STATEMENT OF THE CASE

In this case, Applicant in the above-styled cause seeks an order from the Division pooling all uncommitted mineral interests in the Yeso formation (CEDAR LAKE; GLORIETA-YESO

[96831]) in a standard ~320-acre, more or less, horizontal spacing and proration unit (“HSU”), with proximity tracts, comprised of the North Half of Section 33, Township 16 South, Range 31 East in Eddy County, New Mexico. Applicant proposes to drill the following wells:

- Van Halen 33AB Fed Com 001H well, to be horizontally drilled from a surface hole location (“SHL”) approximately 2,039' FEL & 1,097' FNL of Section 32-16S-31E and a bottomhole location (“BHL”) approximately 20' FEL & 341' FNL of Section 33-16S-31E;
- Van Halen 33AB Fed Com 002H well, to be horizontally drilled from a SHL approximately 2,019' FEL & 1,098' FNL of Section 32-16S-31E and a BHL approximately 20' FEL & 481' FNL of Section 33-16S-31E;
- Van Halen 33AB Fed Com 003H well, to be horizontally drilled from a SHL approximately 1,999' FEL & 1,099' FNL of Section 32-16S-31E and a BHL approximately 20' FEL & 856' FNL of Section 33-16S-31E;
- Van Halen 33AB Fed Com 004H well, to be horizontally drilled from a SHL approximately 1,979' FEL & 1,100' FNL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,230' FNL of Section 33-16S-31E;
- Van Halen 33AB Fed Com 005H well, to be horizontally drilled from a SHL approximately 1,982' FEL & 1,356' FNL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,390' FNL of Section 33-16S-31E;
- Van Halen 33AB Fed Com 006H well, to be horizontally drilled from a SHL approximately 2,002' FEL & 1,355' FNL of Section 32-16S-31E and a BHL approximately 20' FEL & 1,765' FNL of Section 33-16S-31E;
- Van Halen 33AB Fed Com 007H well, to be horizontally drilled from a SHL approximately 2,022' FEL & 1,355' FNL of Section 32-16S-31E and a BHL approximately 20' FEL & 2,140' FNL of Section 33-16S-31E;
- Van Halen 33AB Fed Com 008H well, to be horizontally drilled from a SHL approximately 2,042' FEL & 1,354' FNL of Section 32-16S-31E and a BHL approximately 20' FEL & 2,300' FNL of Section 33-16S-31E.

The Van Halen 33AB Fed Com 005H well is a proximity well. With the proximity tracts, the completed intervals of all wells will meet standard setback requirements. The first and last take points meet the standard setback requirements set forth in the statewide rules for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation

of the costs, the designation of Applicant as Operator of the wells, and a 200% charge for the risk involved in drilling and completing the well. The wells and lands are located approximately 6 miles West of Maljamar, New Mexico. The application was filed January 6, 2026.

PROPOSED EVIDENCE

APPLICANT:

WITNESSES	EXHIBITS
Landman Stuart Gaston	5-6
Geologist Jacob S. DeHamer	5-6

PROCEDURAL MATTERS

This application is set for hearing on February 5, 2026. Assuming no opposition at the time of hearing, this case will be presented by affidavit.

Respectfully submitted,

SPENCER FANE, LLP
