APPLICATION OF MEWBOURNE OIL
COMPANY FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

CASE NO. 22633

APPLICATION

Pursuant to NMSA § 70-2-17, Mewbourne Oil Company ("Applicant") (OGRID No. 14744) applies for an order pooling all uncommitted interests in the Bone Spring formation from a depth of approximately 10,526' MD to the base of the Bone Spring formation underlying a 160-acre, more or less, standard horizontal spacing unit comprised of the W/2E/2 of Section 27, Township 22 South, Range 34 East, Lea County, New Mexico ("Unit"). In support of its application, Applicant states:

1. Applicant is a working interest owner in the Unit and has the right to drill wells thereon.
2. The Unit will be dedicated to the **Perro Loco 27 B3OB Fed Com #1H** well to be horizontally drilled from a surface hole location in the SW/4SE/4 (Unit O) of Section 27 to a bottom hole location in the NW/4NE/4 (Unit B) of Section 27.
3. The completed interval of the Well will be orthodox.
4. A depth severance exists in the Bone Spring formation within the proposed Unit.

Accordingly, Applicant seeks to pool all uncommitted interests from a depth of approximately 10,526' MD to the base of the formation (at a stratigraphic equivalent of approximately 11,354' MD as observed on the Sun Federal Com #1 (API 3002530603) well log).

5. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Well but has been unable to obtain voluntary agreements from all interest owners.

EXHIBIT /

6. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted mineral interests in the Unit should be pooled and Applicant should be designated the operator of the Well and Unit.

WHEREFORE, Applicant requests this application be set for hearing on April 7, 2022, and that after notice and hearing, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Well in the Unit;
- C. Designating Applicant as operator of the Unit and the Well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the Well;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Well against any working interest owner who does not voluntarily participate in the drilling of the Well.

Respectfully submitted,

HINKLE SHANOR LLP

Case No. 22633

SELF-AFFIRMED STATEMENT OF BRAD DUNN

Brad Dunn, being duly sworn upon his oath, deposes and states:

1. I am a landman for Mewbourne Oil Company ("Mewbourne"), and have personal knowledge of the matters stated herein. I have been qualified by the Division as an expert petroleum landman.

2. Pursuant to Division Rules, the following information is submitted in support of the compulsory pooling application filed herein:

(a) The purpose of this application is to force pool working interest owners into the Bone Spring horizontal spacing unit described below, and in wells to be drilled in the unit.

(b) The interest owners being pooled have been contacted regarding the proposed well, but have failed or refused to voluntarily commit their interests to the well.

(c) A plat outlining the unit being pooled is submitted as Attachment A. Mewbourne seeks an order pooling all mineral interests in a portion of the Bone Spring formation underlying a horizontal spacing unit comprised of the W/2E/2 of Section 27, Township 22 South, Range 34 East, NMPM, Lea County, New Mexico. The unit will be dedicated to the Perro Loco 27 B3OB Fed. Com. Well No. 1H. A Form C-102 for the well is also part of Attachment A.

Only the 3rd Bone Spring is sought to be pooled in this proposed well unit. It is defined as depths from 10,526 feet subsurface to the base of the Bone Spring formation, at a depth of 11,325 feet subsurface, as found in the Compensated Neutron Litho Density log in the Sun Fed. Com. Well No. 1 (API No. 30-025-30603), located in Unit Letter O of Section 27, Township 22 South, Range 34 East, NMPM.

(d) The parties being pooled, and their interests, are set forth in Attachment B.

(e) In order to locate the interest owners, Mewbourne examined the county and federal records, performed internet searches, checked telephone records, made calls to family members, and searched Accurint and Whitepages.

EXHIBIT

2

- (f) Attachment C is a summary of communications and sample copies of the proposal letters sent to the interest owners.
- (g) Mewbourne has made a good faith effort to obtain the voluntary joinder of the working interest owners in the proposed well, or to locate the interest owners.
- (h) Mewbourne has the right to pool the overriding royalty owners in the well unit.
- (i) Attachment D contains the Authorization for Expenditure for the proposed well. The estimated cost of the well set forth therein is fair and reasonable, and comparable to the cost of other wells of similar depth and length drilled in this area of Lea County.
- (j) A sample copy of the letters to working interest owners regarding the overlapping well units is submitted as Attachment E. No objection has been received by Mewbourne from any of the working interest owners.
- (k) Mewbourne requests overhead and administrative rates of \$8000/month for a drilling well and \$800/month for a producing well. These rates are fair, and comparable to the rates charged by other operators for wells of this type in this portion of Lea County. They are also the rates set forth in the Joint Operating Agreement for the well unit. Mewbourne requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.
- (l) Mewbourne requests that the maximum cost plus 200% risk charge be assessed against non-consenting working interest owners.
- (m) Mewbourne requests that it be designated operator of the well.
- (n) The attachments to this affidavit were prepared by me, or compiled from company business records.
- (o) The granting of this application is in the interests of conservation and the prevention of waste.

3. I understand that this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony in paragraphs 1 through 2(o) above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

Re: Overlapping spacing units

Ladies and Gentlemen:

As you are aware, Mewbourne Oil Company (“Mewbourne”) has proposed the drilling of the Perro Loco 27/22 B2OB Fed Com No. 2H (“27/22 B2OB”) on the above-described lands to a depth sufficient to test the Second Bone Spring Sand. The W/2E/2 §22-22S-27E, NMPM is in the well unit for the Perro Loco 22 B3OB Federal Com No. 1H (“22 B3OB”) (operated by Mewbourne), which has been drilled and completed in the Third Bone Spring Sand. All interest owners in the 22 B3OB well are in the well unit for the 27/22 B2OB well. However, the interest owners in the W/2E/2 §27 own no interest in the 22 B3OB well.

Mewbourne provides this notice pursuant to NMAC 19.15.16.15.B(9)(b). Because of the different sands being tested by the two wells, and the geological barrier between the two zones, Mewbourne expects no effects on the 22 B3OB well from the drilling and completion of the 27/22 B2OB well. In addition, distribution of production proceeds to the interest owners in the 22 B3OB well will not change upon the drilling of the 27/22 B2OB well. The Oil Conservation Division’s Rule cited above requires Mewbourne to notify you of the overlapping well units. If you have any objection to Mewbourne filing an Application for Permit to Drill the 27/22 B3OB well, you must deliver a written statement of such objection to Mewbourne within 20 days of the date of this letter.

Should you have any questions regarding the above, please email me at bdunn@mewbourne.com or call me at (432) 682-3715. Thank you.

Sincerely,

MEWBOURNE OIL COMPANY

Re: Overlapping spacing units

Ladies and Gentlemen:

As you are aware, Mewbourne Oil Company ("Mewbourne") has proposed the drilling of the Perro Loco 27/22 B3PA Fed Com No. 2H ("27/22 B3PA") on the above-described lands to a depth sufficient to test the Third Bone Spring Sand. The E/2E/2 §22-22S-27E, NMPM is in the well unit for the Perro Loco 22 B2PA Federal Com No. 1H ("22 B2PA") (operated by Mewbourne), which has been drilled and completed in the Second Bone Spring Sand. All interest owners in the 22 B2PA well are in the well unit for the 27/22 B3PA well. However, the interest owners in the E/2E/2 §27 own no interest in the 22 B2PA well.

Mewbourne provides this notice pursuant to NMAC 19.15.16.15.B(9)(b). SELF-AFFIRMED STATEMENT OF JORDAN CARRELL

Jordan Carrell deposes and states:

1. I am over the age of 18, and have personal knowledge of the matters stated herein.
2. I am a geologist for Mewbourne Oil Company ("Mewbourne"), and I am familiar with the geological matters involved in these cases. I have been qualified by the Division as an expert petroleum geologist.
3. The following geological plats are attached hereto:
 - (a) Attachment A is a structure map on the 3rd Bone Spring Sand top. It shows that structure dips to the southwest. It also shows all of the Bone Spring horizontal wells in the area, and a line of cross-section.
 - (b) Attachment B is a 2nd Bone Spring Sand Gross Thickness Map. This map shows the locations of the two proposed 2nd Bone Spring Sand wells, the Perro Loco 27 B2PA Fed. Com. Well No. 1H and the Perro Loco 27/22 B2OB Fed. Com. Well No. 2H.

Only the 2nd Bone Spring is sought to be pooled in these two proposed well units. It is defined as depths from 10,087 feet subsurface to the base of the 2nd Bone Spring, at a depth of 10,526 feet subsurface, as found in the Compensated Neutron Litho Density log

EXHIBIT

in the Sun Fed. Com. Well No. 1 (API No. 30-025-30603), located in Unit Letter O of Section 27, Township 22 South, Range 34 East, NMPM.

(c) Attachment C is a 3rd Bone Spring Sand Gross Thickness Map. This map shows the locations of the two proposed 3rd Bone Spring Sand wells, the Perro Loco 27 B3OB Fed. Com. Well No. 1H and the Perro Loco 27/22 B3PA Fed. Com. Well No. 2H.

Only the 3rd Bone Spring is sought to be pooled in these two proposed well units. It is defined as depths from 10,526 feet subsurface to the base of the Bone Spring formation, at a depth of 11,325 feet subsurface, as found in the Compensated Neutron Litho Density log in the Sun Fed. Com. Well No. 1 (API No. 30-025-30603), located in Unit Letter O of Section 27, Township 22 South, Range 34 East, NMPM.

(d) The reason the depths being pooled are limited is because of existing 2nd and 3rd Bone Spring wells in this acreage.

(e) Attachment D is a cross section of the 2nd and 3rd Bone Spring Sands, and shows the planned target zones for each well.

The well logs on the cross-section give a representative sample of the 2nd and 3rd Bone Spring Sands in this area. The sands are continuous and uniformly thick across the well units.

4. I conclude from the maps that:

(a) The horizontal spacing units are justified from a geologic standpoint.

(b) The target zones are continuous and of relatively uniform thickness across the well units.

(c) Each quarter-quarter section in the well units will contribute more or less equally to production from the target zone.

(d) There is no faulting or other geologic impediment in the area which will affect the drilling of the subject wells.

(e) Due to the 3rd Bone Spring Carbonate barrier, production from the 2nd Bone Spring wells will not affect the 3rd Bone Spring wells, and *vice versa*.

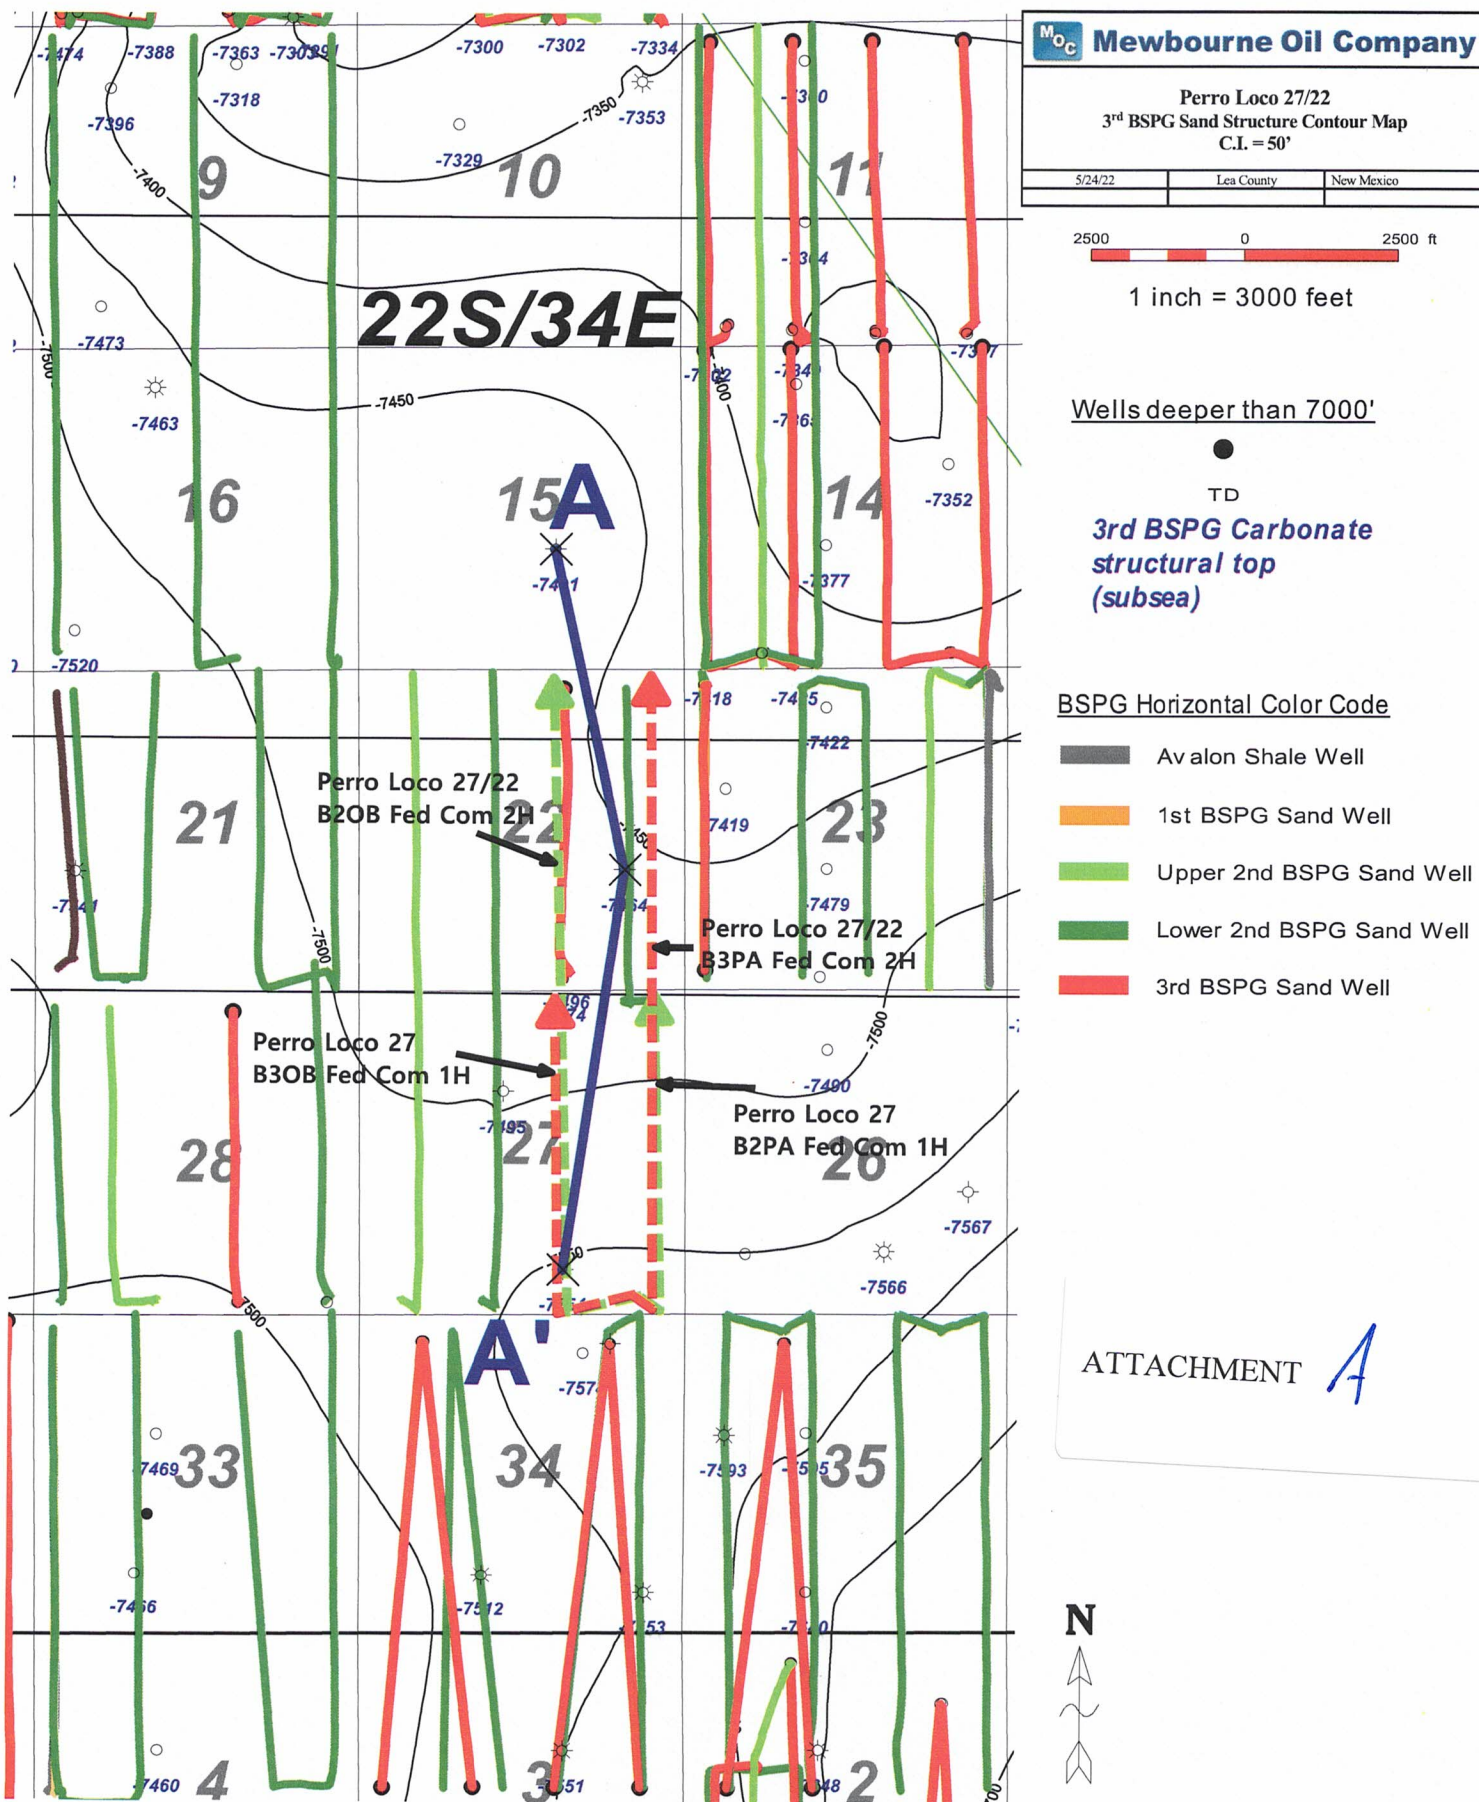

5. Attachment E contains production information from other 2nd and 3rd Bone Spring Sand wells drilled in this area. The 2nd and 3rd Bone Spring wells in this area are all standup wells.

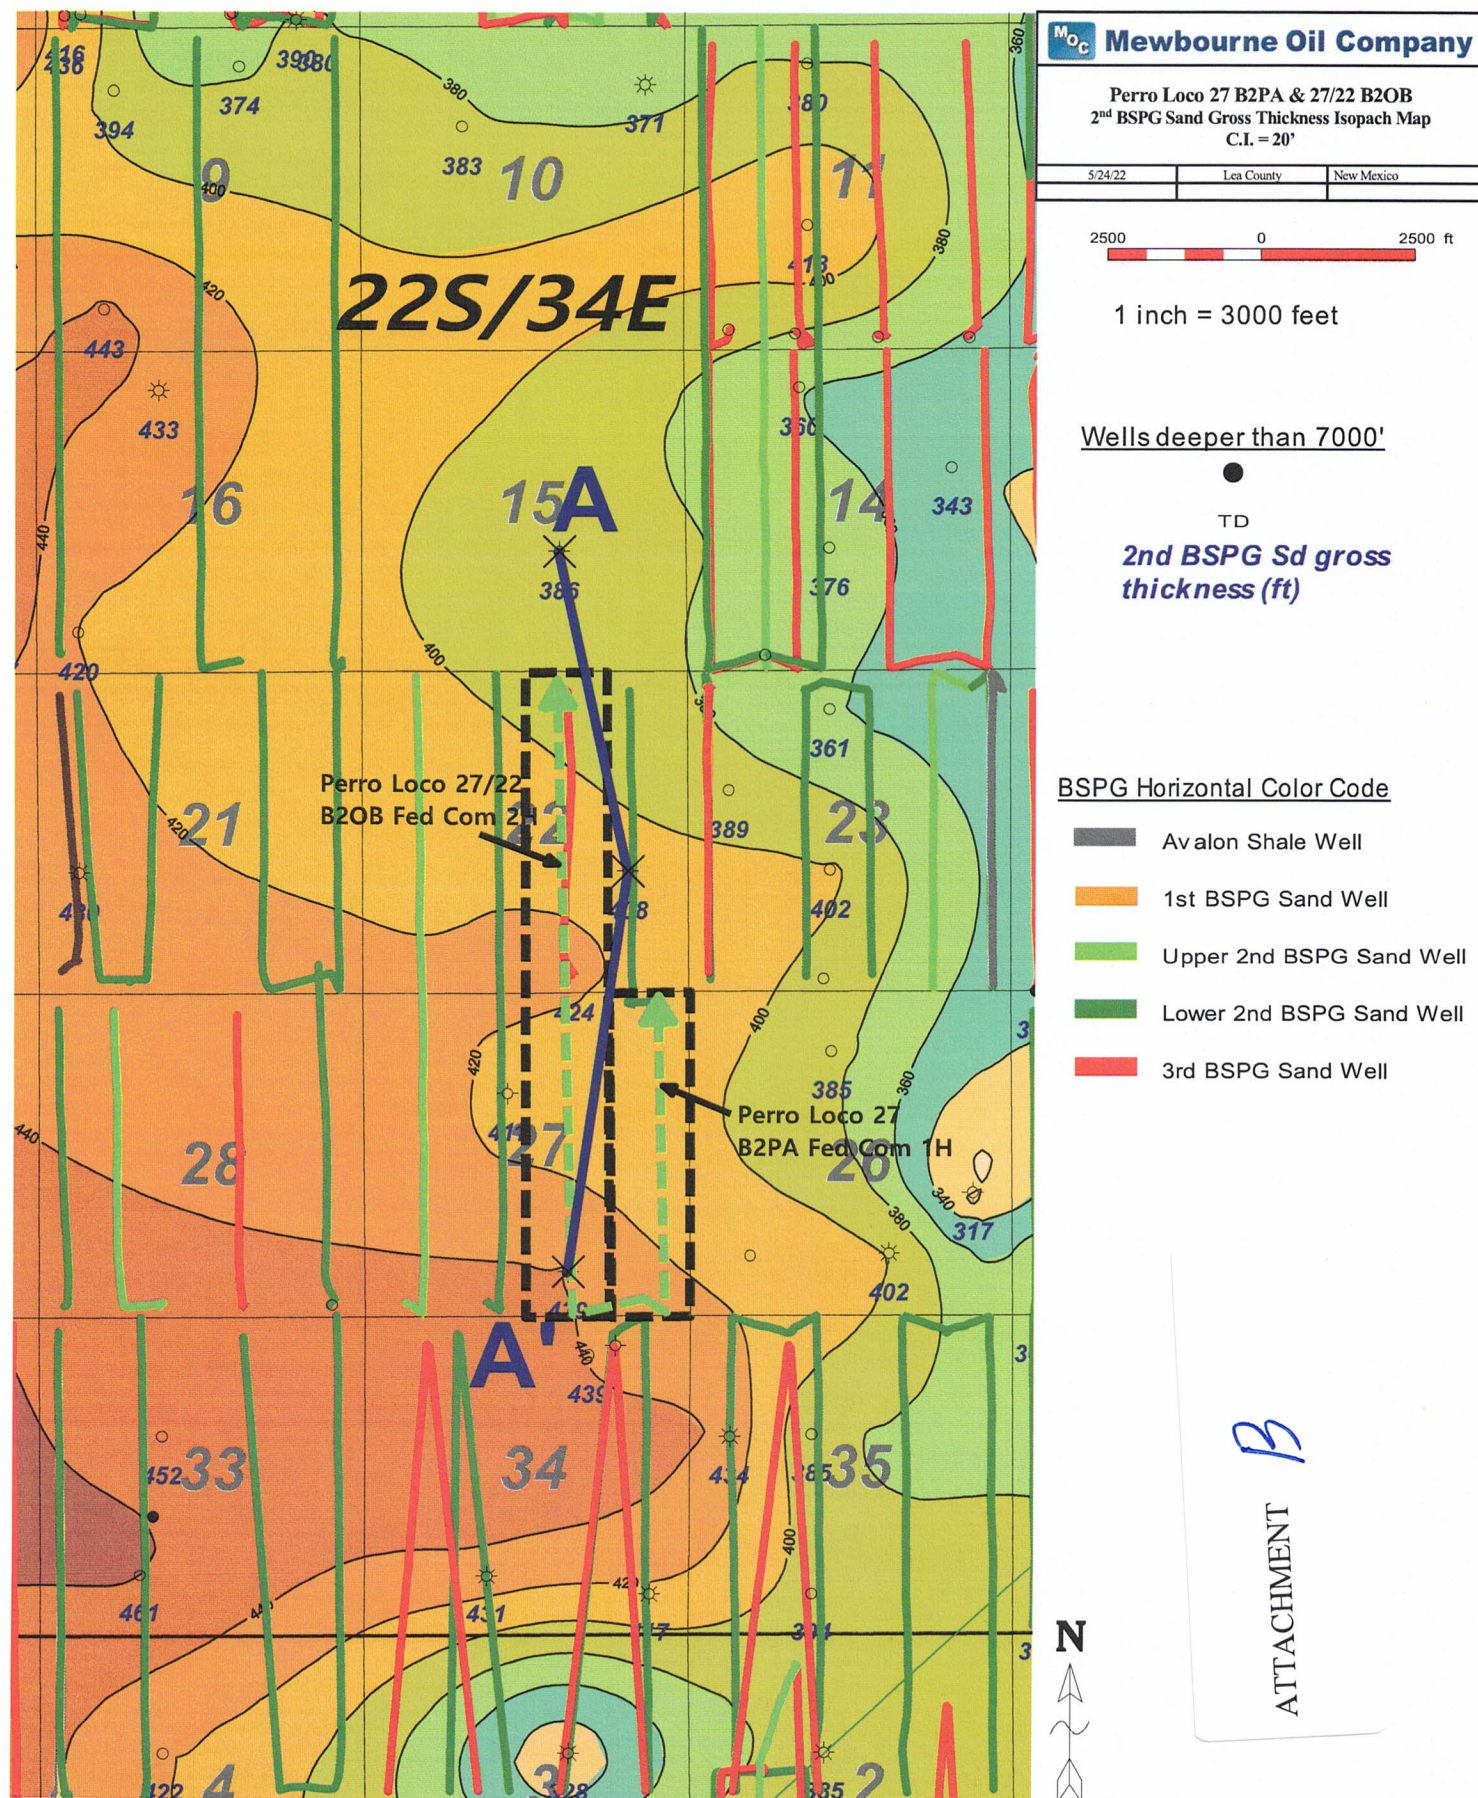

6. Attachment F contains the Horizontal Drilling Plans or Survey Calculation Reports for the proposed wells. The producing intervals of the wells will be orthodox.

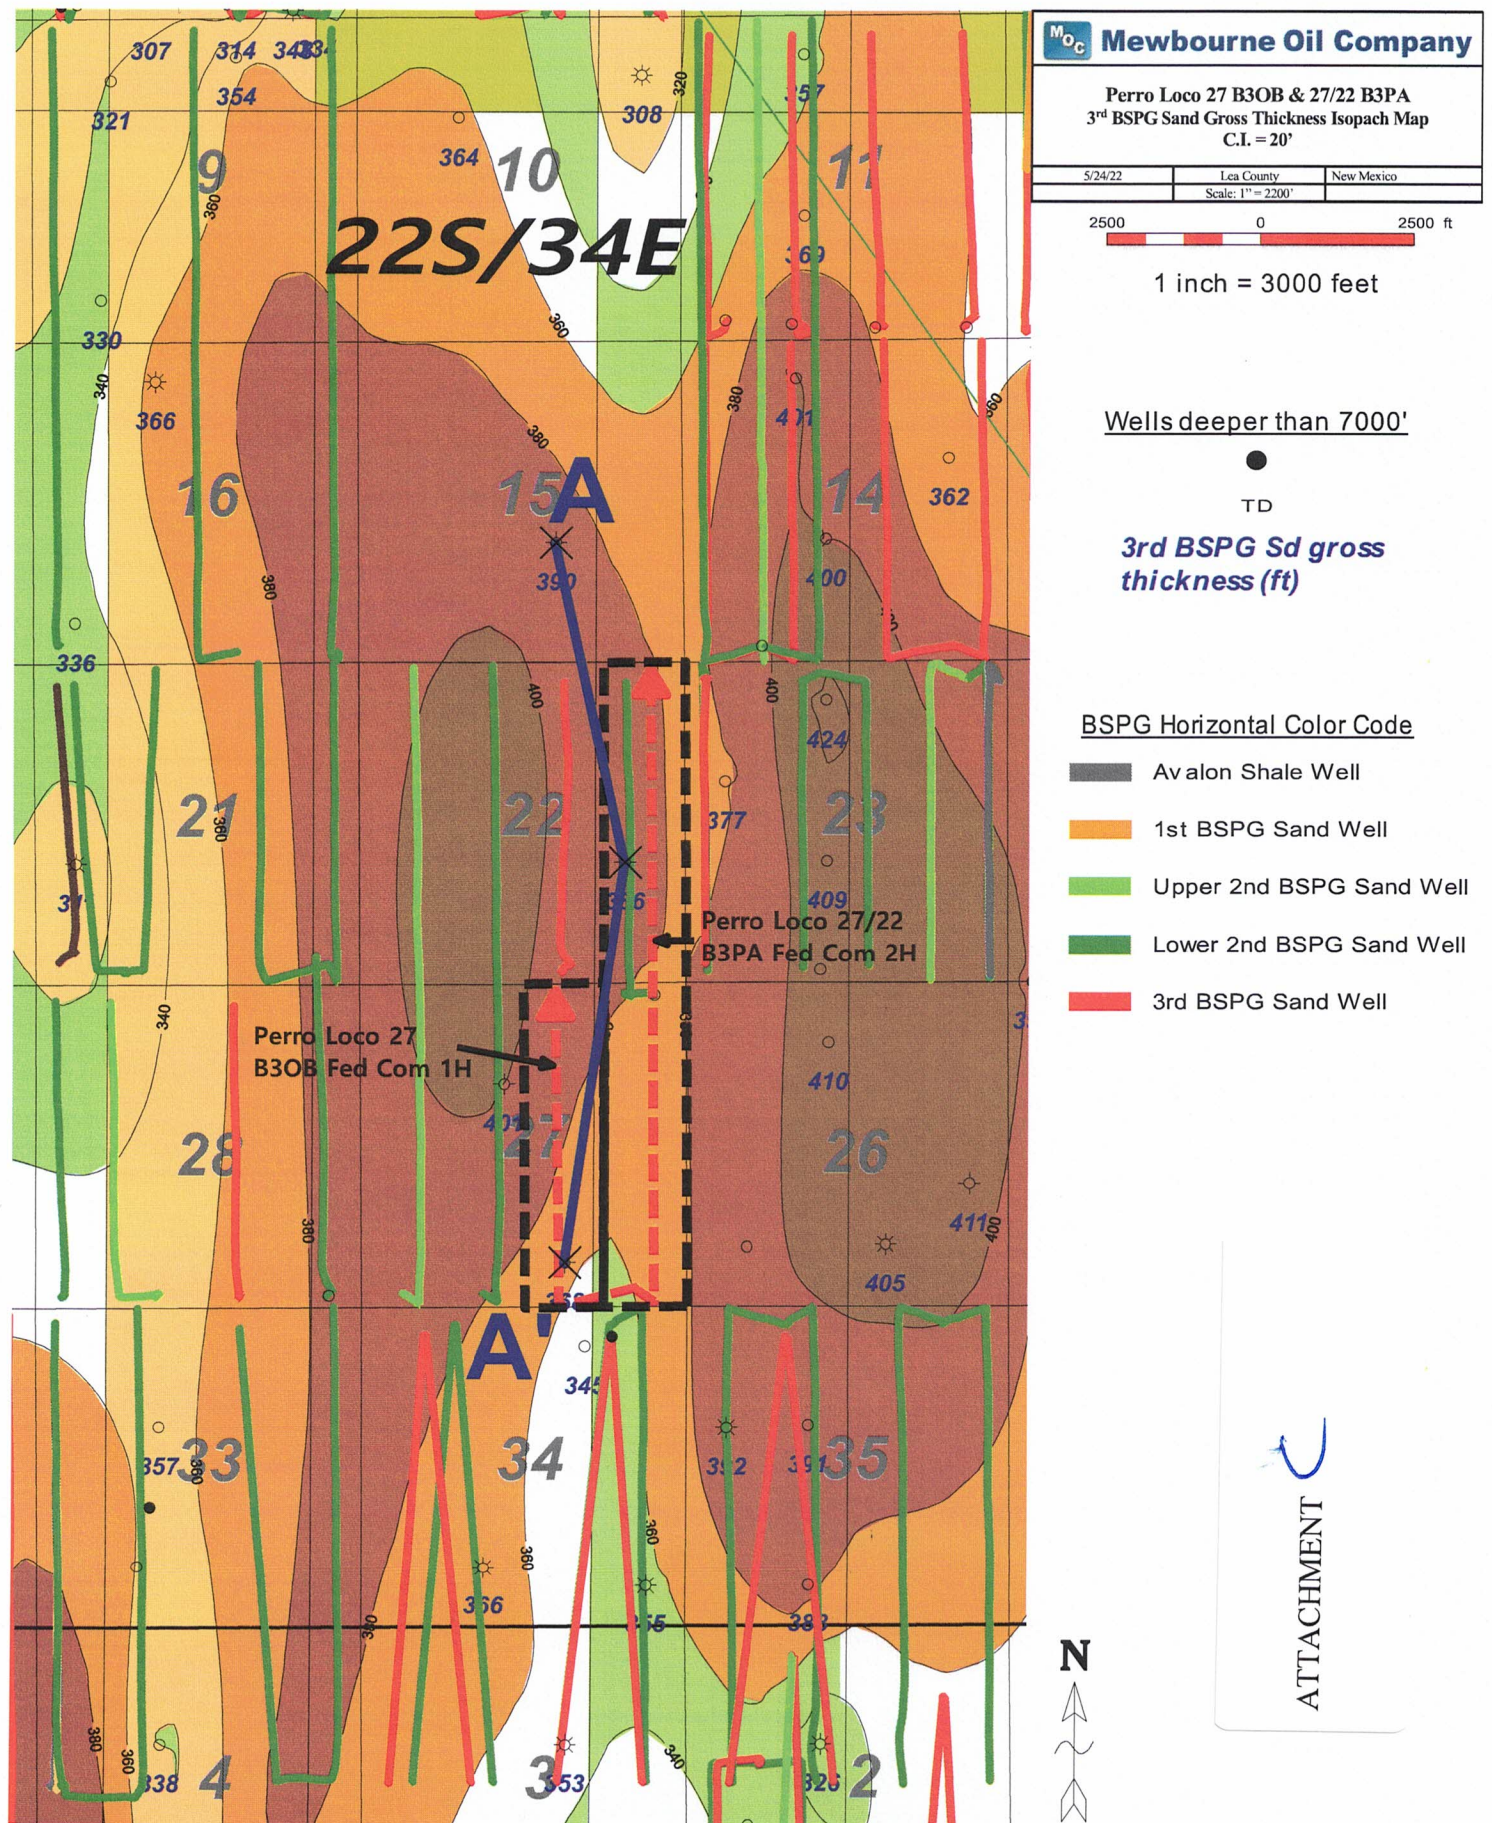

7. I understand that this Self-Affirmed Statement will be used as written testimony in these cases. I affirm that my testimony in paragraphs 1 through 6 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

To whom it may concern:

This letter is to advise you that the enclosed application was filed with the New Mexico Oil Conservation Division. The hearing will be conducted on **April 7, 2022** beginning at 8:15 a.m. *Your interest is not being pooled by this application.* You are receiving this notice because you own an offsetting vertical interest within the Bone Spring formation that is not included in the horizontal spacing unit identified in this application.

During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days in advance of a scheduled hearing, but in no event later than 5:00 p.m. mountain time, on the Thursday preceding the scheduled hearing date. The statement must be filed at the Division's Santa Fe office or submitted through the OCD E-Permitting system (<https://wwwapps.emnrd.state.nm.us/ocd/ocdpermitting/>) and should include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

Thank you for your attention to this matter.

Sincerely,

/s/ Dana S. Hardy
