ADMINISTRATIVE NON-STANDARD LOCATION

Administrative Order NSL – 9048

XTO Energy, Inc. [OGRID 5380] Corral 20 32 Federal Com Well No. 201H API No. 30-015-56344

Reference is made to your application received on August 6th, 2025.

Proposed Location

| | <u>Footages</u> | Unit/Lot | Sec. | Twsp | Range | County |
|------------------|--------------------|----------|------|------|-------|--------|
| Surface | 255 FNL & 524 FWL | D | 20 | 25S | 29E | Eddy |
| First Take Point | 100 FNL & 1230 FWL | D | 20 | 25S | 29E | Eddy |
| Last Take Point | 330 FSL & 1230 FWL | M | 32 | 25S | 29E | Eddy |
| Terminus | 50 FSL & 1230 FWL | M | 32 | 25S | 29E | Eddy |

Proposed Horizontal Units

| Description | Acres | Pool | Pool Code |
|-------------|-------|-----------------------|-----------|
| Section 20 | 1920 | Purple Sage; Wolfcamp | 98220 |
| Section 29 | | | |
| Section 32 | | | |

You have requested to complete this horizontal well described above in the referenced pool or formation. This well is governed by special rules R-14262, for the Purple Sage; Wolfcamp (Gas) Pool and governs wells to be located at least 330 feet from the unit outer boundary of a spacing unit and no closer than 10 feet to any quarter – quarter section line. The completed intervals of horizontal wells are to be located no closer than 330 feet to the exterior boundary of a standard 320 - acre spacing unit.

Administrative Order NSL – 9048 XTO Energy Inc.
Page 2 of 2

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of First and Last Take Points referenced above within the described Horizontal Spacing Unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 100 feet to the northern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 17, encroachment to the SW/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location as your preferred well spacing plan for horizontal wells within the Wolfcamp formation underlying the entirety of Section 20, Section 29, and Section 32. Thereby maximizing recovery of resources and preventing waste.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, Division approves this unorthodox location.

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

Albert Chang

Re: XTO Energy Inc.

Request for Administrative Approval of Unorthodox Well Location

Corral 20-32 Fed State Com 201H well All of Sections 20, 29 and 32, T25S-R29E, Eddy County, New Mexico Purple Sage; Wolfcamp [98220] API No. 30-015-56344

Dear Mr. Chang:

XTO Energy Inc. (OGRID No. 5380), pursuant to Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC and applicable special rules governing acreage and well location requirements for the Purple Sage; Wolfcamp [98220], seeks administrative approval of an unorthodox well location for its **Corral 20-32 Fed State Com 201H** well (API No. 30-015-56344), in a 1,920-acre, more or less, spacing unit underlying All of Sections 20, 29 and 32, Township 25 South, Range 29 East, Eddy County, New Mexico.

The Corral 20-32 Fed State Com 201H well is an infill well. The Corral 20-32 Fed State Com 304H is the defining well, creating the enlarged spacing unit.

The location of the Corral 20-32 Fed State Com 201H well is as follows:

- Surface location: 255' FNL and 524' FWL (Unit D) of Section 20
- First take point: 100' FNL and 1,230' FWL (Unit D) of Section 20
- Last take point: 330' FSL and 1,230' FWL (Unit M) of Section 32
- Bottom hole location: 50' FSL and 1,230' FWL (Unit M) of Section 32

Since this acreage is governed by the Division's Special Pool Rules for the Purple Sage, the interval for this well is unorthodox because the proposed first take point is closer than the standard offsets to the northern boundary of the spacing unit—thus, encroaching on the spacing units to the

north comprising the E/2 of Sections 8 and 17 (XTO's Corral 17-8 spacing unit), as well as the spacing unit comprising the S/2 of Section 8 and All of Section 17 (XTO's Corral 17 spacing unit).

XTO respectfully requests administrative approval of a non-standard location for the **Corral 20-32 Fed State Com 201H**. Approval of the unorthodox interval is necessary to allow XTO to use its preferred well spacing plan for horizontal wells in this area, which will maximize recovery and prevent waste.

Exhibit A is a Form C-102 showing that the proposed first take point of the Corral 20-32 Fed State Com 201H well encroaches on the spacing units to the north comprising the E/2 of Sections 8 and 17 (XTO's Corral 17-8 spacing unit), as well as the spacing unit comprising the S/2 of Section 8 and All of Section 17 (XTO's Corral 17 spacing unit). Also, included is the Form C-102 for the Corral 20-32 Fed Com 304H, the defining well for the spacing unit.

Exhibit B is a plat for the subject area that shows the proposed Corral 20-32 Fed State Com 201H well in relation to the offsetting adjoining spacing units to the north, which are both operated by XTO. The exhibit also identifies the other working interest owners in the offsetting adjoining spacing unit, which include: B.F. Albritton LLC, Ernie Grodi, G.E. Rogers, L.E. Oppermann, Moon Royalty LLC, Penroc Oil Corporation, Sonic Oil and Gas Inc, T.C. Energy LLC, and The Allar Company. In addition, the exhibit identifies that these are Bureau of Land Management ("BLM") leases. Accordingly, the "affected persons" are the other working interest owners and BLM.

Exhibit C is a spreadsheet listing all affected persons and includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application. The following are the affected persons:

| Type | Affected Party | Location |
|----------|---------------------------|--------------|
| | | NE/4 and S/2 |
| | | of Section 8 |
| Federal | | and All of |
| Mineral | Bureau of Land Management | Section 17, |
| Interest | Bureau of Land Management | T25S-R29E |
| | | |
| WIO | B.F. Albritton LLC | NE/4 of |
| WIO | Ernie Grodi | Section 8, |
| | G.E. Rogers | T25S-R29E |

¹ See NMAC §§ 19.15.2.7.A(8) [defining "affected persons" as, "in the absence of an operator, or with respect to an application wherein the operator of the spacing unit or identified tract is the applicant, each working interest owner"] and 19.15.4.12.A(2)(a).

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.
