COMPULSORY POOLING APPLICATION CHECKLIST	
ALL INFORMATION IN THE APPLICATION MUST BE SUPPORTED BY SIGNED AFFIDAVITS	
Case: 25335	APPLICANT'S RESPONSE
Date: August 7, 2025	
Applicant	Admiral Permian Operating LLC
Designated Operator & OGRID (affiliation if applicable)	Admiral Permian Operating LLC (OGRID No. 332762)
Applicant's Counsel:	Hardy McLean LLC
Case Title:	Application of Admiral Permian Operating LLC for Compulsory Pooling and Approval of Non-Standard Spacing Unit, Eddy County, New Mexico.
Entries of Appearance/Intervenors:	MRC Permian Company
Well Family	War Pigeon
Formation/Pool	
Formation Name(s) or Vertical Extent:	Bone Spring
Primary Product (Oil or Gas):	Oil
Pooling this vertical extent:	Bone Spring
Pool Name and Pool Code:	Carlsbad; Bone Spring, South Pool (Code 9670)
Well Location Setback Rules:	Statewide
Spacing Unit	
Type (Horizontal/Vertical)	Horizontal
Size (Acres)	1,270.84
Building Blocks:	Quarter-Quarter
Orientation:	West to East
Description: TRS/County	All of Irregular Sections 5 and 6, Township 24 South, Range 27 East, Eddy County, New Mexico.
Standard Horizontal Well Spacing Unit (Y/N), If No, describe and is approval of non-standard unit requested in this application?	No. Approval of a non-standard horizontal spacing unit is requested with this application.
Other Situations	
Depth Severance: Y/N. If yes, description	No.
Proximity Tracts: If yes, description	No.
Proximity Defining Well: if yes, description	N/A
Applicant's Ownership in Each Tract	Exhibit A-3
Well(s)	
Name & API (if assigned), surface and bottom hole location, footages, completion target, orientation, completion status (standard or non-standard) <i>*In lieu of the bottom hole location, Earthstone is providing the State Line Crossing</i>	Add wells as needed
Well #1	War Pigeon Fed Com 301H SHL: 1534' FNL & 300' FWL (Lot 5), Section 6, T24S-R27E BHL: 330' FNL & 100' FEL (Lot 1), Section 5, T24S-R27E Completion Target: Bone Spring (Approx. 6600' TVD)

APPLICATION OF ADMIRAL PERMIAN
OPERATING LLC FOR COMPULSORY
POOLING AND APPROVAL OF NON-
STANDARD SPACING UNIT, EDDY
COUNTY, NEW MEXICO.

CASE NO. 25335

SELF-AFFIRMED STATEMENT
OF HUNTER HALL

1. I am employed as the Land Manager of Admiral Permian Operating LLC ("Admiral Permian"). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division ("Division") and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. I am familiar with the land matters involved in this case. Copies of Admiral Permian's (OGRID No. 332762) application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit; therefore I do not expect any opposition at hearing.

4. Admiral Permian applies for an order pooling all uncommitted interests in the Bone Spring formation underlying a 1,270.84-acre, more or less, non-standard horizontal spacing unit comprised of all of irregular Sections 5 and 6, Township 24 South, Range 27 East, Eddy County, New Mexico ("Unit").

5. The Unit will be dedicated to the following wells ("Wells"):

Admiral Permian Operating LLC
Case No. 25335
Exhibit A

- a. **War Pigeon Fed Com 301H** and **War Pigeon Fed Com 321H**, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in Lot 1 (NE/4 NE/4 equivalent) of Section 5;
 - b. **War Pigeon Fed Com 302H** and **War Pigeon Fed Com 322H**, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 NE/4 (Unit H) of Section 5;
 - c. **War Pigeon Fed Com 303H** and **War Pigeon Fed Com 323H**, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the NE/4 SE/4 (Unit I) of Section 5; and
 - d. **War Pigeon Fed Com 304H** and **War Pigeon Fed Com 324H**, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 SE/4 (Unit P) of Section 5.
6. The completed intervals of the Wells will be orthodox.
 7. **Exhibit A-2** contains the C-102s for the Wells.
 8. **Exhibit A-3** contains a plat identifying ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests Admiral Permian seeks to pool highlighted in yellow.
 9. **Exhibit A-4** is a map that depicts the non-standard spacing unit in relation to the offset tracts. The map also identifies the offset operators and affected parties in the tracts surrounding the proposed Unit, who were provided notice of Admiral Permian's application.
 10. Admiral Permian's request for approval of a non-standard spacing unit will allow it to consolidate surface facilities and will consequently prevent surface, environmental, and economic waste.

11. The non-standard spacing unit will reduce surface waste. Centralizing equipment for the Wells will reduce the total acreage needed for surface facilities by 30% of the total amount that would be necessary absent a non-standard unit.

- a. Surface facilities and equipment, pipelines, and rights of way for one well cost approximately \$2.1MM. The centralized facilities will be larger, so that they may handle production from multiple wells. I estimate that a non-standard unit would result in savings of approximately \$7.2MM, which will reduce the overall well costs and improve economics for the Unit.
- b. A common facility also reduces the number of flares Admiral may need to use in case of emergency from 8 to 1. Additionally, the gas sales line in the area averages approximately 750 psig and requires compression. A single facility reduces the number of compression facilities from 8 to 2, which will reduce emissions.

12. Approval of a non-standard spacing unit is necessary to prevent waste and protect correlative rights.

13. Admiral Permian has conducted a diligent search of all county public records, including phone directories and computer databases, as well as internet searches, to locate the interest owners it seeks to pool.

14. **Exhibit A-5** contains a sample well proposal letter and AFEs sent to working interest owners for the Wells. The estimated costs reflected on the AFEs are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

15. In my opinion, Admiral Permian made a good-faith effort to reach voluntary joinder of uncommitted interests in the Wells as indicated by the chronology of contact described in **Exhibit A-6**.

16. Admiral Permian requests that it be designated as operator of the Unit and the Wells. Admiral Permian requests overhead and administrative rates of \$12,000 per month while the Wells are being drilled and \$1,200 per month while the Wells are producing. These rates are fair and are comparable to the rates charged by Admiral Permian and other operators in the vicinity.

17. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

18. In my opinion, the granting of Admiral Permian's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

19. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my electronic signature below.

HUNTER HALL

Date 4/16/25

**STATE OF NEW MEXICO

OIL CONSERVATION DIVISION**

**APPLICATION OF ADMIRAL PERMIAN
OPERATING LLC FOR COMPULSORY
POOLING AND APPROVAL OF NON-
STANDARD SPACING UNIT, EDDY
COUNTY, NEW MEXICO.**

CASE NO. 25335

APPLICATION

Pursuant to NMSA § 70-2-17, Admiral Permian Operating LLC (“Admiral” or “Applicant”) applies for an order pooling all uncommitted interests in the Bone Spring formation underlying a 1,270.84-acre, more or less, non-standard horizontal spacing unit comprised of all of irregular Sections 5 and 6, Township 24 South, Range 27 East, Eddy County, New Mexico (“Unit”). In support of its application, Admiral states the following:

1. Admiral (OGRID No. 332762) is a working interest owner in the Unit and has the right to drill wells thereon.
2. The Unit will be dedicated to the following wells (“Wells”):
 - a. **War Pigeon Fed Com 301H** and **War Pigeon Fed Com 321H**, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in Lot 1 (NE/4 NE/4 equivalent) of Section 5;
 - b. **War Pigeon Fed Com 302H** and **War Pigeon Fed Com 322H**, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 NE/4 (Unit H) of Section 5;
 - c. **War Pigeon Fed Com 303H** and **War Pigeon Fed Com 323H**, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the NE/4 SE/4 (Unit I) of Section 5; and

**Admiral Permian Operating LLC
Case No. 25335
Exhibit A-1**

d. **War Pigeon Fed Com 304H** and **War Pigeon Fed Com 324H**, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 SE/4 (Unit P) of Section 5.

3. The completed intervals of the Wells will be orthodox.
4. Approval of a non-standard horizontal spacing unit is necessary to prevent waste and protect correlative rights.
5. Applicant has undertaken diligent, good faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Wells but has been unable to obtain voluntary agreements from all interest owners.
6. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
7. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled, and Applicant should be designated the operator of the Unit and the Wells.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on May 8, 2025, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving a non-standard horizontal spacing unit pursuant to 19.15.16.15(B)(5) NMAC;
- C. Approving the Wells in the Unit;
- D. Designating Applicant as the operator of the Unit and the Wells to be drilled thereon;

- E. Authorizing Applicant to recover its costs of drilling, equipping, and completing the Wells;
- F. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- G. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the Wells against any working interest owner who does not voluntarily participate in the drilling of the Wells.

Respectfully submitted,

COUNSEL FOR ADMIRAL PERMIAN
OPERATING LLC

Application of Admiral Permian Operating LLC for Compulsory Pooling and Approval of Non-Standard Spacing Unit, Eddy County, New Mexico. Applicant seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a 1,270.84-acre, more or less, non-standard horizontal spacing unit comprised of all of irregular Sections 5 and 6, Township 24 South, Range 27 East, Eddy County, New Mexico ("Unit"). The Unit will be dedicated to the following wells ("Wells"): **War Pigeon Fed Com 301H** and **War Pigeon Fed Com 321H**, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in Lot 1 (NE/4 NE/4 equivalent) of Section 5; **War Pigeon Fed Com 302H** and **War Pigeon Fed Com 322H**, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 NE/4 (Unit H) of Section 5; **War Pigeon Fed Com 303H** and **War Pigeon Fed Com 323H**, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the NE/4 SE/4 (Unit I) of Section 5; and **War Pigeon Fed Com 304H** and **War Pigeon Fed Com 324H**, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 SE/4 (Unit P) of Section 5. The completed intervals of the Wells will be orthodox. Also to be considered will be the cost of drilling and completing the Wells, the allocation of the costs, the designation of Applicant as operator of the Wells and the Unit, a 200% charge for the risk involved in drilling and completing the Wells, and approval of the non-standard spacing unit. The Wells are located approximately 8.4 miles west southwest of Loving, New Mexico.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division. If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.		SURVEYOR CERTIFICATIONS I hereby certify that the well location shown on this plat was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my belief.  Date: 4/3/2025

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Admiral's intent is to form a non-standard spacing unit for each of the respective formations wherein each will be 1270.84 acres to allow for surface and facility efficiencies.

The total cost of the Operation (Drilling, Completion, and Facility) is estimated in the enclosed Authority for Expenditure ("AFE") on Exhibit A. Admiral's estimated facility AFE is estimated at \$9,600,000.

APO is proposing to drill the wells under the terms of the modified 1982 AAPL for of Operating Agreement. The Operating Agreement will cover the entirety of the above-mentioned legal description and include the following general provisions:

- 100/300/300 Non-consenting penalty
- \$12,000/\$1,200 Drilling and Producing rate
- APO named as Operator

If you do not wish to participate in the Operation, APO would like to acquire a Term Assignment of your leasehold for the following general terms:

- 2 year primary term
- Delivering an 83.333% NRI, proportionately reduced
- \$15,000 per net acre bonus consideration

If we do not reach an agreement within 30 days of the date of this letter, APO will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed well.

If you have any questions, please do not hesitate to contact the undersigned at (806) 782-2341 or via email at hhall@admiralpermian.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'H. Hall', is written over a horizontal line.

Hunter Hall | Land Manager

MRC Permian Company hereby elects to:

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 301H**

_____ Not Participate in the **War Pigeon Fed Com 301H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 302H**

_____ Not Participate in the **War Pigeon Fed Com 302H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 303H**

_____ Not Participate in the **War Pigeon Fed Com 303H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 304H**

_____ Not Participate in the **War Pigeon Fed Com 304H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 321H**

_____ Not Participate in the **War Pigeon Fed Com 321H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 322H**

_____ Not Participate in the **War Pigeon Fed Com 322H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 323H**

_____ Not Participate in the **War Pigeon Fed Com 323H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 324H**

_____ Not Participate in the **War Pigeon Fed Com 324H**

_____ Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Admiral Permian Operating's **War Pigeon Fed Com 401H**

War Pigeon Correspondence Summary

2/21/25

Hunter to Preston at Federal Abstract Company (who represented MRC in the lease sale)

Hunter sent physical proposal via FedEx (Tracking #: 772238295702) to Federal Abstract Company. Scheduled to be delivered Tuesday, 2/25/25.

2/26/25

Hunter to Preston at FedAbstraact

Hunter sends "Notice of Overlapping Spacing Unit". Admiral also mailing docs directly via FedEx #772345481669 (Delivered 2/27/25)

Hunter to Preston at FedAbstract

Hunter sends "Federal and State Communitization" form agreement for FedAbstract review. Admiral also mailing docs directly via FedEx #772345481669 (Delivered 2/27/25)

2/26/2025 – 2/27/2025

11:57pm – 12:26pm Van Singleton called Hunter Hall: Hunter has phone conversation with Van Singleton II at Matador Resource company about their newly issued federal lease and the proposals sent by Admiral to Federal Abstract Company. Van indicated the ability for Matador to drill a good well and wanted to seek the most efficient pathway to making the most money for everyone involved. No formal negotiations were had.

3/6/2025

Well proposals sent to MRC Company via Email and FedEx Tracking 772538004160 (Delivered 3/7/25)

4:22pm – Called Hanna Rhoades at MRC. No answer.

3/12/2025

Marshall and Winston consents in Admiral's development plan in all formations.

3/28/2025

9:52am – Called Hanna Rhoades at MRC. No answer. Left voicemail as to our trade proposal coming soon.

**Admiral Permian Operating LLC
Case No. 25335
Exhibit A-6**

4/3/2025

Proposed trade to Hanna Rhoades at MRC.

4/9/2025

No response from Matador and emailed Hanna Rhoades and Ethan Frasier the following:
“We have filed for compulsory pooling with the NMOCD for the War Pigeon DSU. Admiral now has all owners outside of Matador under JOA (~88%) in the ~1270 acre spacing unit. We are a very commercial group and with a majority of permits in hand, we certainly would like to resolve this quickly if possible. If needed, we are happy to come to Dallas and go through our operational performance with Matador to get you comfortable with being a Non-Op partner in the War Pigeon wells.”

4/9/2025 5:26pm

Brief call with Hanna Rhoades. Matador acknowledges Admiral's proposal's and affiliated trade proposal. Indicated that they would review and get back to us soon.

4/17/2025 2:09p

Followed up with MRC regarding potential trade / participation via email and call. No response.

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF ADMIRAL PERMIAN
OPERATING LLC FOR COMPULSORY
POOLING AND APPROVAL OF NON-
STANDARD SPACING UNIT, EDDY
COUNTY, NEW MEXICO.**

CASE NO. 25335

**SELF-AFFIRMED STATEMENT
OF Jared Haynes Hammett**

1. I am a geologist with Admiral Permian Operating LLC (“Admiral Permian”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have not previously testified before the New Mexico Oil Conservation Division. A copy of my resume is attached as **Exhibit B-1**.

2. I am familiar with the geological matters that pertain to the application filed by Admiral Permian in this case.

3. **Exhibit B-2** is a regional locator map that identifies the War Pigeon project within the Delaware Basin, for the Bone Spring horizontal spacing unit that is the subject of this application.

4. **Exhibit B-3** is a cross section location map for the proposed horizontal spacing unit within the Bone Spring Formation. The approximate wellbore paths for the proposed **War Pigeon Fed Com 301H, War Pigeon Fed Com 321H, War Pigeon Fed Com 302H, War Pigeon Fed Com 322H, War Pigeon Fed Com 303H, War Pigeon Fed Com 323H, War Pigeon Fed Com 304H, and War Pigeon Fed Com 324H** wells (“Wells”) are represented by dashed lines. Existing producing wells in the targeted interval are represented by solid lines with color-coded attributes at bottom hole locations. The map identifies three wells penetrating the targeted intervals used to

construct a stratigraphic cross-section from A to A'. I used these well logs because they penetrate the targeted intervals, are of good quality, and are representative of the geology in the area

5. **Exhibit B-4** is a subsea structure map for the 1st Bone Spring Sand formation that is representative of the targeted intervals for the proposed Wells. The control points are indicated by pink circles. The approximate wellbore paths of the Wells are depicted by dashed lines. The map demonstrates the formation is dipping to the east in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal wells.

6. **Exhibit B-5** is a stratigraphic cross-section using the representative wells identified on Exhibit B-2. It contains gamma ray, resistivity and porosity logs. The proposed landing zones for the Wells are indicated on the exhibit. This cross section demonstrates the target intervals are continuous across the Unit.

7. **Exhibit B-6** is a gun barrel diagram that shows the proposed wells in the Bone Spring unit.

8. In my opinion, a laydown orientation for the Wells is appropriate to properly develop the subject acreage because of consistent rock properties throughout the Unit and the preferred fracture orientation in this portion of the trend.

9. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the Wells.

10. In my opinion, the granting of Admiral Permian's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

11. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.

12. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.

A handwritten signature in blue ink, consisting of stylized, overlapping loops and strokes, positioned above a horizontal line.

Jared H. Hammett

1407 Princeton Ave ♦ Midland, Texas 79702

Jared.h.hammett@gmail.com

(281) 460-8153

Experience:**Admiral Permian Resources****Midland, Texas****Manager Geology -- May 2017 to present**

- ◆ Geology Manager on a multidisciplinary team dedicated to unconventional exploration and development within the Permian Basin.
- ◆ Guiding Admiral's current unconventional development efforts across the Delaware Basin, Midland Basin, and the Central Basin Platform of the Permian Basin (2 Active Rigs).
- ◆ Appraised over ~200 marketed and off-market acquisition packages or leasing opportunities in all the major Permian Basin plays (conventional and unconventional) by identifying key risks, analyzing production, reserve potential, and understanding upside potential to provide bid recommendations.
- ◆ Developed integrated petrophysical models for pay identification, reservoir analysis, and completion recommendations for the entire Wolfcamp and Bone Spring stack across the Delaware Basin.
- ◆ Mapped structure, reservoir, production, and hydrocarbon pores volumes to high grade acquisition packages, leasing opportunities, and new development locations.
- ◆ Managed the formation evaluation and wellsite operations for over 94 horizontal development wells in the Delaware Basin and Central Basin Platform (Designed logging program, picked TD, QC and evaluated wireline and mudlogs data, picked core points, managed geosteering, calculated pay, and made completion recommendations).

Plantation Petroleum Corporation (PPC) V**Abilene, Texas****Manager Geology -- January 2012 to present**

- ◆ Geology Manager on a multidisciplinary team focused on conventional and unconventional exploration and development across the Permian Basin.
- ◆ Guided Plantation Petroleum Corporation's horizontal San Andres exploration efforts in four prospect areas (1 Rig Program).
- ◆ Evaluated numerous marketed and off-market acquisition packages in all major Permian Basin plays (conventional and unconventional) by identifying key risks, analyzing production, reserve potential, and understanding upside potential to provide bid recommendations.
- ◆ Appraised the geologic upside and identified potential risks for multiple Delaware Basin asset and acreage acquisition opportunities.
- ◆ Generated and evaluated horizontal San Andres prospects across the Northwest Shelf and the Midland Basin by integrating well tests, subsurface mapping, regional geology, well log data, and scout information.
- ◆ Developed integrated petrophysical models for pay identification, reservoir analysis, and completion recommendations for Canon Ranch (Jo-Mill Spraberry) Unit, East Ropes (Clearfork) Unit, and Bateman Ranch Field.
- ◆ Mapped structure, reservoir, production, and OOIP for Canon Ranch (Jo-Mill Spraberry) Unit, East Ropes (Clearfork) Unit, and Bateman Ranch Field to high grade new development drilling and identify step-out locations.

- ◆ Integrated historic waterflood field studies and core data with new geologic mapping, image log, microseismic, and production data to confirm/quantify the directional permeability anisotropy with Canon Ranch (Jo-Mill Spraberry) Unit.
- ◆ Generated a skewed pattern down-spacing drilling program based on the new directional permeability anisotropy reservoir model (1 Rig Program).
- ◆ Lead the formation evaluation and wellsite operations for over 75 wells on the Northwest Shelf and in the Midland Basin

Plantation Petroleum Corporation (PPC) IV

Abilene, Texas

Manager Geology -- January 2010 to December 2011

- ◆ Geology Manager on the Permian Basin Eastern Shelf team focused on waterflood development and conventional and unconventional exploration.
- ◆ Team increased production, proved reserve potential (3-P reserves - 70 MMBoe), built development plan, and documented upside potential to capture maximum value for PPC IV Permian Basin Eastern Shelf asset divestiture (PPC IV Eastern Shelf package sold to Merit Energy Company for \$326 Million).
- ◆ Worked to set-up and present PPC IV Eastern Shelf divestiture data room presentations to prospective buyers
- ◆ Evaluated multiple acquisition packages by analyzing production, remaining reserves, and documenting upside potential to provided involvement recommendations.
- ◆ Generated 16 conventional and unconventional prospects by integrating, mapping, regional geology, well logs, and scout data for multiple target horizons across the Eastern Shelf and the Midland Basin.
- ◆ Generated Strawn Sand and Reef prospects on the Lake Trammel and South Lake Trammel Units (23 potential Strawn locations – LTU #207 IP: 59 BOPD).
- ◆ Identified and quantified 55 Proved, 48 Probable, and 47 Possible, reserve locations on the Mead, Guitar Ranch, Guy Ranch, Golightly and offsetting leases.
- ◆ Built structure and reservoir maps for Lake Trammel Unit, South Lake Trammel Unit, Claytonville, Guy Ranch, Acker Morris Sand Unit, Guitar Ranch, Pleasant Valley, Golightly, and the Davis Ranch leases to high grade development and identify step-out locations.
- ◆ Managed the wellsite operations and formation evaluation for over 35 wells on the Eastern Shelf.

Anadarko Petroleum Corporation (APC)

The Woodlands, Texas

Sr. Geologist -- June 2007 to January 2010

- ◆ Lead geologist on a multidisciplinary exploration and development team focused on Haynesville shale and Cotton Valley (Horizontal) exploration and development North Louisiana and East Texas.
- ◆ Integrated 12 cores and over 4000 well log to construct a regional sequence stratigraphic framework and depositional model for the Cotton Valley (Taylor Sand) across East Texas.
- ◆ Identified, drilled, cored, and evaluated multiple Haynesville shale exploration wells in East Texas.
- ◆ Generated 54 development locations and designed a 24-month drilling program in Carthage field, East Texas.
- ◆ Generated Cotton Valley/Bossier/Hosston development and step-out locations and identified recompletion candidates in Elm Grove Field. (22 Taylor Horizontal locations- Knighton 11-4H IP: 7.0 MMCFD)
- ◆ Identified and quantified 77 Proved, 34 Probable, and 164 Possible, SEC reserve locations in Elm Grove Field.
- ◆ Maximized value of North Louisiana divestiture assets by quantifying remaining reserves, building development plan, and identifying upside potential (APC North Louisiana package sold to XTO for \$211 Million).
- ◆ Evaluated all partner development participation proposals across Elm Grove and the North Louisiana Complex fields

Associate Geologist -- December 2003 to June 2007

- ◆ Constructed Cotton Valley structure and reservoir maps by integrating well log and 2-D/3-D seismic data
- ◆ Integrated core, well log, and seismic data to evaluate potential Hosston reservoir targets in and around Vernon Field, North Louisiana.
- ◆ Mapped multiple horizons across North Louisiana Salt Basin using well control and 2-D/3-D seismic.
- ◆ Built Vernon Field divestiture data room, detailing development plan, and supporting the upside potential (APC Vernon Field package sold to Exco Resources Inc. for \$1.6 Billion).
- ◆ Oversaw the wellsite operations for over 50 Lower Cotton Valley and Bossier wells in North Louisiana (Davis Lumber 10-3 IP: 10 MMCFD, Stewart Harrison 29-9 IP: 12 MMCFD).
- ◆ Wellsite operations responsibilities include: Designing logging program, QC and evaluate wireline and mudlogs data, selecting casing points, calling TD, picking core points, and making completion recommendations.

Regional mapping project for Sunlight Exploration, Inc.**Canyon, Texas***Intern -- June 2003 to December 2003*

- ◆ Integrated regional geology, well logs, 2-D seismic, scout tickets, to identify and delineate prospects around the Whittenburg trough (Anadarko/Dalhart Basin).
- ◆ Interpreted well logs and 2-D seismic data to locate faults, generate structural contour maps, isopach maps, and cross-sections in Oldham County, TX (Anadarko/Dalhart Basin).
- ◆ Prospective intervals mapped during the project included the Granite Wash, Canyon Reef, Strawn Limestone, Red Cave, and Brown Dolomite Formations in the Texas Panhandle.

Re: Case No. 25335 – Application of Admiral Permian Operating LLC for Compulsory Pooling and Approval of Non-Standard Spacing Unit, Eddy County, New Mexico.

To whom it may concern:

This letter is to advise you that the enclosed application was filed with the New Mexico Oil Conservation Division. The hearing will be conducted on **May 8, 2025**, beginning at 9:00 a.m. The hearing will be conducted in a hybrid fashion, both virtually and in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505. To participate virtually, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days in advance of a scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. The statement must be submitted through the OCD E-Permitting system (<https://wwwapps.emnrd.nm.gov/ocd/ocdpermitting/>) or via e-mail to ocd.hearings@emnrd.nm.gov and should include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this application, please contact Hunter Hall, Landman at Admiral Permian Operating LLC, via e-mail at hhall@admiralpermian.com.

CARA DOUGLAS
HARDY MCLEAN LLC
125 LINCOLN AVE. SUITE 223
SANTA FE, NM 87501
cdouglas@hardymclean.com

This is to notify all interested parties, including; Matador Resource Company; Marshall & Winston Inc.; Marathon Oil Permian LLC; Mewbourne Oil Company; Elberta M. Royalty; Sortida Resources, LLC; Oak Valley Mineral and Land, LP; Chevron Corporation; ConocoPhillips Company; Devon Energy; Chase Oil; COG Operating LLC; COG Production LLC; Concho Oil & Gas LLC; Bureau of Land Management; Coterra Energy Inc.; State of New Mexico; EOG Resources Inc.; Nestegg Energy Corporation; Federal Abstract Company; and their successors and assigns; that the New Mexico Oil Conservation Division will conduct a hearing on the application submitted by Admiral Permian Operating, LLC (Case No. 25335). The hearing will be conducted on May 8, 2025, in a hybrid fashion, both virtually and in person at the Energy, Minerals, Natural Resources Department, 1st Floor, Santa Fe, NM 87505. To participate virtually, see the instructions posted on the OCD website: <https://www.emnrd.nm.gov/ocd/hearing-info/>. In Case No. 25335, Applicant seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a 1,270.84-acre, more or less, non-standard horizontal spacing unit comprised of all of irregular Sections 5 and 6, Township 24 South, Range 27 East, Eddy County, New Mexico ("Unit"). The Unit will be dedicated to the following wells ("Wells"): War Pigeon Fed Com 301H and War Pigeon Fed Com 321H, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in Lot 1 (NE/4 NE/4 equivalent) of Section 5; War Pigeon Fed Com 302H and War Pigeon Fed Com 322H, which will be drilled from surface hole locations in Lot 5 (SW/4 NW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 NE/4 (Unit H) of Section 5; War Pigeon Fed Com 303H and War Pigeon Fed Com 323H, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the NE/4 SE/4 (Unit I) of Section 5; and War Pigeon Fed Com 304H and War Pigeon Fed Com 324H, which will be drilled from surface hole locations in Lot 7 (SW/4 SW/4 equivalent) of Section 6 to bottom hole locations in the SE/4 SE/4 (Unit P) of Section 5. The completed intervals of the Wells will be orthodox. Also to be considered will be the cost of drilling and completing the Wells, the allocation of the costs, the designation of Applicant as operator of the Wells and the Unit, a 200% charge for the risk involved in drilling and completing the Wells, and approval of the non-standard spacing unit. The Wells are located approximately 8.4 miles west southwest of Loving, New Mexico.

Published in the Carlsbad Current-Argus April 22, 2025.
