**APPLICATION OF MR NM OPERATING,

EDDY COUNTY, NEW MEXICO.**

**CASE NO. 23591**

**SELF-AFFIRMED STATEMENT  
OF BLAKE SIMMONS**

1. I am a Land Manager with MR NM Operating, LLC (“MR NM”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have not previously testified before the New Mexico Oil Conservation Division (“Division”)

2. I have a Juris Doctor degree from the University of Tulsa. I have 16 years of experience in petroleum land matters. My experience has focused on upstream oil and gas land management. A copy of my resume is attached as **Exhibit A-1**.

3. I am familiar with the land matters involved in the above-referenced case. Copies of MR NM’s Application and proposed hearing notice are attached as **Exhibit A-2**.

4. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit. Therefore, I do not expect any opposition at hearing.

5. MR NM applies for an order pooling all uncommitted interests the Abo formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the N/2 S/2 of Sections 35 and 36, Township 16 South, Range 27 East, Eddy County, New Mexico (“Unit”).

6. The Unit will be dedicated to the proposed **Buckskin Federal Com 2H** well (“Well”), which will be completed in WC 015 G-5 1627S35M; Abo Pool (Code 98312). The Well will be drilled from a surface hole location in the NW/4 SW/4 (Unit L) of Section 35 to a bottom hole location in the NE/4 SE/4 (Unit I) of Section 36.

**Exhibit A (Case No. 23591)**

**MR NM Operating, LLC**

7. The completed interval of the Well will be orthodox.
8. **Exhibit A-3** contains the C-102 for the Well.
9. **Exhibit A-4** contains a plat that identifies ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests MR NM seeks to pool highlighted in yellow.
10. MR NM has conducted a diligent search of all county public records including phone directories and computer databases, to locate the interest owners it seeks to pool.
11. **Exhibit A-5** contains a sample well proposal letter and the AFE sent to the working interest owners for the Well. The estimated costs reflected on the AFE is fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.
12. In my opinion, MR NM made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-6**.
13. MR NM requests overhead and administrative rates of \$8,000.00 per month while the Well is being drilled and \$800.00 per month while the Well is producing. These rates are fair and are comparable to the rates charged by MR NM and other operators in the vicinity.
14. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.
15. In my opinion, the granting of MR NM's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.
16. I understand this Self-Affirmed Statement will be used as written testimony in the subject cases. I affirm that my testimony above is true and correct and is made under penalty of

perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

**APPLICATION OF MR NM OPERATING,  
LLC FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NO. 23591**

**SELF-AFFIRMED STATEMENT  
OF MARY GRACE MORAN**

1. I am a geologist with MR NM Operating, LLC (“MR NM”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have not previously testified before the New Mexico Oil Conservation Division (“Division”)

2. I have a Master of Science degree from Texas Christian University and a Bachelor of Science degree from Louisiana State University. I have two and a half years of experience in petroleum geology matters. My experience has focused on the Yeso and Abo formations of the Northwest Shelf, specifically in Eddy County, New Mexico. A copy of my resume is attached as **Exhibit B-1**.

3. I am familiar with the geological matters that pertain to the above-referenced case.

4. **Exhibit B-2** is a location map of the proposed horizontal spacing unit comprised of the N/2 S/2 of Sections 35 and 36, Township 16 South, Range 27 East, Eddy County, New Mexico (“Unit”).

5. **Exhibit B-3** is a structure map for the top of the Abo formation in subsea TVD with contour intervals of 25 ft. Map control points are shown in red. Approximate wellbore path for the proposed **Buckskin Federal Com 2H** well is represented by an orange dashed line. The map demonstrates that the formation is gently dipping to the east to southeast in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted interval with

horizontal wells. The map also identifies the location of a three well cross-section running from A-A', which penetrate each targeted interval and are in proximity to the proposed well. I used these well logs because they penetrate the targeted intervals, are of good quality, and are representative of the geology in the area.

6. **Exhibit B-4** is a structural cross-section using the representative wells identified on Exhibit B-3. It contains gamma ray and resistivity logs. The proposed landing zone for the well is labeled on the exhibit. This cross-section demonstrates the target interval is continuous across the Unit.

7. **Exhibit B-5** is a gun barrel, or cross-sectional view of the proposed development plan for this Unit. This shows vertical and horizontal spacing within the unit.

8. In my opinion, a laydown orientation for the proposed wells is appropriate to properly develop the subject acreage because of an established directional pattern and the known general orientation of maximum horizontal stress in this portion of the trend.

9. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute equally to the production of the well.

10. In my opinion, the granting of MR NM's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

11. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

12. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under

the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.
