DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATION OF STEWARD ENERGY II,  
LLC FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO**

**CASE NO. 23413**

**SELF-AFFIRMED STATEMENT  
OF TAYLOR WARREN**

1. I am a land manager with Steward Energy II, LLC (“Steward”). I am over the age of 18, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement, I have previously testified before the New Mexico Oil Conservation Division (“Division”) and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. I am familiar with the land matters involved in the above-referenced case. Copies of Steward’s Application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit, therefore I do not expect any opposition at hearing.

4. Steward seeks an order pooling all uncommitted interests in the Bronco; San Andres South Pool (Code 7500) within the San Andres formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the W/2 of Section 10, Township 13 South, Range 38 East, Lea County, New Mexico (“Unit”).

5. The Unit will be dedicated to the **Lawyer Up Fee 5H** well (“Well”), which will be horizontally drilled from a surface hole location in the NW/4 NE/4 (Unit B) of Section 15, Township 13 South, Range 38 East, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 10, Township 13 South, Range 38 East.

**Steward Energy II, LLC  
Case No. 23413 - Exhibit A**

6. The completed interval of the Well will be located within 330' of the quarter-quarter section line separating the W/2 W/2 and E/2 W/2 of Section 10 to allow for the creation of a 320-acre standard horizontal spacing unit. The completed interval of the Well will be orthodox.

7. **Exhibit A-2** contains the C-102 for the Well.

8. **Exhibit A-3** contains a plat identifying ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests Steward seeks to pool highlighted in yellow.

9. Steward located an address for each party it seeks to pool, but it is unclear whether each address is valid since some of the hearing notice letters were returned as undeliverable. As discussed below, Steward conducted extensive research to locate the parties it seeks to pool.

10. With respect to Steward's efforts to locate parties, Steward conducted a diligent search of all relevant county public records, phone directories and computer databases a landman in the normal course of business would search. Over the course of several years since leasing activity began, the lease broker, Shaw Interests, Inc., and our in-house Landman, Cooper Newlan, each conducted their own diligent searches, and worked in conjunction, to locate unlocatable parties. Each used <https://www.google.com/> to obtain as many details as possible prior to conducting searching on websites that included the following:

<https://accurint.com/> (a Lexis-Nexis paid subscription search service)

<https://www.ancestry.com/>

<https://www.familysearch.org/en/>

<https://www.findagrave.com/>

<https://www.legacy.com/>

<https://www.newspapers.com/>

<https://www.whitepages.com/>

11. Shaw Interests, Inc. sent correspondence and lease offer packages to confirmed and prospective addresses. Additionally, telephone calls were made in an attempt to reach the relatives/heirs.

12. **Exhibit A-4** contains a sample well proposal letter and AFE sent to working interest owners for the Well. The estimated costs reflected on the AFE are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

13. In my opinion, Steward made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-5**.

14. Steward requests overhead and administrative rates of \$7,000.00 per month while the Well is being drilled and \$700.00 per month while the Well is producing. These rates are fair and are comparable to the rates charged by Steward and other operators in the vicinity.

15. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

16. In my opinion, the granting of Steward's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

17. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

**CASE NO. 23413**

**APPLICATION**

Pursuant to NMSA § 70-2-17, Steward Energy II, LLC (OGRID No. 371682) (“Applicant”) applies for an order pooling all uncommitted interests in the San Andres formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the W/2 of Section 10, Township 13 South, Range 38 East, Lea County, New Mexico (“Unit”). In support of its application, Steward states the following:

1. Applicant is a working interest owner in the Unit and has the right to drill wells thereon.
2. The Unit will be dedicated to the **Lawyer Up Fee #5H** well, to be drilled from a surface hole location in the NW/4 NE/4 (Unit B) of Section 15, Township 13 South, Range 38 East, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 10, Township 13 South, Range 38 East.
3. The completed interval of the Well will be orthodox.
4. The completed interval of the well will be located within 330’ of the quarter-quarter section line separating the W/2 W/2 and E/2 W/2 of Section 10 to allow for the creation of a 320-acre standard horizontal spacing unit.
5. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Well but has been unable to obtain voluntary agreements from all interest owners.

**Steward Energy II, LLC  
Case No. 23413 - Exhibit A-1**

6. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted mineral interests in the Unit should be pooled and Applicant should be designated the operator of the Well and Unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on April 6, 2023, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Well in the Unit;
- C. Designating Applicant as operator of the Unit and the Well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the Well;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Well against any working interest owner who does not voluntarily participate in the drilling of the Well.

Respectfully submitted,

Dear Working Interest Owner,

This letter will serve as notice regarding the plans of Steward Energy II, LLC (“Steward”) to drill the LAWYER UP FEE #5H (“Well”) as a horizontal well, targeting the San Andres Formation with an approximate total depth drilled of 5,300 feet. The Well’s surface hole will be located approximately 670 feet from the north boundary line and 1200’ feet from the west boundary line of Section 15, Township 13 South, Range 38 East, N.M.P.M. and is subject to change based on final determination. The producing intervals of the Well will be located within a standard horizontal spacing unit described as being the West Half (W/2) of Section 10, Township 13 South, Range 38 East, N.M.P.M. (“Spacing Unit”). The Well’s first take point will be located approximately 100 feet from the south boundary line and 1200 feet from the west boundary line of the Spacing Unit. The Well’s last take point will be located approximately 100 feet from the north boundary line and 1200 feet from the west boundary line of the Spacing Unit.

Steward’s ownership records indicate that you own a working interest within the Spacing Unit, and as a working interest owner you are offered participation in the Well based upon your proportionate interest in the Spacing Unit. Your proportionate interest and share of cost in the Well are noted at the bottom of the attached Authorization for Expenditure (“AFE”). The itemized cost of the Well is listed on the AFE, and the total cost for drilling is \$2,722,500, with an additional \$2,112,693 to complete the well (Total \$4,835,193). *This AFE is an estimate only and by execution of same, you commits to pay its proportionate share of actual cost incurred.*

Please indicate your election as to your participation in the Well by checking the appropriate box in the space provided below and returning the second page of this letter to Steward using the enclosed envelope. In the event you elect to participate in the well, please also sign the bottom of the attached AFE, and include it within the envelope as well.

**APPLICATION OF STEWARD ENERGY II,  
LLC FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO**

**CASE NO. 23413**

**SELF-AFFIRMED STATEMENT  
OF SHANE SEALS**

1. I am a geologist at Steward Energy II, LLC (“Steward”) and am over 18 years of age. I have personal knowledge of the matters addressed herein and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my credentials as an expert in petroleum geology matters were accepted and made a matter of record.

2. I am familiar with the geological matters that pertain to the above-referenced case.

3. **Exhibit B-1** is a location map of the proposed horizontal spacing unit (“Unit”) within the San Andres formation. The approximate wellbore paths for the proposed **Lawyer Up Fee 5H** well (“Well”) is represented by a light green dashed line. Existing producing wells in the targeted interval are represented by thin, light blue solid lines.

4. **Exhibit B-1** also contains a subsea structure map for the top of the Pi Marker in the San Andres formation that is representative of the targeted interval within the formation. The data points are indicated by red circles. The approximate wellbore path for the Well is depicted by a light green dashed line. The map demonstrates the formation is gently dipping to the south in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal wells.

**Steward Energy II, LLC  
Case No. 23413 - Exhibit B**

5. **Exhibit B-1** identified three wells penetrating the targeted interval I used to construct a stratigraphic cross-section from A to A'. I used these well logs because they penetrate the targeted interval, are of good quality, and are representative of the geology in the area.

6. **Exhibit B-2** is a stratigraphic cross-section using the representative wells identified on **Exhibit B-1**. It contains gamma ray, resistivity, and porosity logs. The proposed landing zone for the Well is labeled on the exhibit. This cross-section demonstrated the target interval is continuous across the Unit.

7. In my opinion, a standup orientation for the Well is appropriate to properly develop the subject acreage because of consistent rock properties throughout the Unit and slightly dominant stress regime that yields a preferred fracture orientation in this portion of the trend.

8. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the Well.

9. In my opinion, the granting of Steward's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

10. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.

11. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.
