DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATION OF COG OPERATING LLC  
FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.**

**CASE NO.** \_\_\_\_\_

**APPLICATION**

COG OPERATING LLC (“COG”), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order pooling all uncommitted interests in the Bone Spring formation, Red Hills; Bone Spring, North pool (Pool code 96434), underlying a standard 319.94-acre, more or less, horizontal spacing unit comprised of W/2E/2 of Sections 4 and 9, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico. In support of its application, COG states:

1. COG (OGRID Number 229137) is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. COG proposes to dedicate the above-referenced horizontal spacing unit to the following proposed initial wells, which it proposes to drill simultaneously:
  - The **Picasso Fed Com 402H** well to be horizontally drilled from a surface hole location in the NW/4NE/4 (Unit B) of Section 4 to a bottom hole location in the SW/4SE/4 (Unit O) of Section 9, and
  - The **Picasso Fed Com 502H** well to be horizontally drilled from a surface hole location in the NW/4NE/4 (Unit B) of Section 4 to a bottom hole location in the SW/4SE/4 (Unit O) of Section 9.

3. COG has sought and been unable to obtain voluntary agreement for the development of these lands from all the working interest owners in the subject spacing unit.

4. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

5. In order to permit COG to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the subject spacing unit should be pooled and COG should be designated the operator of the proposed horizontal wells and spacing unit.

WHEREFORE, COG requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 4, 2021, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit;
- B. Approving the initial wells in the horizontal spacing unit;
- C. Designating COG as operator of this spacing unit and the wells to be drilled thereon;
- D. Authorizing COG to recover its costs of drilling, equipping and completing the wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% penalty for the risk assumed by COG in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

**COG OPERATING LLC**

**ATTORNEYS FOR COG OPERATING LLC**

CASE \_\_\_\_\_ : **Application of COG Operating LLC for compulsory pooling, Lea County, New Mexico.** Applicant in the above-styled causes seeks an order pooling all uncommitted interests in the Bone Spring formation, Red Hills; Bone Spring, North pool (Pool code 96434), underlying a standard 319.94-acre, more or less, horizontal spacing unit comprised of W/2E/2 of Sections 4 and 9, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico. COG Operating LLC seeks to dedicate the above-referenced horizontal spacing unit to the following proposed wells:

- The Picasso Fed Com 402H well to be horizontally drilled from a surface hole location in the NW/4NE/4 (Unit B) of Section 4 to a bottom hole location in the SW/4SE/4 (Unit O) of Section 9, and
- The Picasso Fed Com 502H well to be horizontally drilled from a surface hole location in the NW/4NE/4 (Unit B) of Section 4 to a bottom hole location in the SW/4SE/4 (Unit O) of Section 9.

Also, to be considered will be the allocation of the cost thereof, the actual operating costs and charges for supervision, the designation of COG Operating LLC as operator of the wells, and the imposition of 200% charge for risk involved in drilling and completing said wells. Said area is located approximately 18 miles northwest of Jal, New Mexico.
