing within twenty days from this date with the applicant and the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division.

If you have any questions about this application, please contact the following:

Laci Stretcher
EOG Resources, Inc.

Re: EOG Resources NSL Application
Osprey 10 #523H

A non-standard location is necessary to develop the Bone Spring formation in this section efficiently and in an economic manner. A non-standard location optimizes pressures related to the completion and production drawdown of the wells and is expected to yield a higher ultimate recovery than a standard location, thereby preventing waste and protecting correlative rights.

Sincerely,

Harrison Perrin

EOG Resources
