STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF ALPHA ENERGY PARTNERS, LLC FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

CASE NO. 22171

SELF-AFFIRMED STATEMENT OF TRAVIS MACHA

- 1. I am a landman at Alpha Energy Partners, LLC ("AEP") and am over 18 years of age. I have personal knowledge of the matters addressed herein and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division ("Division") and my qualifications as an expert in petroleum land matters were accepted and made a matter of record.
- I am familiar with the land matters involved in the above-referenced case. Copies
 of AEP's application and proposed hearing notice are attached as Exhibit A-1.
- None of the parties proposed to be pooled in this case indicated opposition to this
 matter proceeding by affidavit; therefore, I do not expect any opposition at hearing.
- 4. AEP seeks an order pooling all uncommitted interests in the Wolfcamp formation underlying a 634.28-acre, more or less, standard horizontal spacing unit comprised of the N/2 of Sections 19 and 20, Township 22 South, Range 27 East, Eddy County, New Mexico ("Unit").
 - 5. The Unit will be dedicated to following wells ("Wells"):
 - The Dude 19/20 Fee 201H to be horizontally drilled from a surface location in the NE/4NE/4 (Unit A) of Section 20 to a bottom hole location in the NW/4NW/4 (Unit D) of Section 19, and

ALPHA ENERGY PARTNERS, LLC Released to Imaging: 10/5/2021 4:25:34 PM

Case No. 22171

Exhibit A

- The Dude 19/20 Fee 202H to be horizontally drilled from a surface location in the NE/4NE/4 (Unit A) of Section 20 to a bottom hole location in the SW/4NW/4 (Unit E) of Section 19.
- The completed intervals for the Wells are located in the Purple Sage; Wolfcamp
 Gas Pool (98220) and will comply with the Special Pool Rules identified in Order No. R-14262.
 - 7. The completed intervals of the Wells will be orthodox.
 - 8. Exhibit A-2 contains draft C-102s for the Wells.
- 9. **Exhibit A-3** contains a plat identifying ownership by tract in the Unit. This exhibit also identifies unlocatable owners and includes applicable lease numbers, a unit recapitulation, and the interests AEP seeks to pool highlighted in yellow.
- 10. **Exhibit A-4** contains a sample well proposal letter and AFEs sent to the working interest owners and unleased mineral interest owners for the Wells. The estimated costs reflected on the AFEs are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the area.
- 11. AEP has conducted a diligent search of all public records in Eddy County including phone directories and computer databases.
- 12. In my opinion, AEP made a good-faith effort to reach voluntary joinder of uncommitted interests in the Wells as indicated by the chronology of contact described in Exhibit A-5.
- 13. AEP requests overhead and administrative rates of \$8,000 per month while the Wells are being drilled and \$800 per month while the Wells are producing. These rates are fair and are comparable to the rates charged by AEP and other operators in the vicinity.

Released to Imaging: 10/5/2021 4:25:34 PM

- 14. Notice of this application and the Division hearing was timely provided to the uncommitted interests by certified mail more than 20 days prior to the hearing date. A sample of the notice letters and associated green cards are attached as Exhibit A-6.
- 15. Notice of this application and the Division hearing was published more than ten business days prior to the hearing date. The affidavit of publication is attached as Exhibit A-7.
- 16. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.
- 17. In my opinion, the granting of AEP's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.
- 18. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony in paragraphs 1 through 17 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

9-30-21

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF ALPHA ENERGY PARTNERS, LLC FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 22171

APPLICATION

Pursuant to NMSA § 70-2-17, Alpha Energy Partners, LLC ("Applicant") applies for an order pooling all uncommitted mineral interests in the Wolfcamp formation underlying a 640-acre, more or less, standard horizontal spacing unit comprised of the N/2 of Sections 19 and 20, Township 22 South, Range 27 East, Eddy County, New Mexico ("Unit"). In support of its application, Applicant states the following:

- Applicant (OGRID No. 330859) is a working interest owner in the Unit and has the right to drill wells thereon.
- 2. The Unit will be dedicated to **The Dude 19/20 Fee 201H** and **The Dude 19/20 Fee 202H** wells ("Wells"). The Dude 19/20 201H well will be horizontally drilled from a surface location in the NE/4NE/4 (Unit A) of Section 20 to a bottom hole location in the NW/4NW/4 (Unit D) of Section 19. The Dude 19/20 202H well will be horizontally drilled from a surface location in the NE/4NE/4 (Unit A) of Section 20 to a bottom hole location in the SW/4NW/4 (Unit E) of Section 19.
 - The completed intervals of the Wells are orthodox.
- 4. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the Wells but has been unable to obtain voluntary agreements from all of the mineral interest owners.
- 5. The pooling of uncommitted mineral interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

Case No. 22171

Exhibit A-1

Released to Imaging: 9/1/2021 2:54:37 PM

Released to Imaging: 10/5/2021 4:25:34 PM

6. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted mineral interests in the Unit should be pooled and Applicant should be designated the operator of the Wells and Unit.

WHEREFORE, Applicant requests this application be set for hearing on October 7, 2021, and that after notice and hearing the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Wells in the Unit;
- C. Designating Applicant as operator of the Unit and the Wells to be drilled thereon;
- Authorizing Applicant to recover its costs of drilling, equipping and completing the
 Wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Wells against any working interest owner who does not voluntarily participate in the drilling of the Wells.

Respectfully submitted,

HINKLE SHANOR LLP

Re: The Dude 19/20 Fee 201H, 202H, 203H and 204H Surface Change

All of Sections 19 and 20, Township 22 South, Range 27 East, Eddy County, New Mexico

Dear Sir/Madam:

Alpha Energy Partners, LLC ("AEP"), as Operator, previously proposed the drilling of The Dude 19/20 Fee 201H, 202H, 203H, and 204H, with productive laterals located in Sections 19 and 20, Township 22 South, Range 27 East, Eddy County, New Mexico, to the Wolfcamp Formation:

In connection with the above, please note the following:

- A change in SHL has been made with respect to all four wells. The SHLs of the wells have moved from the E/2 of Section 24, T22S-R26E to the locations as described further below. The reason for this change is to more properly provide access to produced water, and hydrocarbon takeaway.
- The Dude 19/20 Fee 201H, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate Total Vertical Depth of 8,990', and to a Total Measured Depth of approximately 19,320' resulting in a productive lateral of approximately 9,600'. The surface location for this well is proposed at approximately 1,230' FNL, 350' FEL, or a legal location in Unit A of Section 20 of T22S-R27E, and a bottom hole location approximately 660' FNL, 200' FWL, or a legal location in Unit D of Section 19. The well will be traversing the N/2N/2 of Sections 19 and 20, with the dedicated horizontal spacing unit being the N/2 of Sections 19 and 20, T22S-R27E, Eddy County, NM.
- The Dude 19/20 Fee 202H, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate Total Vertical Depth of 8,990', and to a Total Measured Depth of approximately 19,320' resulting in a productive lateral of approximately 9,600'. The surface location for this well is proposed at approximately 1,280' FNL, 350' FEL, or a legal location in Unit A of Section 20 of T22S-R27E, and a bottom hole location approximately 1,980' FNL, 200' FWL, or a legal location in Unit E of Section 19. The well will be traversing the S/2N/2 of Sections 19 and 20, with the dedicated horizontal spacing unit being the N/2 of Sections 19 and 20, T22S-R27E, Eddy County, NM.
- The Dude 19/20 Fee 203H, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate Total Vertical Depth of 8,990', and to a Total Measured Depth of approximately 19,280' resulting in a productive lateral of approximately 9,600'. The surface location for this well is proposed at approximately 1,280' FSL, 320' FWL, or a legal location in Unit M of Section 21 of

ALPHA ENERGY PARTNERS, LLC

Case No. 22171

Exhibit A-4

T22S-R27E, and a bottom hole location approximately 1,980' FSL, 200' FWL, or a legal location in Unit L of Section 19. The well will be traversing the N/2S/2 of Sections 19 and 20, with the dedicated horizontal spacing unit being the S/2 of Sections 19 and 20, T22S-R27E, Eddy County, NM.

• The Dude 19/20 Fee 204H, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate Total Vertical Depth of 8,990', and to a Total Measured Depth of approximately 19,280' resulting in a productive lateral of approximately 9,600'. The surface location for this well is proposed at approximately 1,230' FSL, 350' FWL, or a legal location in Unit M of Section 21 of T22S-R27E, and a bottom hole location approximately 660' FSL, 200' FWL, or a legal location in Unit M of Section 19. The well will be traversing the S/2S/2 of Sections 19 and 20, with the dedicated horizontal spacing unit being the S/2 of Sections 19 and 20, T22S-R27E, Eddy County, NM.

Please reference your previously received well proposal letter for more information.

As referenced in the previous proposal, AEP is proposing to drill the Wells under the terms of the modified 1989 AAPL form of Operating Agreement dated March 1, 2020, by and between Alpha Energy Partners, as operator and Oxy USA Inc. et al as Non-Operators covers All of Section 19 and All of Section 20, Township 22 South, Range 27 East, Eddy County, New Mexico which has previously been sent to your attention and has the following general provisions:

- 100/300/300 Non-consenting penalty
- \$8,000/\$800 Drilling and Producing rate
- Alpha Energy Partners, LLC named as Operator

In the interest of time, if we do not reach an agreement within 30 days of the date of this letter, AEP will appear before the New Mexico Oil Conservations Division for compulsory pooling of your interest into a horizontal spacing unit for the proposed wells.

Please indicate your participation elections in the spaces provided below, sign, and return (1) copy of this letter along with a signed copy of the previously received AFEs and a copy of your geologic requirements to my attention at the letterhead address or by email at travis@alphapermian.com. Thank you for your time and consideration, feel free to reach out if you have any questions.

Released to Imaging: 10/5/2021 4:25:34 PM

Important Note:

AFE costs have not changed, please reference your previously received AFEs for execution.

Respectfully,

Travis Macha

VIA CERTIFIED MAIL RETURN RECEIPT REQUESTED

TO ALL INTERESTED PARTIES SUBJECT TO NOTICE

Re: Case No. 22171 - Application of Alpha Energy Partners, LLC for Compulsory Pooling, Eddy County, New Mexico.

To whom it may concern:

This letter is to advise you that Alpha Energy Partners, LLC filed the enclosed application with the New Mexico Oil Conservation Division. The hearing will be conducted on **October 7**, **2021** beginning at 8:15 a.m.

During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days in advance of a scheduled hearing, but in no event later than 5:00 p.m. mountain time, on the Thursday preceding the scheduled hearing date. The statement must be filed at the Division's Santa Fe office or submitted through the OCD E-Permitting system (https://www.apps.emnrd.state.nm.us/ocd/ocdpermitting/) and should include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

Please do not hesitate to contact me if you have any questions about this matter.

Sincerely,

/s/ Dana S. Hardy

Dana S. Hardy

Springwood Minerals 6, LLC;
Mason Oaks Energy Holdings, LLC; Dottie Bell Stone
Mayes; Carol Kozma; Wayne Mayes; Carol Kozma; Wayne T. Edwards; Judith G. Ed-wards; and their successors and assigns, that the New Mexico Oil Conservation Division will conduct a hearing on an application submitted by Alpha Energy Partners, LLC (Case No. 22172). During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely. The hearing will be conducted on October 7, 2021 begin-ning at 8:15 a.m. To partici-pate in the electronic hearing, see the instructions posted on the docket for the hearing date: http://ww w.emnrd.state.nm.us/OCD/ hearings.html. Applicant ap-plies for an order pooling all uncommitted mineral inter-ests in the Wolfcamp formation underlying a 640-acre, more or less, standard horizontal spacing unit comprised of the 5/2 of Sections 19 and 20, Township 22 South, Range 27 East, Eddy County, New Mexico ("Unit"). The Unit will be dedicated to The Dude 19/20 Fee 203H and The Dude 19/20 Fee 203H wells ("Wells"). The Dude 19/20 Fee 203H well be horizontally drilled from a surtion underlying a 640-acre, ree 203H well will be horizontally drilled from a surface location in the SW/4SW/4 (Unit M) of Section 21 to a bottom hole location in the NW/4SW/4 (Unit L) of Section 19. The Dude 19/20 204H well will be horizontally drilled from a surface location in the a surface location in the SW/4SW/4 (Unit M) of Section 21 to a bottom hole location in the SW/4SW/4 (Unit M) of Section 21 to a bottom hole location in the SW/4SW/4 (Unit M) of Section 19. The completed intervals of the Wells will be orthodox. Also to be considered will be the cost of drilling and completing the Wells and the allocation of the costs, the designation of Applicant as the operator of the Wells, as the operator of the Wells, and a 200% charge for the risk involved in drilling and completing the Wells. The Wells are located approxi-mately 1.6 miles southwest of Carlsbad, New Mexico. #04912417, Current Argus, Sept. 21, 2021

Received by OCD: 10/5/2021 4:24:05 PM

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF ALPHA ENERGY PARTNERS, LLC FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

CASE NO. 22171

SELF-AFFIRMED STATEMENT OF TYLER ADAMS

- 1. I am a reservoir engineer and geologist at Alpha Energy Partners, LLC ("AEP") and am over 18 years of age. I have personal knowledge of the matters addressed herein and am competent to provide this Self-Affirmed Statement. I have a Master of Science in Petroleum Engineering and 6 years of experience focused on geology and reservoir engineering in the Petroleum Industry working the Permian Basin, the last 2.5 of which have been with AEP. My experience has been focused on well planning, well log analysis, resource development, resource mapping, and resource evaluation for horizontal drilling programs primarily in the Delaware Basin. A copy of my resume is attached as Exhibit B-1.
 - 2. I am familiar with the geological matters that pertain to the above-referenced case.
- 3. Exhibit B-2 is a location map for the proposed horizontal spacing unit ("Unit") within the Wolfcamp formation. The approximate wellbore paths for The Dude 19/20 Fee 201H and 202H wells ("Wells") are represented by dashed black lines. Existing producing wells in the targeted interval are represented by solid black lines and drilled and uncompleted wells are represented by solid red lines.
- 4. Exhibit B-3 is a subsea structure map for the top of the Wolfcamp formation that is representative of the targeted interval within the formation. The data points are indicated by crosses. The approximate wellbore paths for the Wells are depicted by dashed black lines. The

ALPHA ENERGY PARTNERS, LLC

Case No. 22171

Exhibit B

Received by OCD: 10/5/2021 4:24:05 PM

map demonstrates the formation is gently dipping to the southeast in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal wells.

- 5. Exhibit B-3 also identifies five wells penetrating the targeted interval, two of which I used to construct a structural cross-section from A to A'.
- 6. Exhibit B-4 is a structural cross-section using the representative wells identified on Exhibit B-3. I used these well logs because they penetrate the targeted interval, are of good quality, and are representative of the geology in the area. The well logs contain gamma ray, resistivity and porosity logs. The proposed landing zone for the Wells is labeled on the exhibit. This cross-section demonstrates the targeted interval is continuous across the Unit.
- 7. In my opinion, a laydown orientation for the Wells is appropriate to properly develop the subject acreage because of consistent rock properties throughout the Unit and the lack of preferred fracture orientation in this portion of the trend.
- 8. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the Wells.
- 9. In my opinion, the granting of AEP's applications will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.
- 10. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.
- 11. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony in paragraphs 1 through 10 above is true and correct and is made under

Received by OCD: 10/5/2021 4:24:05 PM

Released to Imaging: 10/5/2021 4:25:34 PM

penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.

Education

Master of Science in Petroleum Engineering
The University of Texas at Austin, Austin, Texas
Bachelor of Science in Civil Engineering
Louisiana State University, Baton Rouge, Louisiana

Dec. 2015

May 2014

Professional Experience

Alpha Energy Partners

VP of Engineering and Geology

Midland, TX May 2019-Present

- Evaluate working interests, overrides, and mineral interests for purchase to determine their value taking into account geologic information, production data, and development timing to quantify value and underwrite acquisitions.
- Analyze well logs and map prospective intervals across the Delaware Basin to identify prospects to develop via new drill vertical and horizontal wells or via recompletion of undeveloped zones in legacy vertical wellbores.
- Incorporate geologic and engineering data to optimize development plans for both present value and rate of return
- Create well plans for horizontal development of drilling units in the Carlsbad area to maximize recovery of oil & gas while minimizing surface disturbances and environmental impacts

Concho Resources

Reservoir Engineer, Northern Delaware Basin

Midland, TX Mar. 2018-Apr. 2019

- Compile and analyze operated and non-operated production data to build type curves; taking into account completion metrics, landing zones, well spacing, parent-child relationships, and differing approaches to drawdown.
- Use type curves and projected well costs to run economics and evaluate well level economics in Aries.
- Work with geologists and offset well data to identify zones requiring co-development; propose multi-well projects for these zones and run full-cycle economics to rank projects on a ROR basis. Incorporate drilling obligations, capital requirements, facility constraints, and takeaway constraints to build out a two year development schedule and budget.
- Analyze flowback data on wells with DFIT's to validate method for determining initial reservoir pressure using flowback data; once validated, used method to map reservoir pressure across the basin for each individual reservoir.
- Forecast production for all PDP wells and work with reserves auditors to update reserves biannually.
- -Prospect by incorporating geologic and production data to identify areas with development potential; work with area Landman to build operated positions in focus areas via leasing, acquisition, and trades.

Pioneer Natural Resources Operations and Completions Engineer

Midland, TX Jan. 2016-Feb. 2018

- Oversee operations, workovers, and maintenance of 1,020 wells producing 11,000 BOE/D in the Midland Basin, including their production facilities. Artificial lift systems include Rod Pump, PAGL, Plunger Lift, and ESP.
- Fit decline curves, evaluate economics, and write procedures and AFEs prior to repairing any well failure.
- Forecast LOE and production for acquired and divested wells to adjust the asset budget and production guidance.
- Identified and analyzed production decreases to highlight candidates for remedial work; proposed and executed \$840M in remedial work to return 275 BOE/D to production with a PV10 of \$8.7MM.
- Gathered data and built IPRs to evaluate potential for increasing production via changing or optimizing artificial lift; proposed and executed \$885M in projects to increase production by 570 BOE/D with a PV10 of \$23.1MM.
- Identified high LOE wells; proposed and executed \$250M in projects to reduce LOE by \$775M per year.
- Lead Midland team for completion efficiency project focused on improving operational performance and reducing well costs. Worked with team to identify potential improvements, present findings to management, and roll out resolutions targeted to reduce completion costs by ~\$400M per well.
- Supported frac operations for three frac fleets; interfaced with engineers, company men, and service providers on day-to-day stimulation operations and performance for Midland Basin horizontal completions.
- Provide technical support to operations group; including analysis of screen-outs, irregular treating pressure behavior, and step-rate tests to identify near wellbore restrictions and recommend mitigation techniques.
- Created tool to forecast chemical usage on upcoming completions based on job design and target formation; this eliminated excess chemical deliveries to well pads and enabled reduction in bulk plant's chemical inventories.

Academic Experience

Graduate Research Assistant, Wider Windows IAP, The University of Texas at Austin Sept. 2014-Dec. 2015

- Presented methods for estimating min. horizontal stress using Pressure While Drilling measurements.
