CONSERVATION DIVISION**

**APPLICATION OF SPC RESOURCES, LLC  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NOS. 20859**

**AFFIDAVIT OF NICOLE SINGER  
IN SUPPORT OF CASE NO. 20859**

Nicole Singer, of lawful age and being first duly sworn, declares as follows:

1. My name is Nicole Singer. I work for Santo Petroleum, an affiliate of SPC Resources, LLC ("SPC Resources"), as the Land and Legal Manager.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness, and my credentials in petroleum land matters have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by SPC Resources in this case, and I am familiar with the status of the lands in the subject area.
4. None of the parties proposed to be pooled in this case has indicated opposition, therefore I do not expect any opposition at the hearing.
5. **SPC Exhibit No. A-1** is a project locator map identifying the proposed horizontal spacing unit in this case that includes only fee lands. The path of the proposed wellbore for the **Betty 5-6 WCXY #2H well** is depicted by a black line.
6. **SPC Exhibit A-2** is a plat showing Sections 5 and 6, with the proposed spacing unit outlined in red and the Carlsbad city limits reflected in thick black line. This plat also reflects the city blocks and streets. There are several different colors on the map that reflect the status of

SPC's efforts to lease each tract within the spacing unit: (1) solid yellow shading reflect tracts leased by SPC; (2) hatch yellow shading reflects tracts partially leased by SPC; (3) grey shading reflects tracts leased by other working interest owners; and (4) light blue shading reflect unleased tracts.

7. SPC seeks an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 635.06-acre, more or less, horizontal well spacing unit comprised of Lots 1-4 and the S/2 N/2 (N/2 equivalent) of irregular Section 5, and Lots 1-5, the SE/4 NW/4, and the S/2 NE/4 (N/2 equivalent) of irregular Section 6, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico.

8. SPC seeks to dedicate this horizontal spacing unit to the **Betty 5-6 WCXY #2H well** (API No. pending) to be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 5 to a bottom-hole location in the SW/4 NW/4 (Lot 5) of Section 6.

9. **SPC Exhibit No. A-3** contains a draft Form C-102 for the **Betty 5-6 WCXY #2H well**.

10. This well will be located in the Purple Sage; Wolfcamp (Gas) Pool (98220).

11. The completed interval for the proposed well will comply with the setback requirements of the Special Rules for the Purple Sage Wolfcamp Pool.

12. There are no depth severances in the Wolfcamp formation.

13. **SPC Exhibit A-4** is a unit recapitulation, showing the percentage of ownership interests in the horizontal spacing unit as between the working interests and the unleased mineral interests that SPC seeks to pool in this case. SPC is also seeking to pool overriding royalty interest owners in this unit.

14. **SPC Exhibit A-5** identifies the working interest owners and their percentage of ownership interests in the proposed **Betty 5-6 WCXY #2H well**. SPC is seeking to pool the working interest owners highlighted in grey.

15. SPC has made a good faith effort to locate every working interest owner that remains to be pooled and has maintained detailed mail tracking records reflecting SPC's attempts to contact every working interest owner to provide a well proposal letter and notice of the pooling hearing.

16. SPC sent well proposal letters, together with corresponding AFEs, to the working interest owners in this case. The costs reflected in the AFEs are consistent with what other operators have incurred for drilling similar horizontal wells in the area. A copy of an example well proposal letter, along with the AFE, is attached hereto as **SPC Exhibit A-6**.

17. In addition to the well proposal letters, SPC undertook additional good faith efforts to locate and contact each uncommitted working interest owner in this proposed spacing unit. First, SPC started with the last known address of record corresponding to the leasehold owned within the unit. From there, SPC updated corporate addresses using common internet search engines and publicly available sites with phone number and address information. If the hearing notice was undeliverable, the notice was also sent via email. SPC has also maintained detailed records of follow-up emails and phone calls to every working interest owner.

18. SPC has conducted a diligent search of all public records in Eddy County, including phone directories and computer databases to locate each of the parties owning an interest in the proposed spacing unit, which includes hundreds of individual town-lot tracts.

19. SPC's contract land brokerage company, Schoeffler Energy Group, conducted the following research process to identify the mineral owners within this spacing unit:

- a. Developed a chain of title for each lot/tract from inception of the records (patent) to current using the records of: (1) Guaranty Title Company title plant in Carlsbad, NM; (2) Currier Abstract Co. title plant in Artesia, NM; and (3) Eddy County Clerk's records;
- b. Reviewed every conveyance in the chain of title for each lot/tract to identify the mineral owner(s) through time;
- c. Searched each mineral owner(s) name from his/her acquisition of the property to current in the following records: (1) Eddy County Clerk; (2) Eddy County Probate Court Clerk of Eddy County; and (3) Eddy County District Court Clerk; and
- d. If a mineral deed, probate, or other form of conveyance was found while searching the mineral owner(s) names, SPC repeated the third step for all the mineral owner(s) found.

20. Based on the research process described in the preceding paragraph, SPC's contract land brokerage company also prepared Mineral Ownership Reports ("MOR") or Limited Certificate of Title ("LTC") for each interest identified and maintained copies of every MOR/LTC on a tract-by-tract basis in each lease file or unleased mineral interest owner file.

21. SPC identified approximately 500 of unleased mineral interest owners in the proposed spacing unit. SPC maintains records of the efforts to lease each unleased mineral interest in a file that details the attempts taken to reach/identify each owner and secure a lease.

22. To ensure accurate ownership information, SPC also obtained the following:

- a. Title Opinions to current for tracts three (3) acres and larger;

- b. Title Opinions to the last dedication of a subdivision, to limit the risk of a systematic title failure, and then each tract (smaller than three acres) within the subdivision has been brought forward with an MOR or LTC;
- c. Any tract outside of a subdivision, but smaller than three acres is based on an MOR/LTC to current.

23. **SPC Exhibit No. A-7** is the letter sent to all unleased mineral interest owners offering to lease the minerals in the proposed horizontal spacing unit. This letter was often sent multiple times and to multiple possible addresses for each unleased mineral interest owner from 2017 to present after undertaking the owner identification steps outlined in paragraph 24 immediately below.

24. SPC attempted to locate mineral owners in Carlsbad by knocking on doors and leaving door hangers with information about SPC Resources leasing within the City of Carlsbad (with contact information for our local office). SPC would then send generic offer letters to identified mineral owners to the last known address of record, addresses in the Carlsbad/Eddy County phone book, from the Eddy County Assessor, and various online search tools for address and numbers. SPC also called any numbers found in the phone book or on our online search tools/websites and leave voicemails, if possible. Additionally, SPC searched various websites to identify and contact heirs (or the heirs if deceased). Finally, SPC also hired two residents who have lived in Carlsbad for many years who could assisted SPC find interest owners.

25. SPC has undertaken good faith efforts to locate and to reach an agreement with the locatable uncommitted interest owners of every tract, and SPC maintains town-lot tract files detailing the attempts taken to identify and contact each owner and secure a lease.

26. SPC will continue to work to reach a voluntary agreement with any of the proposed pooled parties, and if successful before the Division enters any order in this case, I will let the Division know that SPC is no longer seeking to pool that party.

27. SPC seeks approval of overhead and administrative costs at \$8,000/month while drilling and \$800/month while producing. These costs are consistent with what SPC and other operators are charging in this area for these types of wells. SPC respectfully requests that these administrative and overhead costs be incorporated into any order entered by the Division.

28. **SPC Exhibit No. A-8** is the letter providing notice of this hearing that SPC sent by certified mail to each of the uncommitted interest owners in this case.

29. The USPS tracking information for each of the hearing notice letters as follows:

- a. **SPC Exhibit No. A-9** contains the mailing status for the notice letters to the working interest owners;
- b. **SPC Exhibit No. A-10** contains the mailing status for the notice letters to the overriding royalty interest owners; and
- c. **SPC Exhibit No. A-11** contains the mailing status for the notice letters to the unleased mineral interest owners.

30. **SPC Exhibit No. A-12** is an Affidavit of Publication reflecting that SPC caused notice of this hearing to be published at least ten (10) business days before this hearing in the newspaper of general circulation in Eddy County.

31. **SPC Exhibits A-1 through A-12** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

N/2 of Section 5-T22S-R27E, N/2 of Section 6-T22S-R27E  
Eddy County, New Mexico

To whom it may concern,

SPC Resources, LLC ("SPC") as Operator hereby proposes to form a 635.06 acre working interest unit to include the *N/2 of Section 6 and the N/2 of Section 5, Township 22 South, Range 27 East*, for oil and gas production. The targeted interval for the proposed unit is the Wolfcamp formation. SPC hereby proposes to drill and operate the following horizontal Wolfcamp well:

1. **Betty 5-6 WCXY 2H** located at a surface location 110 feet FEL and 2060 feet FNL of Section 5, T22S-R27E and a bottom hole location 100 feet FWL and 1670 feet FNL of Section 6, T22S-R27E. We anticipate drilling to an approximate total vertical depth of 8825 feet and plan to continue drilling horizontally to the west to the proposed bottom hole location at an approximate total measured depth of 19500 feet.

Regarding the above well, enclosed for your further handling and information is a copy of our Authorization for Expenditure ("AFE") for the well. Please be aware that the enclosed AFE is only an estimate of costs to be incurred and by electing to participate in the Well, each working interest owner shall be responsible for its proportionate share of all costs incurred.

SPC is proposing to drill this well under the terms of a modified 1989 Horizontal AAPL form Operating Agreement. Said Operating Agreement will be made available for your review upon request and contains the following provisions. The Operating Agreement will have COPAS rates of \$8,000/month while drilling, \$800/month for a producing well and a non-consent penalty of 100%/300%/300%.

Please return a copy of this letter indicating your election to participate or not participate in the drilling and completion of the well in the spaces provided below. Should you elect to participate, please also execute and return the enclosed AFE. Please return your election via email to [cbradley@santopetroleum.com](mailto:cbradley@santopetroleum.com) or by mail with the enclosed self-addressed envelope.

Thank you for your consideration of this proposal. Please contact me at (713) 600-7501, if you have any questions.

Sincerely,

SPC Resources, LLC

**Re: Application of SPC Resources, LLC for compulsory pooling, Eddy County,  
New Mexico.  
Betty 5-6 WCXY 2H Well**

Ladies and Gentlemen:

This letter is to advise you that SPC Resources, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on November 14, 2019 and the status of the hearing can be monitored through the Division's website at <http://www.emnrd.state.nm.us/ocd/>. Division hearings will commence at 8:15 a.m. in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Carter Kauffman at Schoeffler Energy Group, Inc., agent for SPC Resources, LLC, at (337) 232-1122 or [carterk@segland.com](mailto:carterk@segland.com).

Sincerely,

Kaitlyn A. Luck

**APPLICATION OF SPC RESOURCES, LLC  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NOS. 20859**

**AFFIDAVIT OF JOHN WEIHE  
IN SUPPORT OF CASE NO. 20859**

John Weihe, of lawful age and being first duly sworn, declares as follows:

1. My name is John Weihe. I work for Santo Petroleum, an affiliate of SPC Resources, LLC ("SPC Resources"), as the Exploration Manager.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by SPC in this case, and I have conducted a geologic study of the targeted Wolfcamp A structure within the Wolfcamp formation underlying the subject acreage.
4. SPC is targeting the Wolfcamp A with its proposed **Betty 5-6 WCXY #2H well**.
5. **SPC Exhibit No. B-1** is a subsea structure map that I prepared for the Wolfcamp A structure that is representative of the targeted interval within the Wolfcamp formation. The proposed well is depicted by a black line within the spacing unit outlined in green. The structure map shows that the formation is relatively flat in the proposed unit, regionally dipping gently to the southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing the targeted interval with a horizontal well in this area.

6. **SPC Exhibit No. B-2** overlays a cross-section line consisting of five wells penetrating the Wolfcamp formation that I used to construct a structural cross-section from A to A'. I consider these wells to be representative of the geology in the area.

7. **SPC Exhibit No. B-3** is a cross-section using the representative wells depicted on Exhibit B-3. Each well in the cross-section contains gamma ray and resistivity logs. The proposed target interval in the Wolfcamp A is labeled and depicted with an arrow on the exhibit. The cross-section demonstrates that the targeted interval extends across the proposed spacing unit.

8. In my opinion, the laydown orientation of the proposed well is the preferred orientation for horizontal well development in this area and is appropriate to efficiently and effectively develop the subject acreage.

9. Based on my geologic study, the Wolfcamp formation underlying the subject area, including the targeted Wolfcamp A, is suitable for development by horizontal wells, and the acreage comprising the proposed spacing unit will contribute more-or-less equally to the production from the wellbore.

10. In my opinion, the granting of SPC's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

11. **SPC Exhibits B-1** through **B-3** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.
