ADMINISTRATIVE NON-STANDARD LOCATION

Administrative Order NSL – 9226

**Matador Production Company [OGRID 228937]
Blue Chip 14 Federal Com Well No. 511H
API No. 30-025-54894**

Reference is made to your application received on January 2nd, 2026.

Proposed Location

	<u>Footages</u>	<u>Unit/Lot</u>	<u>Sec.</u>	<u>Twsp</u>	<u>Range</u>	<u>County</u>
Surface	955 FSL & 239 FEL	P	11	21S	32E	Lea
First Take Point	100 FNL & 1261 FEL	A	14	21S	32E	Lea
Last Take Point/ Terminus	110 FSL & 1261 FEL	P	23	21S	32E	Lea

Proposed Horizontal Spacing Unit

<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
E/2 E/2 Section 14	320	Wildcat; Wolfcamp	98033
E/2 E/2 Section 23			

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(1)(a) NMAC governs this proposed well and provides that the operator dedicate a horizontal well at a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter - quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the

Administrative Order NSL – 9226
Matador Production Company
Page 2 of 2

completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 330 feet for an **oil** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 100 feet for a well within the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 59 feet to the western edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 14, encroachment to the W/2 E/2
Section 23, encroachment to the W/2 E/2

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location to allow for the most efficient development of acreage within the Wolfcamp formation underlying the E/2 E/2 of Section 14 and the E/2 E/2 of Section 23.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

Albert C.S. Chang
Division Director
AC/lrl

**Re: Matador Production Company
Request for Administrative Approval of Unorthodox Well Location**

Blue Chip 14 Fed Com 511H well
E/2 E/2 of Sections 14 and 23, Township 21 South, Range 32 East,
Lea County, New Mexico
WC-025 G-10 S2133280; Wolfcamp [98033]
API No. 30-025-54894

Dear Mr. Chang:

Matador Production Company (OGRID No. 228937), pursuant to Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC and applicable rules governing acreage and well location requirements for the WC-025 G-10 S2133280; Wolfcamp [98033], seeks administrative approval of an unorthodox well location for its Blue Chip 14 Fed Com 511H well (API No. 30-025-54894), in a 320-acre, more or less, spacing unit underlying the E/2 E/2 of Sections 14 and 23, Township 21 South, Range 32 East, Lea County, New Mexico.

The location of the **Blue Chip 14 Fed Com 511H** well is as follows:

- Surface location: 955' FSL and 239' FEL (Unit P) of Section 11
- First take point: 100' FNL and 1,261' FEL (Unit A) of Section 14
- Last take point: 110' FSL and 1,261' FEL (Unit P) of Section 23
- Bottom location: 110' FSL and 1,261' FEL (Unit P) of Section 23

Since this acreage is governed by the Division's statewide rules, the proposed lateral for this well will be unorthodox because it is closer than the standard offsets to the western boundary of the spacing unit—thus, encroaching on the spacing unit to the west comprising the W/2 E/2 of Sections 14 and 23, T21S-R32E.

T 505.988.4421 F 505.983.6043
110 North Guadalupe, Suite 1, Santa Fe, NM 87501-1849
Mail to: P.O. Box 2208, Santa Fe, NM 87504-2208
www.hollandhart.com

Alaska	Montana	Utah
Colorado	Nevada	Washington, D.C.
Idaho	New Mexico	Wyoming

Matador requests this non-standard location because its technical team believes it will allow for the most efficient development of this acreage, thereby preventing waste. In particular, Matador plans to wine rack three Wolfcamp D wells in the E/2 of Sections 14 and 23, and therefore Matador's technical team believes the location of this Wolfcamp D well as requested will optimize the wine-racking spacing to most efficiently develop those targets and prevent waste. Matador expects the well to produce both oil and gas.

Exhibit A is a Form C-102 showing that the proposed lateral of the Blue Chip 14 Fed Com 511H well encroaches on the spacing unit to the west in the W/2 E/2 of Sections 14 and 23.

Exhibit B is a plat for the subject area that shows the proposed Blue Chip 14 Fed Com 511H well in relation to the offsetting adjoining spacing unit to the west, along with the landman statement listing the offsetting affected parties. The list identifies that these include Bureau of Land Management ("BLM") leases. Accordingly, the "affected persons" are the offsetting affected parties identified in the landman statement and the BLM.

Exhibit C is a spreadsheet listing all affected persons and includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

Your attention to this matter is appreciated.

Sincerely,

A. Raylee Starnes

Ethan Frasier
Senior Landman

December 3, 2025

VIA ONLINE FILING

Mr. Leonard R. Lowe
Engineering Bureau
New Mexico Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Re: Matador's Application for Administrative Approval of Non-Standard Location for its Blue Chip 14 Fed Com #511H (API 30-025-54894) – WC-025 G-10 S2133280; Wolfcamp (98033).

Dear Mr. Lowe,

I am writing in connection with Matador Production Company's application for non-standard location for its Blue Chip 14 Fed Com #511H (API 30-025-54894) – WC-025 G-10 S2133280; Wolfcamp (98033).

I am a landman for Matador and write to inform you that the mineral ownership in the W/2 E/2 of Sections 14 and 23, Township 21 South, Range 32 East, NMPM, Lea County, New Mexico, is comprised of entirely federal acreage (5 federal leases), all of which is leased. Attached to this letter is a breakdown of the persons/entities that Matador's title information shows owning a working interest (or whose potential interest is the subject of a pending quiet title lawsuit and therefore being noticed out of an abundance of caution) anywhere in the W/2 E/2 of Sections 14 and 23, along with the tracts in which they own (or potentially own). Also included on the attached list is the Bureau of Land Management, which owns the minerals under the federal leases.

Sincerely,

Ethan Frasier
