CASE NO. 22554

APPLICATION

SPC Resources, LLC (“Applicant”) (OGRID No. 372262) through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 1,282.24-acre, more or less, horizontal well spacing unit comprised of Sections 1 and 2 all in Township 22 South, Range 26 East, NMPM, Eddy County, New Mexico. In support of its application, Applicant states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the proposed **Water Buffalo 403H well**, to be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 3, Township 22 South, Range 26 East, to bottom-hole location in the NE/4 SE/4 (Unit I) of Section 1, Township 22 South, Range 26 East.
3. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.
5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

Hearing Date: April 07, 2022
Case No. 22555**

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this proposed unit should be pooled and Applicant should be designated the operator of the proposed horizontal wells and spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 3, 2022, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Wolfcamp formation underlying the proposed spacing unit;
- B. Approving the initial wells in the horizontal well spacing unit;
- C. Designating Applicant as operator of the horizontal spacing unit and the horizontal wells to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the wells.

**APPLICATION OF SPC RESOURCES, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 22555

AFFIDAVIT OF GARY WALDROP

Gary Waldrop, of lawful age and being first duly sworn, declares as follows:

1. My name is Gary Waldrop. I work for Santo Petroleum, an affiliate of SPC Resources, LLC ("SPC"), as the Field Land Manager.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by SPC in this case, and I am familiar with the status of the lands in the subject area.
4. None of the uncommitted parties in this case have indicated opposition to the pooling application, therefore, I do not expect any opposition at the hearing.
5. In this case, SPC seeks an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 1,908.20-acre, more or less, horizontal well spacing unit comprised of Section 36, Township 21 South, Range 26 East, and irregular Section 31 and Section 32 in Township 21 South, Range 27 East, NMPM, Eddy County, New Mexico. The horizontal spacing unit will be dedicated to the following proposed initial wells: (1) the **Fred 402H well**, and (2) the **Fred 442H well**, both of which will be horizontally drilled from a common surface location

in the SE/4 NE/4 (Unit H) of said Section 32, Township 21 South, Range 27 East, to bottom-hole locations in the SW/4 NW/4 (Unit E) of Section 36, Township 21 South, Range 26 East.

6. **SPC Exhibit C-1** is a plat showing said the proposed spacing unit outlined in red. This plat also reflects the city blocks and streets. There are several different colors on the map that reflect the status of SPC's efforts to lease each tract within the spacing unit: (1) solid yellow shading reflects tracts leased by SPC; (2) grey shading reflects tracts leased by other working interest owners; and (3) light blue shading reflects unleased tracts.

7. **SPC Exhibit C-2** is the Form C-102s for the proposed wells. They show that the wells are located in the Carlsbad, Wolfcamp, East (Gas) Pool (74160) and will comply with the setback requirements of for the statewide rules.

8. There are no depth severances in the Wolfcamp formation in this acreage.

9. **SPC Exhibit C-3** provides a summary of the percentage of ownership interests in the horizontal spacing unit, in the aggregate, as between the working interests and unleased mineral interests. The second page of the exhibit breaks those interests down by ownership type on a unit basis. SPC has reached agreement with the parties identified in blue print but is seeking to pool the working interests and unleased mineral interests in black type. The list of individual unleased mineral interest owners SPC is seeking to pool is notated as FRED-UMI in the Notice of Hearing Mailout Tracking Report included as **SPC Exhibit C-6**. SPC is also seeking to pool overriding royalty interest owners in this unit and each is notated as ORRI-FRED in the Notice of Hearing Mailout Tracking Report included as **SPC Exhibit C-6**.

10. SPC has made a good faith effort to locate every working interest owner that remains to be pooled. It has maintained detailed mail tracking records reflecting SPC's attempts

to contact every working interest owner to provide a well proposal letter together with corresponding AFEs and notice of the pooling hearing via certified mail and email.

11. The costs reflected in the AFEs are consistent with what other operators have incurred for drilling similar horizontal wells in the area. A copy of an example well proposal letter, along with the AFE, is attached as **SPC Exhibit C-4**.

12. In addition to the well proposal letters, SPC undertook additional good faith efforts to locate and contact each uncommitted working interest owner in this proposed spacing unit. First, SPC started with the last known address of record corresponding to the leasehold owned within the unit. From there, SPC updated corporate addresses using common internet search engines and publicly available sites with phone number and address information. SPC has also maintained detailed records of follow-up emails and phone calls to every working interest owner.

13. SPC has conducted a diligent search of all public records in Eddy County, including phone directories and computer databases to locate each of the parties owning an unleased mineral interest in the proposed spacing unit, which includes hundreds of individual town-lot tracts.

14. SPC's contract land brokerage company, Schoeffler Energy Group ("SEG"), conducted the following research process to identify unleased mineral owners within this spacing unit:

- a. Developed a chain of title for each lot/tract from inception of the records (patent) to current using the records of: (1) Guaranty Title Company title plant in Carlsbad, NM; (2) Currier Abstract Co. title plant in Artesia, NM; and (3) Eddy County Clerk's records;
- b. Reviewed every conveyance in the chain of title for each lot/tract to identify the mineral owner(s) through time;

- c. Searched each mineral owner(s) name from his/her acquisition of the property to current in the following records: (1) Eddy County Clerk; (2) Eddy County Probate Court Clerk of Eddy County; and (3) Eddy County District Court Clerk; and
 - d. If a mineral deed, probate, or other form of conveyance was found while searching the mineral owner(s) names, SPC repeated the third step for all the mineral owner(s) found.
15. Based on the research process described in the preceding paragraph, SEG also prepared Mineral Ownership Reports (“MOR”) or Limited Certificate of Title (“LTC”) for each interest identified and maintained copies of every MOR/LTC on a tract-by-tract basis in each lease file or unleased mineral interest owner file.
16. SPC identified over 650 unleased mineral interest owners in the proposed spacing unit. SPC maintains records of its efforts to lease each unleased mineral interest in a file that details the attempts taken to reach/identify each owner and secure a lease. Further, SPC remains ready and willing to lease any unleased mineral interest owners who contact SPC or SEG.
17. To ensure accurate ownership information, SPC also obtained the following:
- a. Title Opinions to current for tracts three (3) acres and larger;
 - b. Title Opinions to the last dedication of a subdivision, to limit the risk of a systematic title failure, and then each tract (smaller than three acres) within the subdivision has been brought forward with an MOR or LTC;
 - c. Any tract outside of a subdivision, but smaller than three acres is based on an MOR/LTC to current.

18. **SPC Exhibit No. C-5** is the letter sent to all unleased mineral interest owners offering to lease the minerals in the proposed horizontal spacing unit. This letter was often sent multiple times and to multiple possible addresses for each unleased mineral interest owner from 2017 to present after undertaking the following owner identification steps.

19. SPC, working with SEG, attempted to locate mineral owners in Carlsbad by knocking on doors and leaving door hangers with information about SPC leasing within the City of Carlsbad (with contact information for SPC's local office). SPC would then send generic offer letters to identified mineral owners to the last known address of record, addresses in the Carlsbad/Eddy County phone book, addresses from the Eddy County Assessor, and various online search tools for address and numbers. SPC also called any numbers found in the phone book or on our online search tools/websites and leave voicemails, if possible. Additionally, SPC searched various websites to identify and contact heirs (or the heirs if deceased). Finally, SPC also hired two residents who have lived in Carlsbad for many years who assisted SPC in finding interest owners.

20. SPC has also worked with the City of Carlsbad to obtain leases of both the private and public interests in the proposed Unit. On October 10, 2017, the City of Carlsbad adopted Ordinance No. 2017-28 authorizing the Granting of an Oil and Gas Lease on certain minerals (mainly streets, roads, alleys and some parks) owned by the City.

21. Also, in October of 2017, SPC secured a lease from the Board of Education of the Carlsbad Municipal Schools that covers lands within the Unit proposed in this case.

22. SPC has undertaken good faith efforts to locate and to reach an agreement with locatable uncommitted interest owners of every tract, and SPC maintains town-lot tract files detailing the attempts taken to identify and contact each owner and secure a lease.

23. SPC will continue to work to reach a voluntary agreement with any of the proposed pooled parties, and if successful before the Division enters any order in this case, I will inform the Division that SPC is no longer seeking to pool that party.

24. SPC seeks approval of overhead and administrative costs at \$8,000/month while drilling and \$800/month while producing. These costs are consistent with what SPC and other operators are charging in this area for these types of wells. SPC respectfully requests that these administrative and overhead costs be incorporated into any order entered by the Division.

25. **SPC Exhibit No. C-6** is the letter providing notice of this hearing that SPC sent by certified mail to each of the uncommitted interest owners in this case, including the USPS certified-mail tracking information providing the status of each notice letter. This is the list of owners SPC is seeking to pool, unless otherwise noted hereinabove and/or on **SPC Exhibit C-3**.

26. **SPC Exhibit No. C-7** is an Affidavit of Publication reflecting that SPC caused notice of this hearing to be published at least ten business days before this hearing in the newspaper of general circulation in Eddy County.

27. **SPC Exhibits C-1 through C-7** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.

Re: Proposed Wolf Camp Wells
Fred 402H
Fred 442H
Unit: Section 36, T21S-R26E, Section(s) 31 & 32, T21S-R27E
Unit Gross: 1,908.20
Eddy County, New Mexico

To whom it may concern,

SPC Resources, LLC ("SPC") as Operator proposes to form a 1,908.20 acre working interest unit to include *Section 36, of Township 21 South, Range 26 East and Section(s) 31 & 32, Township 21S-R27E*, for oil and gas production. SPC hereby proposes to drill and operate one of the following wells as the defining wellbore:

1. **Fred 402H** located at a surface location of H, 1,958 feet FNL and 163 feet FEL of Section 32, T21S-R27E and a bottom hole location of E, 1,670 feet FNL and 100 feet FWL of Section 36, T21S-R26E. The targeted interval will be the Wolfcamp formation. We anticipate drilling to an approximate total vertical depth of 8,750 feet and plan to continue drilling horizontally to the west to the proposed bottom hole location at an approximate total measured depth of 24,570 feet.
2. **Fred 442 H** located at a surface location of H, 1,978 feet FNL and 163 feet FEL of Section 32, T21S-R27E and a bottom hole location of E, 2,290 feet FNL and 100 feet FWL of Section 36, T21S-R26E. The targeted interval will be the Wolfcamp formation. We anticipate drilling to an approximate total vertical depth of 9,215 feet and plan to continue drilling horizontally to the west to the proposed bottom hole location at an approximate total measured depth of 24,770 feet.

Regarding the above wells, enclosed for your further handling and information is a copy of our Authorization for Expenditures ("AFE"). Please be aware that each enclosed AFE is only an estimate of costs to be incurred and by electing to participate in the defining well, each working interest owner shall be responsible for its proportionate share of all costs incurred.

SPC is proposing to drill under the terms of a modified 1989 Horizontal AAPL form Operating Agreement. Said Operating Agreement will be made available for your review upon request and contains the following provisions. The Operating Agreement will have COPAS rates of \$8,000/month while drilling, \$800/month for a producing well and a non-consent penalty of 100%/300%/300%.

Please return a copy of this letter indicating your election to participate or not participate in the drilling and completion of a unit defining well in the spaces provided below. **Note: The operator intends to initially drill only one of the proposed wells, and will notify you as to which one closer in time to spudding.** Should you elect to participate, please also sign and return the enclosed AFEs. Please return your election via email to mwest@santopetroleum.com or by mail using the enclosed self-addressed envelope.

Case No. 22555

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF SPC RESOURCES, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 22555

APPLICATION

SPC Resources, LLC (“Applicant”) (OGRID No. 372262) through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 1,908.20-acre, more or less, horizontal well spacing unit comprised of Section 36, Township 21 South, Range 26 East, and irregular Section 31 and Section 32 in Township 21 South, Range 27 East, NMPM, Eddy County, New Mexico. In support of its application, Applicant states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced horizontal spacing unit to the following proposed initial wells: (1) the **Fred 402H well**, and (2) the **Fred 442H well**, both are to be horizontally drilled from a common surface location in the SE/4 NE/4 (Unit H) of said Section 32, Township 21 South, Range 27 East, to bottom-hole locations in the SW/4 NW/4 (Unit E) of Section 36, Township 21 South, Range 27 East.
3. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this proposed unit should be pooled and Applicant should be designated the operator of the proposed horizontal wells and spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 3, 2022, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Wolfcamp formation underlying the proposed spacing unit;
- B. Approving the initial wells in the horizontal well spacing unit;
- C. Designating Applicant as operator of the horizontal spacing unit and the horizontal wells to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

Case No. 22555: Application of SPC Resources, LLC for compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted interests in the Wolfcamp formation underlying a standard 1,908.20-acre, more or less, horizontal well spacing unit comprised of the Section 36, Township 21 South, Range 26 East and irregular Section 31 and Section 32 in Township 21 South, Range 27 East, NMPM, Eddy County, New Mexico. Applicant proposes to dedicate the above-referenced spacing unit to the following proposed initial wells: (1) the Fred 402H well, and (2) the Fred 442H well, both are to be horizontally drilled from a common surface location in the SE4/ NE4 (Unit H) of said Section 32, Township 21 South, Range 27 East, to bottom-hole locations in the SW4/4 NW4 (Unit E) of Section 36, Township 21 South, Range 26 East. Also to be considered will be the cost of drilling and completing said wells. Estimated drilling and completion costs and charges for supervision, the designation of applicant as operator of the wells, and the imposition of a 200% charge for risk involved in drilling and completing each well. Portions of said area are located within the city limits of Carlsbad, New Mexico.

CASE NO. 22555

AFFIDAVIT OF JOHN WEIHE

John Weihe, of lawful age and being first duly sworn, declares as follows:

1. My name is John Weihe. I work for Santo Petroleum, an affiliate of SPC Resources, LLC ("SPC"), as the Vice President of Exploration.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by SPC in this case, and I have conducted a geologic study of the Wolfcamp formation underlying the subject area.
4. SPC is targeting the Wolfcamp formation in this case.
5. **SPC Exhibit D-1** is a locator map that identifies the location of the proposed spacing unit in a dark green outline within Eddy County. The City of Carlsbad is depicted with spotted shading and outlined with a black line.
6. **SPC Exhibit D-2** is a subsea structure map that I prepared off the top of the Wolfcamp formation. The horizontal spacing unit is outlined in dark green. The proposed initial wellbore paths are depicted with light green lines within the spacing unit. The map also shows the locations of other proposed and existing Wolfcamp wells, as indicated on the legend. The contour interval is 25 feet. The structure map shows that the Wolfcamp dips gently to the east in this area.

Case No. 22555**

The structure appears generally consistent across the proposed spacing unit. I do not observe any faulting, pinch-outs, or other geologic hazards to developing a horizontal well.

7. **SPC Exhibit D-2** also shows the location of three wells used to construct a west-to-east cross-section from A to A'. I consider these wells to be representative of the geology in the area.

8. **SPC Exhibit D-3** is a structural cross-section prepared by me for the three representative wells from A to A'. The exhibit shows logs for gamma ray, resistivity, and neutron-density for each well. The proposed target interval for each initial proposed well is also depicted on the cross-section with yellow shading and identified by well number in a yellow arrow on the left side of the exhibit. The cross-section demonstrates that the targeted intervals within the Wolfcamp are generally consistent in thickness across the entire spacing unit.

9. Based on my geologic study of the Wolfcamp formation in the area, I have not identified any geologic impediments to drilling horizontal wells across the spacing unit.

10. In my opinion, the orientation of the proposed well is the preferred orientation for horizontal well development in this area and is appropriate to efficiently and effectively develop the subject acreage.

11. It is also my opinion that each tract comprising the proposed spacing unit in this case will be productive and contribute more-or-less equally to production from the wellbores.

12. Granting SPC's application in this case is in the best interest of conservation, the prevention of waste, and protection of correlative rights.

13. **SPC Exhibits D-1 through D-3** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT.
