Re: WaterBridge Stateline LLC Request for Extension of Time to Commence Injection Operations Under Order R-23772/UIC Permit SWD-2649

Dear Oil Conservation Division:

WaterBridge Stateline LLC (“WaterBridge”) respectfully requests a one (1) year extension to commence injection operations in the FPNM SWD No. 6 (the “Well”), under Order R-23772/UIC Permit SWD-2649 (the “Order”), through April 30, 2027. This extension is being requested because, while WaterBridge is currently drilling injection wells in and around this area, this Well is on the development schedule after the current set of wells are drilled, which will be after the deadline in the Order.

In further support of this request, WaterBridge states as follows:

1. The Order was issued to WaterBridge on April 30, 2025, and authorized WaterBridge to utilize the Well as an Underground Injection Control (“UIC”) Class II well for commercial disposal of produced water into the Glorieta Sandstone.
2. Pursuant to the Order, the Division issued WaterBridge a UIC Class II permit, Permit SWD-2649.
3. WaterBridge is requesting an extension of time pursuant to UIC Permit SWD-2649, which states: “This Permit shall terminate one (1) year after the date of issuance if Permittee has not commenced injection into the Well, provided, however, that PCD may grant a single extension of no longer than one (1) year for good cause shown. Permittee shall submit a written request for an extension to OCD Engineering Bureau no later than thirty (30) days prior to the deadline for commencing injection.” UIC Permit SWD-2649, § I.A.3(a).
4. Good cause exists for WaterBridge’s request for an extension of time.

March 10, 2026

Page 2 of 3

5. WaterBridge applied for and received several injection permits for injection wells in Texas, which WaterBridge has been developing. WaterBridge currently has two rigs drilling in the Central Basin Platform area.
6. WaterBridge has a development plan for its injection wells in both New Mexico and Texas, which involves scheduled deployment of resources.
7. WaterBridge intends to drill and operate the Well as part of its overall development plan.
8. The Division entered Order R-23772 after a hearing held on June 27, 2024. WaterBridge submitted written and live testimony, as well as exhibits to support the application. No parties objected to WaterBridge's application.
9. At the hearing, the Division requested WaterBridge submit additional information and analysis in support of the application, which WaterBridge did on August 27, 2024.
10. The Division issued the Order in April 2025 after reviewing the initial and additional materials submitted by WaterBridge.
11. Both the Division and WaterBridge have devoted substantial resources to the Order and an extension of time is warranted for administrative efficiency to avoid unnecessary additional time and effort if the Order were to terminate.
12. WaterBridge has reviewed the one-half mile Area of Review (AOR) associated with this well and one new affected party was identified. *See* Exhibit A, Declaration of Reed Davis. WaterBridge's request for an extension of time was sent to the new affected party. *See* Exhibit B. No additional wells penetrating the approved injection interval have been drilled within the AOR. *See* Exhibit A, Declaration of Reed Davis.
13. WaterBridge's request for an extension of time to commence injection is timely because WaterBridge is submitting this request more than 30 days before the deadline to commence injection in the Order, which is April 30, 2026.
14. WaterBridge is also an active stakeholder in New Mexico and is committed to responsible development to address injection needs in New Mexico.

For these reasons, WaterBridge respectfully requests that R-23772 and UIC Permit SWD-2649 be amended to allow WaterBridge a one-year extension of time to commence injection into the Well, through April 30, 2027.

March 10, 2026

SELF-AFFIRMED DECLARATION OF REED DAVIS

Reed Davis hereby states and declares as follows:

1. I am over the age of 18, I am a Senior Program Manager for ALL Consulting, and I have personal knowledge of the matters stated herein. I have previously testified before the Oil Conservation Division (“Division”) and my credentials have been accepted as a matter of record.
2. I have been retained by WaterBridge Stateline LLC (“WaterBridge”).
3. My area of responsibility includes the area of Lea County in New Mexico.
4. I submit the following information in support of WaterBridge’s request for an extension of time to commence injection operations in the FPNM SWD No. 6 (the “Well”), under Order R-23772 (the “Order”).
5. I reviewed the 1/2-mile Area of Review (AOR) associated with this Well and one new affected party was identified—Abo Petroleum, LLC. I provided Abo Petroleum’s contact information to WaterBridge’s counsel for purposes of providing notice.
6. I reviewed the AOR to confirm whether any additional wells penetrating the injection interval have been drilled and no additional wells penetrating the approved injection interval have been drilled.

[Signature page follows]

I attest under penalty of perjury under the laws of the State of New Mexico that the information provided herein is correct and complete to the best of my knowledge and belief.

VIA CERTIFIED MAIL

Re: Notice of WaterBridge Stateline, LLC's Request for Extension of Time to Commence Injection Operations Under Order R-23772/SWD-2649

TO: AFFECTED PERSONS

This letter is to advise you that WaterBridge Stateline, LLC ("WaterBridge") has submitted the enclosed request to the Oil Conservation Division (the "Division") requesting an extension of time to commence injection operations in the FPNM SWD #6 well, under Order R-23772/SWD-2649. You are receiving this notice because, in preparing its extension request, WaterBridge reviewed the Area of Review associated with the FPNM SWD #6 well and identified parties that had changed since WaterBridge originally submitted its FPNM SWD #6 well application and after Order R-23772/SWD-2649 was issued by the Division.

Please let me know if you have any questions.

Sincerely,

Deana M. Bennett
Attorney for WaterBridge Stateline, LLC

Hello,

I hope you all had a nice weekend. I wanted to check in on the status of the extension requests I submitted. I imagine you all are still working through the backlog but just thought I would follow up. Also, I thought I would just confirm that because I submitted the extension requests before the orders expired, the orders won't expire during the pendency of your review? I believe that has been the standard practice but just wanted to confirm.

Thanks much as always.

Subject: Request for Extension of Time: Hearing Orders/UIC Permit for WaterBridge Cases No. 24568, 24569, and 24570

Hello,

Attached please find three requests for an extension of time to commence injection operations that I am submitting on behalf of WaterBridge Stateline LLC. Please let me know if you have any questions or if I can provide any further information.

The request for extension of time are for the following injection wells/orders:

FPNM SWD No. 1 (the "Well"), under Order R-23773/UIC Permit SWD-2645

FPNM SWD No. 3 (the "Well"), under Order R-23774/UIC Permit SWD-2648

FPNM SWD No. 6 (the "Well"), under Order R-23772/UIC Permit SWD-2649

Thanks much for your consideration of these requests.

Subject: Complete Hearing Orders/UIC Permit for WaterBridge Cases No. 24568, 24569, and 24570

We are transitioning to using a C-103 with the request attached to the NOI, but for now – submit the request package to the OCD Engineering email as previously done. Remember to have Waterbridge state the amount of time requested and remember the 30-day window requirement – that the written request be in the Engineering email or an email sent to any UIC staff member which is dated properly.

a. This Permit shall terminate one (1) year after the date of issuance if Permittee has not commenced injection into the Well, provided, however, that OCD may grant a single extension of no longer than one (1) year for good cause shown. Permittee shall submit a written request for an extension to OCD Engineering Bureau no later than thirty (30) days prior to the deadline for commencing injection.

And cc UIC (any member of the group) when you submit the request to the Engineering email. Thanks. PRG

Hi Phil,

I think Waterbridge is going to need to request an extension. I have done that by letters to the Engineering Bureau in the past but was wondering if that is still the process or is there an e-permitting process for that now? Or some other process?

Any information you have would be helpful and much appreciated.

Good afternoon, Deana, and hopefully you also enjoyed a Thankful Day of Giving. The effective date remains unchanged – the April 30th date. The fact that the content posted was incomplete does not change the findings of the orders and the obligations. If the April 30th deadline is not feasible, an extension is available noting this event. This maybe necessary as the mineral estate for the FPAM wells is BLM and they typically will (but not necessarily) defer to the OCD for issuance of an APD where the well is new and not drilled for oil and gas E&P. Please contact me should you have any questions on the content of this response. PRG

Hi Phil,

I hope you had a nice Thanksgiving. Quick question for you. Is the effective date of the orders April 30 when they were signed or is there a chance that the effective date could be November 19 since that is when the orders were essentially finalized?

Thanks,
Deana

EXTERNAL EMAIL: Please do not click any links or open any attachments unless you trust the sender and are expecting this message and know the content is safe.

Good morning, Deana. Attached are the complete hearing orders (with the corresponding UIC permits) which are listed below.

Order Number	Case Number	SWD Number	Well Name
R-23772	24570	SWD-2649	FPNM SWD No. 6
R-23773	24568	SWD-2645	FPNM SWD No. 1
R-23774	24569	SWD-2648	FPNM SWD No. 3

These have been posted in the Imaging files for both the cases and corresponding hearing orders. The SWD imaging file is being still being updated and will have the ability for linking the UIC permit with the hearing order. Please note that the special conditions include the items requested by the OCD (agreed to by WaterBridge) for the SRT prior to injection and the sampling of the formation water. There are no other changes in the content of the UIC permit. Also remind WaterBridge that if an extension of time is required that they submit the request 30-days prior to the deadline to commence injection as detailed in the UIC permit. Please contact me with any questions and thank you for your patience in this matter. PRG
