STATE OF TEXAS                        )

Charles Crosby deposes and states:

1. I am over the age of 18, and have personal knowledge of the matters stated herein.
2. I am a geologist for Mewbourne Oil Company ("Mewbourne"), and I am familiar with the geological matters involved in these cases. I have been qualified by the Division as an expert petroleum geologist.
3. The following geological plats are attached hereto:
  - (a) Attachment A is a structure map on the top of the Wolfcamp Structure. It shows that structure dips gently to the east-southeast. It also shows Wolfcamp Sand wells in the area (the zone to be tested by the Overlord wells), and a line of cross-section.
  - (c) Attachment B is a cross section showing the upper Wolfcamp formation. The well logs on the cross-section give a representative sample of the upper Wolfcamp formation in this area. The sand is continuous and uniformly thick across the well units.
4. I conclude from the maps that:
  - (a) The horizontal spacing units are justified from a geologic standpoint.
  - (b) The target zone is continuous and of uniform thickness across the well units.
  - (c) Each quarter-quarter section in a well unit will contribute more or less equally to production.
  - (d) There is no faulting or other geologic impediment in the area which will affect the drilling of the subject wells.

5. Attachment C contains Survey Calculation Reports for the proposed wells. horizontal Drilling plans have not yet been generated on these wells. However, they are based 100% on the Survey Calculation Reports.

6. The producing interval of the wells will be orthodox.

I understand that this Self-Affirmed Statement will be used as written testimony in these cases. I affirm that my testimony in paragraphs 1 through 6 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.
