APPLICATION OF CIMAREX ENERGY CO.  
FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO

Case No. 22969

APPLICATION

Cimarex Energy Co. (“Cimarex”), OGRID No. 215099, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, Section 70-2-17, seeking an order to compulsory pool uncommitted record title owners in the Wolfcamp formation [WC-025 G-08 S243213C; Wolfcamp (Code 98309)] underlying a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 W/2 of Sections 11 and 14, Township 24 South, Range 32 East, NMPM, Lea County, New Mexico.

In support of its Application, Cimarex states the following:

1. Cimarex is a working interest owner in the proposed horizontal spacing and proration unit (“HSU”) and has a right to drill a well thereon.
2. Cimarex proposes and dedicates to the HSU the **Dos Equis 11-14 Federal Com 4H Well**, (API No. 30-025-45413) drilled to the Wolfcamp formation.
3. The **Dos Equis 11-14 Federal Com 4H Well**, an oil well, was horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 11 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 14.

4. The well is orthodox in its location, and the take points and completed interval comply with setback requirements under the statewide rules.

5. The proposed unit overlaps an existing unit in the W/2 W/2 of Sections 11 and 14, containing the Dos Equis 11-14 Federal Com 25H (API No. 30-025-47646), and therefore, Cimarex seeks approval of the for the overlapping unit.

6. Cimarex has been unable to locate certain record title owners (“RTOs”) and has sought in good faith but has been unable to obtain by voluntary agreement the RTOs’ interest for the development of these lands.

7. The pooling of the RTOs’ interests in the Wolfcamp formation within the proposed HSU will facilitate the development of the lands, avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

8. An RTO, that does not own working interest as the case herein, does not participate in the well or receive revenue from production. As such, the RTOs would not be subject to the 200% risk penalty or the overhead costs imposed upon a working interest owner.

WHEREFORE, Cimarex requests that this Application be set for hearing on August 4, 2022, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

A. Approving the standard 320-acre, more or less, spacing and proration unit comprised of the W/2 W/2 of Sections 11 and 14, Township 24 South, Range 32 East, NMPM, Lea County, New Mexico;

B. Pooling all uncommitted record title owners in the Wolfcamp formation underlying the proposed HSU.

C. Approving the **Dos Equis 11-14 Federal Com 4H Well** as the well for the HSU.

D. Designating Cimarex as operator of this HSU and the horizontal well drilled thereon;

E. Considering the appropriate status and application of the 200% risk penalty, actual operating charges, and overhead rates to the extent applicable or necessary within the context of this application.

Respectfully submitted,

ABADIE & SCHILL, PC

***Application of Cimarex Energy Co. for Compulsory Pooling, Lea County, New Mexico.***

Applicant in the above-styled cause seeks an order from the Division to compulsory pool uncommitted record title owners in the Wolfcamp formation [WC-025 G-08 S243213C; Wolfcamp (Code 98309)] underlying a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 W/2 of Sections 11 and 14, Township 24 South, Range 32 East, NMPM, Lea County, New Mexico. The well dedicated to the horizontal spacing unit is the **Dos Equis 11-14 Federal Com 4H Well**, (API No. 30-025-45413), an oil well, horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 11 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 14. The well is orthodox, and the take points and completed interval comply with the setback requirements under the statewide Rules; also to be considered are the designation of the Applicant as Operator of the well and unit, and to the extent necessary, the cost of drilling and completing the well and the allocation of the costs thereof; actual operating costs and charges for supervision; and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 27 miles southeast of Loving, New Mexico.

LEA COUNTY, NEW MEXICO**

**Case No. 22969**

**AFFIDAVIT OF KELSI HENRIQUES**

STATE OF TEXAS            )  
  ) ss.  
COUNTY OF MIDLAND    )

I, being duly sworn on oath, state the following:

1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.

2. I am employed as a Landman with Cimarex Energy Co. (“Cimarex”), and I am familiar with the subject application and the lands involved.

3. I graduated in May of 2017 from The University of Tulsa with a bachelor’s degree in Energy Management and a minor in Finance. I also graduated in May of 2022 from Texas Tech University with a Master’s in Business Administration. I have worked at Cimarex for approximately 2 years, and I have been working in New Mexico for 2 years. I have testified previously before the New Mexico Oil Conservation Division (“Division”), and my credentials as a petroleum landman have been accepted by the Division and made a matter of record.

4. This testimony is submitted in connection with the filing by Cimarex of the above-referenced compulsory pooling application pursuant to 19.15.4.12.A(1) NMAC.

5. The purpose of this application is to force pool uncommitted record title owner Guy A. Baber, III, and any heirs or successors of said record title owner, in the horizontal spacing unit described below.

6. Cimarex seeks an order pooling uncommitted record title owners in the Wolfcamp formation [WC-025 G-08 S243213C (Pool Code 98309)], designated as an oil pool, underlying a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 W/2 of Sections 11 and 14, Township 24 South, Range 32 East, NMPM, Lea County, New Mexico.

7. Cimarex dedicates the unit to the **Dos Equis 11-14 Federal Com 4H Well**, (API No. 30-025-45413) drilled to the Wolfcamp formation.

8. The Dos Equis 11-14 Federal Com 4H Well, an oil well, was horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 11 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 14.

9. This Well is actively and commercially producing from the Wolfcamp formation and was drilled and developed by Cimarex pursuant to a JOA that included all working interest owners and the Division's approval on November 21, 2018, of the APD.

10. The Well is orthodox, and the completed interval and first and last take points for the Well meet the setback requirements under statewide rules. As drilled, the First Take Point (FTP) is 322' from the West Line and 1212' from the North Line, and the Last Take Point (LTP) is 328' from the West Line and 101' from the South Line.

11. A plat outlining the unit being pooled is attached hereto as **Exhibit A-2**.

12. The record title owner being pooled, and his last known address are listed on **Exhibit A-2** attached hereto.

13. The record title owner does not own working interest, has no right of participation, and is not allocated any proceeds from production; therefore, there are no depth severances in the Wolfcamp formation that would affect the pooled interest.

14. The location of the well, as drilled, is as follows:

<b>Well Name</b>	<b>SHL</b>	<b>BHL</b>	<b>TVD</b>	<b>TMD</b>
Dos Equis 11-14 Federal Com 4H	530' FNL and 370' FWL of Section 11	101' FSL and 328' FWL of Section 14	12,355'	21,967'

15. I provided the law firm of Abadie & Schill P.C. the name and address for the uncommitted record title owner shown on Exhibit A-2. In finding this address, I conducted a diligent search of the public records in Lea County, New Mexico, where the well is located, and of phone directories and did computer searches to locate the contact information for parties entitled to notification. Because the record title owner was non-responsive, notice of this hearing was published in the Hobbs News-Sun, a newspaper of general circulation in Lea County, New Mexico, to cover any contingencies involving notice. Efforts to contact and communicate with Guy A. Baber, III, the record title owner, are shown in **Exhibit A-3**.

16. Cimarex has made a good faith effort to in attempting to locate the record title owner in order to obtain his voluntary agreement to the well.

17. The C-102 for the well, as drilled, is attached as **Exhibit A-1**.

18. The proposed unit overlaps an existing unit in the W/2 W/2 of Sections 11 and 14, containing the Dos Equis 11-14 Federal Com 25H (API No. 30-025-47646), and therefore, Cimarex seeks approval of the for the overlapping unit.

19. Since the record title owner does not own working interest and cannot participate in the proceeds of the well, the risk penalty and overhead charges do not apply.

20. Cimarex requests that it be designated operator of the unit and well consistent with its APD.

21. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.

22. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

23. The foregoing is correct and complete to the best of my knowledge and belief.

Re: Application of Cimarex Energy Co. for a compulsory pooling, Lea County, New Mexico  
Dos Equis 11-14 Federal Com 4H Well (Case No. 22969)

Case No. 22969:

Dear Interest Owner:

This letter is to advise you that Cimarex Energy Co. (“Cimarex”) has filed the enclosed application in Case No. 22969 with the New Mexico Oil Conservation Division (“Division”) for the compulsory pooling of units in the Wolfcamp formation.

In Case No. 22969, Devon seeks to pool the Wolfcamp formation underlying the W/2 W/2 of Sections 11 and 14, Township 24 South, Range 32 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 4H Well.

A hearing has been requested before a Division Examiner on August 4, 2022, and the status of the hearing can be monitored through the Division’s website. Division hearings will commence at 8:15 a.m., traditionally in Porter Hall at the Oil Conservation Division’s Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. However, under the COVID-19 Public Health policies, the hearing will be conducted remotely online. For information about remote access and status of the case, you can visit the Division’s website at: <https://www.emnrd.nm.gov/ocd/hearing-info/> or call (505) 476-3441.

You are being notified as a Record Title Owner, not a Working Interest owner with operating rights, and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.
