APPLICANT'S STATEMENT OF THE CASES

In **Case No. 25415**, Permian Resources seeks an order to amend Order No. R-23221 ("Order") to allow additional time to commence drilling the initial well authorized by the pooling Order.

On May 30, 2024, the Division issued Order No. R-23221 in Case No. 24343, creating a standard 640-acre, more or less, horizontal well spacing unit in the Bone Spring formation (Esperanza; Bone Spring [97755]) comprised of the N/2 of Section 7, Township 22 South, Range

27 East, and the N/2 of Section 12, Township 22 South, Range 26 East, NMPM, Eddy County, New Mexico (the “Unit”). SPC Resources, LLC was designated as operator and Order No. R-23221 dedicates the Unit to the proposed initial **Hanna 131H** well. Permian has since acquired this property and seeks an additional one-year extension.

There is good cause for Applicant’s request for an extension of time to drill. Permian requests that Order No. R-23221 be re-opened and amended to allow Applicant additional time to commence drilling the wells under the Order and to designate Permian Resources Operating as operator of the Unit and the initial well. Under the Order, Applicant would be required to commence drilling the well by May 30, 2025, and, therefore, asks for the deadline to commence drilling the well be extended for a year, to May 30, 2026.
