## STATEMENT OF THE CASE

In this case, Applicant seeks an order from the Division pooling all uncommitted interests in the Yeso formation (Red Lake; Glorieta-Yeso, Northeast [96836]) in a standard 320-acre, more or less, horizontal spacing and proration unit ("HSU") comprised of the S/2 of Section 31, Township 17 South, Range 28 East in Eddy County, New Mexico. The HSU is to be dedicated to the following one-mile wells: (1) **Marley State Com 31CD 001H** well, to be horizontally drilled from an approximate surface hole location 2098' FSL and 332' FEL of Section 36, T17S-R27E, to an approximate bottom hole location 2266' FSL and 20' FEL of Section 31, T17S-R28E; (2) **Marley State Com 31CD 002H** well, to be horizontally drilled from an approximate surface hole location 2078' FSL and 332' FEL of Section 36, T17S-R27E, to an approximate bottom hole location 1786' FSL and 20' FEL of Section 31, T17S-R28E; (3) **Marley State Com 31CD 003H** well, to be horizontally drilled from an approximate surface hole location 805' FSL and 464' FEL of Section 36, T17S-R27E, to an approximate bottom hole location 1304' FSL and 20' FEL of Section 31, T17S-R28E; (4) **Marley State Com 31CD 004H** well, to be horizontally drilled from an approximate surface hole location 785' FSL and 464' FEL of Section 36, T17S-R27E, to an approximate bottom hole location 822' FSL and 20' FEL of Section 31, T17S-R28E; and (5) **Marley State Com 31CD 005H** well, to be horizontally drilled from an approximate surface hole location 765' FSL and 464' FEL of Section 36, T17S-R27E, to an approximate bottom hole location 341' FSL and 20' FEL of Section 31, T17S-R28E.

The Marley State Com 31CD 003H well is a proximity well located within the S/2 S/2 of Section 31, T17S-R28E. Its completed interval will be less than 330' from the N/2 S/2 of Section 31, T17S-R28E. Longfellow therefore proposes to include the N/2 S/2 of Section 31, T17S-R28E as proximity tracts under 19.15.16.15(B)(1)(b) NMAC. With the proximity tracts included, the

first and last take points and completed intervals meet the setback requirements set forth in the statewide rules for horizontal oil wells.

Also to be considered in the above-referenced case will be the cost of drilling and completing the wells and allocation of the costs, the designation of Applicant as Operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 12 miles southeast of Artesia City, New Mexico.

### **PROPOSED EVIDENCE**

#### **APPLICANT:**

WITNESSES	EST. TIME	EXHIBITS
Ryan Reynolds, Landman	By affidavit	7-8
Jennifer Eker, Geologist	By affidavit	6-7

### **PROCEDURAL MATTERS**

Assuming no opposition at the time of hearing, this case will be presented by affidavit.

Respectfully submitted,

**MONTGOMERY & ANDREWS, PA.**
