CASE NO. 22463

APPLICATION

Centennial Resource Production, LLC (“Centennial” or “Applicant”) (OGRID No. 372165), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Bone Spring formation (WC-025 G-07 S213430M; Bone Spring Pool [Pool code 97962]) underlying a standard 240-acre, more or less, horizontal spacing unit comprised of the W/2 E/2 of Section 18 and the W/2 NE/4 of Section 19, Township 21 South, Range 34 East, NMPM, Lea County, New Mexico. In support of its application, Centennial states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant proposes to dedicate the above-referenced spacing unit to the following proposed initial **Dragon Fruit 19 State Com #501H well** (API No. 30-025-46184), to be horizontally drilled from a surface location in the NW/4 SE/4 (Unit J) of Section 19, to a bottom hole location in the NW/4 NE/4 (Unit B) of Section 18.
3. The completed interval for the well will comply with statewide setbacks.

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B**

**Submitted by: Centennial Resource Production, LLC
Hearing Date: January 06, 2022
Case Nos. 22463 & 22464**

4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this horizontal spacing unit should be pooled, and Applicant should be designated the operator of the proposed horizontal wells and spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on January 6, 2022, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit and approving the initial well thereon;
- B. Designating Applicant as operator of the horizontal spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, equipping, and completing the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

CASE NOS. 22463 & 22464

AFFIDAVIT OF GAVIN SMITH

Gavin Smith, of lawful age and being first duly sworn, states the following:

1. My name is Gavin Smith and I am employed by Centennial Resource Production, LLC (“Centennial”) as a Senior Landman.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
3. I am familiar with the applications filed by Centennial in these consolidated cases and the status of the lands in the subject area.
4. None of the uncommitted parties in this case has indicated opposition to these pooling cases proceeding by affidavit and, therefore, I do not expect opposition at the hearing.
5. In **Case No. 22463**, Centennial seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 240-acre, more or less, horizontal spacing unit comprised of the W/2 E/2 of Section 18 and the W/2 NE/4 of Section 19, Township 21 South, Range 34 East, NMPM, Lea County, New Mexico, and dedicating the spacing unit to the proposed initial **Dragon Fruit 19 State Com #501H well** (API No. 30-025-46184), to be horizontally drilled from a surface location in the NW/4 SE/4 (Unit J) of Section 19, to a bottom hole location in the NW/4 NE/4 (Unit B) of Section 18.

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C
Submitted by: Centennial Resource Production, LLC
Hearing Date: January 06, 2022
Case Nos. 22463 & 22464**

6. In **Case No. 22464**, Centennial seeks an order pooling all uncommitted interests in the Bone Spring underlying a standard 240-acre, more or less, horizontal spacing unit comprised of the E/2 E/2 of Section 18 and the E/2 NE/4 of Section 19, Township 21 South, Range 34 East, NMPM, Lea County, New Mexico, and dedicating the spacing unit to the proposed initial **Dragon Fruit 19 State Com #503H well** (API No. 30-025-46186), to be horizontally drilled from a surface location in the NE/4 SE/4 (Unit I) of Section 19, to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 18.

7. **Centennial Exhibit C-1** contains draft Form C-102s for the proposed initial wells in each of these standard spacing units. These forms demonstrate that the completed interval for each well will meet the standard setback requirements for horizontal oil wells.

8. For Case Nos. 22463 and 22464, Centennial understands that these Bone Spring wells will be placed in the WC-025 G-07 S213430M; Bone Spring Pool [Pool code 97962].

9. **Centennial Exhibit C-2** identifies the tracts of land comprising each of the proposed horizontal spacing units, the working interest ownership in each tract, and their interest in the horizontal spacing unit. There are no unleased mineral interest owners. The subject acreage is comprised of state lands.

10. No depth severances exist within the Bone Spring formation underlying this acreage.

11. **Centennial Exhibit C-3** identifies the working interest owners that Centennial is seeking to pool in each of the proposed horizontal spacing units.

12. Centennial has conducted a diligent search of the public records in the county where the property is located, reviewed telephone directories, and conducted computer searches to locate

contact information for each of these mineral owners. As indicated in **Exhibit C-5**, Centennial has been able to locate and has had discussions with each party that it seeks to pool in these cases in an effort to reach voluntary joinder.

13. Centennial also seeks to pool the overriding royalty interest owners identified in Exhibit C-3.

14. **Centennial Exhibit C-4** contains a sample of the well proposal letters and AFEs sent to the working interest owners. The costs reflected in these AFEs are consistent with what other operators have incurred for drilling similar horizontal wells in the area in these formations.

15. **Centennial Exhibit C-5** contains a general summary of the contacts with the uncommitted owners. In my opinion, Centennial has undertaken good faith efforts to reach an agreement with the uncommitted owners.

16. Centennial requests that the overhead and administrative costs for drilling and producing the proposed wells be set at \$8,000 per month while drilling and \$800 per month while producing. These costs are consistent with what other operators are charging in this area for similar wells.

17. Centennial has provided the law firm of Holland & Hart LLP with the names and addresses of the parties that Centennial seeks to pool and instructed that they be notified of this hearing.

18. **Centennial Exhibits C-1 through C-5** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

To Whom it May Concern:

This letter is subject to the well proposal previously sent, dated August 24, 2021. Please note the updated spacing unit.

Centennial Resource Production, LLC ("CRP") proposes to drill and complete the Dragon Fruit 19 State Com #503H as a horizontal well to test the Bone Spring Formation at a TVD of 10,600 feet. The E/2 E/2 of the referenced Section 18 and E/2 NE/4 of Section 19 will be dedicated to the well as the proration unit being a total of 240.00 acres. Please see the enclosed AFE in the amount of \$7,349,611.00

Upon your response we will send a Joint Operating Agreement ("JOA") with an effective date of August 1, 2021. The JOA contains a proposed overhead rate of \$8,000 per month for drilling and \$800 per month for producing and provides for a 100%/300%/300% non-consent penalty.

In the space provided below, please indicate your election and return one original copy of this letter along with an original copy of the enclosed AFE or email a copy to Frances.Ivers@cdevinc.com. Should you have any questions, please call me at (720) 499-1505.

CASE NOS. 22463 & 22464

AFFIDAVIT OF ISABEL HARPER

Isabel Harper, of lawful age and being first duly sworn, declares as follows:

1. My name is Isabel Harper. I work for Centennial Resource Production, LLC (“Centennial”) as a geologist.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Centennial in these cases and I have conducted a geologic study of the lands in the subject area.
4. Centennial is targeting the Bone Spring formation in these consolidated cases.
5. **Centennial Exhibit D-1** is a locator map. It shows Centennial’s acreage in yellow and the paths of the proposed wellbores, with the surface hole and bottom hole locations, as well as the outline of the proposed spacing units.
6. **Centennial Exhibit D-2** is a subsea structure map that I prepared off the top of the Third Bone Spring formation. The contour interval is 50 feet. The structure map shows the Bone Spring dipping gently to the South. The structure appears consistent across the proposed wellbore paths. Based on this subsea structure map, I do not observe any

faulting, pinchouts, or other geologic impediments to developing the targeted interval with horizontal wells in this area.

7. **Centennial Exhibit No. D-3** shows a line of cross-section in blue consisting of three wells penetrating the Bone Spring formation that I used to construct a stratigraphic cross-section from A to A'. I consider these wells to be representative of the geology in the area.

8. **Centennial Exhibit No. D-4** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Bone Spring from the three representative wells denoted from A to A'. For each well in the cross-section, the exhibit shows the following logs: gamma ray, resistivity, and porosity. The proposed target interval is labeled and marked. The logs in the cross-section demonstrate that the target interval, within the Second Bone Spring, is consistent in thickness, across the entire spacing unit.

9. In my opinion, the stand-up orientation of the proposed wells is the preferred orientation for horizontal well development in this area and is appropriate to develop the subject acreage efficiently and effectively.

10. Based on my geologic study, the Bone Spring formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing unit will contribute more-or-less equally to the production from the wellbores. I have not identified any geologic impediments to drilling horizontal wells in the area of the spacing units proposed in these cases.

11. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery,

and the granting of Centennial's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

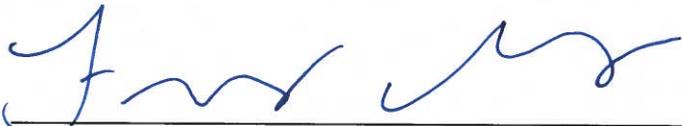

12. **Centennial Exhibit Nos. D-1 through D-4** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed online or in person at the Division’s Santa Fe office and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.
