RE: Administrative Order SWD-2347 - First Extension of Injection Authority

Well: Ragin Rutley SWD No. 1
Surface location: 857 feet FSL, 228 feet FEL, Unit P, Section 14, Township 20 South, Range 32 East, NMPM, Lea County, New Mexico
(Latitude: 32.5682817; Longitude: -103.7290894 NAD83)
Order Date: January 14, 2025
Injection formations: Devonian and Silurian formations, 14,463 feet – 16,263 feet.

Greetings Mr. Stone:

Reference is made to your October 20, 2025, request on behalf of Solaris Water Midstream, LLC (the current “operator”) to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after issuance of the order: January 14, 2026.

The Oil Conservation Division (“OCD”) has reviewed your correspondence. OCD has confirmed that there are no new penetrating wells drilled within the AOR since the date of issuance of this permit and that new Affected persons were notified of this extension request. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until January 14, 2027.**

SWD-2347: First Extension of Injection Authority
Solaris Water Midstream, LLC
Page 2 of 2

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order, and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

Date: 2/2/2026
