Leonard,

I just heard your voicemail regarding the Buffalo Nickel wells and NSP. I am not sure where you saw the reference to State Com, but below I have provided the names of the proposed Buffalo Nickel wells. Please let me know if this answers your question or if you need any further information regarding the naming convention of the wells. Thanks,

Leonard,

I just found the tracking numbers a little difficult to read when they were in the pdf form which is why I sent the spreadsheet. I was not asking you to make the application for me, so I apologize if it came across that way. The fully compiled applications for each of the Buffalo Nickel and G W Buffalo NSPs are attached. Please let me know if you have any questions. Thanks!

The Excel spreadsheet needs to be converted over to PDF format. I tried to do it on my end by it is in Protection Mode and it will not allow me to.

Please send me a COMPLETE packet PDF for the GW Buffalo application as well.

Please create the entire application for each NSP as one PDF. I cannot make the application for you.

Leonard,

The attached should be a better version of our submission. The notice list at the end of each application has been attached in excel because I found the tracking numbers difficult to read in the PDF. Please let me know if this meets with your approval. Additionally, if you should find any similar issues with my G W Buffalo NSP applications (Bone Spring and Wolfcamp also) do not hesitate to reach out. Thanks
