**Re: Case No. 25562 (Go State Come Well No. 401) - Application for compulsory pooling  
filed by Pride Energy Company**

Dear Hearing Examiner Chakalian:

In accordance with the Technical Examiner's instructions at the hearing on January 27-28, 2026, Pride Energy Company hereby files its post-hearing revised exhibit package. The revisions include the following:

- Revised exhibit index
- Inserted case number in Compulsory Pooling Administrative Checklist (CPAC)
- Revised text in CPAC relating to Formation Name(s) or Vertical Extent and to Pooling this vertical extent, as instructed
- Inserted "Statewide rules" in row for Well Location Setback Rules
- Revised last take point in CPAC and in landman statement to reflect Section 12, instead of Section 19
- Expanded row for Special Provisions/Stipulations to reveal all text therein
- Replaced application at Tab 2 to reflect correct case number

Please feel free to contact me if you have any questions.

Very truly yours,

/s/ Sharon T. Shaheen  
Sharon T. Shaheen

1	<b>REVISED COMPULSORY POOLING APPLICATION CHECKLIST</b>	
2	<b>ALL INFORMATION IN THE APPLICATION MUST BE SUPPORTED BY SIGNED AFFIDAVITS</b>	
3	<b>Case: 25562</b>	<b>APPLICANT'S RESPONSE</b>
4	<b>Date</b>	<b>January 27, 2026</b>
5	Applicant	Pride Energy Company
6	Designated Operator & OGRID (affiliation if applicable)	151323
7	Applicant's Counsel:	Spencer Fane LLP (Sharon T. Shaheen)
8	Case Title:	Application of Pride Energy Company for Compulsory Pooling, Eddy County, New Mexico
9	Entries of Appearance/Intervenors:	Coterra Energy Operating Co. (Abadie & Schill, PC); MRC Permian Co. (Holland & Hart, LLP); Mongoose Minerals, Marathon Oil Permian, COG Operating, and Concho Oil and Gas (Elizabeth Ryan and Keri L. Hatley)
10	Well Family	Go State Com
11	<b>Formation/Pool</b>	
12	Formation Name(s) or Vertical Extent:	Wolfbone
13	Primary Product (Oil or Gas):	Oil
14	Pooling this vertical extent:	Stratigraphic equivalent of the top of the Third Bone Spring Sand interval, located at approximately 10,745 feet measured depth, to the stratigraphic equivalent of the base of the Wolfcamp A shale, located at approximately 11,400 feet measured depth, as found in the compensated well log of the Super Cobra State Com. Well No. 1H. See Order No. R-23752
15	Pool Name and Pool Code (Only if NSP is requested):	Scharb, Wolfbone Pool (98397)
16	Well Location Setback Rules (Only if NSP is Requested):	Statewide rules
17	<b>Spacing Unit</b>	
18	Type (Horizontal/Vertical)	Horizontal
19	Size (Acres)	320
20	Building Blocks:	40-acre tracts
21	Orientation:	South-North
22	Description: TRS/County	W/2W/2 of Sections 12 and 13, T19S, R34E, Lea County
23	Standard Horizontal Well Spacing Unit (Y/N), If No, describe and is approval of non-standard unit requested in this application?	Yes, the proposed unit is a standard spacing unit.
24	<b>Other Situations</b>	
25	Depth Severance: Y/N. If yes, description	Yes. A depth severance exists in Tract 3 at the base of the Third Bone Spring Sand.
26	Proximity Tracts: If yes, description	N/A
27	Proximity Defining Well: if yes, description	N/A
28	Applicant's Ownership in Each Tract	Tract 1: 0%; Tract 2: 0%; Tract 3: 50%; Tract 4: 0 %
29	<b>Well(s)</b>	
30	Name & API (if assigned), surface and bottom hole location, footages, completion target, orientation, completion status (standard or non-standard)	

A	B
31 Well #1	Go State Com. Well No. 401H, to be horizontally drilled from a surface hole location 250' FSL and 380' FWL of Section 13, T19S-R34E, to a bottom hole location 100' FNL and 350' FWL of Section 12, T19S-R34E. Completion target is Wolfcamp A. Orientation: South-North. Standard completion
32 Horizontal Well First and Last Take Points	FTP: 300' FSL and 350' FWL of Section 13, T19S-R34E. LTP: 350' FWL and 100' FNL of Section 12, R19S-T34E
33 Completion Target (Formation, TVD and MD)	Wolfcamp A, TVD: 11,025', MD: 20,985'

66 <b>Forms, Figures and Tables</b>	
67 C-102	Exhibit A-1
68 Tracts	Exhibit A-2
69 Summary of Interests, Unit Recapitulation (Tracts)	Exhibit A-2
70 General Location Map (including basin)	Exhibit B-1
71 Well Bore Location Map	See Exhibit A-1
72 Structure Contour Map - Subsea Depth	Exhibit B-2
73 Cross Section Location Map (including wells)	Exhibit B-2
74 Cross Section (including Landing Zone)	Exhibit B-3
75 <b>Additional Information</b>	
76 Special Provisions/Stipulations	<p>The parties have stipulated that the Third Bone Spring and the Wolfcamp A Shale will contribute equally to production, with 50% attributed to the Third Bone Spring and 50% attributed to the Wolfcamp A Shale. Based on this agreement, Pride determined that it has 50% of the total 80-acre Tract 3, that is 40 acres, and that Coterra also has 50% of the total 80-acre Tract 3, that is 40 acres. Thus, Pride has a 40-acre interest in the proposed HSU and Coterra has a 132-acre interest. Based on surface acreage, Pride's ownership interest in the proposed unit is 12.5%, and Coterra's ownership interest is 41.25%. Because the only depth severance is between Pride and Coterra in Tract 3, and no other owner has an interest in Tract 3, the production allocated to any other interest owner is not impacted by pooling over the depth severance and therefore all correlative rights are protected.</p>
77 <b>CERTIFICATION: I hereby certify that the information provided in this checklist is complete and accurate.</b>

# Tab 2

**STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATION OF PRIDE ENERGY COMPANY  
FOR COMPULSORY POOLING, LEA COUNTY,  
NEW MEXICO.**

**CASE NO.** \_\_\_\_\_

**APPLICATION**

Pride Energy Company ("Applicant") files this application with the Oil Conservation Division (the "Division") for an order pooling all uncommitted mineral interest owners in the Wolfbone formation (Scharb; Wolfbone Pool/Pool Code 98397) underlying a horizontal spacing unit comprised of the W/2W/2 of Section 12 and the W/2W/2 of Section 13, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico (the "Unit"). In support of this application, Applicant states:

1. Applicant is an interest owner in the Unit, and has the right to drill a well or wells thereon.
2. Applicant proposes to drill the Go State Com. Well No. 401H in the Unit to a depth sufficient to test the Wolfbone formation, The first take point will be in the SW/4SW/4 of Section 13 and the last take point will be in the NW/4NW/4 of Section 12.
3. Although Applicant has in good faith sought to obtain voluntary joinder of all other mineral interest owners in the Unit to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to commit their interests. Therefore, Applicant seeks an order pooling all uncommitted mineral interest owners in the Wolfbone formation underlying the Unit, pursuant to NMSA 1978 Sec. 70-2-17.

**Pride Energy/Go State Com Well 401H  
No. 25562**

**Page 1 of 2**

4. Due to a depth severance in the Unit, the Division will consider the allocation of production between the Third Bone Spring Sand and the Wolfcamp A Shale within the Wolfbone pool.

5. The pooling of all uncommitted mineral interest owners in the Wolfbone formation underlying the Unit will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**WHEREFORE**, Applicant requests this application be set for hearing before an Examiner of the Division, and, after notice and hearing, the Division issue its order:

- A. Pooling all uncommitted mineral interest owners in the Wolfbone formation (Scharb; Wolfbone Pool) underlying the Unit;
- B. Designating Applicant as operator of the well and the Unit;
- C. Considering the cost of drilling, completing, testing, and equipping the well, and allocating the cost thereof among the well's working interest owners pursuant to an allocation formula approved by the Division;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk involved in drilling, completing, testing, and equipping the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce

**STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATION OF PRIDE ENERGY COMPANY  
FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO**

**Case No. 25562**

**APPLICATION OF COTERRA ENERGY CO.  
FOR A COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO**

**Case No. 25564**

**REVISED SELF-AFFIRMED STATEMENT OF LANDMAN MATTHEW PRIDE**

I, Matthew Pride, do hereby state and affirm the following:

1. I am over the age of 18, and have the capacity to execute this Affirmation, which is based on my personal knowledge.

2. This statement is submitted in connection with the filing by Pride Energy Company (“Pride”) of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

3. I am the land manager for Pride. I am familiar with the subject applications and the lands involved.

4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.

5. The purpose of this application is to force pool working interest owners into the horizontal spacing unit (“HSU”) described below and in the well to be drilled in the HSU.

6. In **Case No. 25562**, Pride seeks an order from the Oil Conservation Division pooling all uncommitted mineral interests in the Wolfbone formation (Scharb; Wolfbone Pool [98397]) in a standard 320-acre, more or less, horizontal spacing and proration unit (“HSU”),

comprised of the W/2W/2 of Sections 12 and 13, all in Township 19 South, Range 34 East, in Lea County, New Mexico. Pride proposes to drill the Go State Com. Well No. 401H (“Go State 401H”) in the HSU, to be horizontally drilled from a surface hole location 250’ FSL and 380’ FWL of Section 13, T19S-R34E, to a bottom hole location 100’ FNL and 350’ FWL of Section 12, T19S-R34E. The first take point will be 300’ FSL and 350’ FWL of Section 13, T19S-R34E. The last take point will be 350’ FWL and 100’ FNL of Section 12, R19S-T34E. The Go State 401H will be drilled to a depth sufficient to test the Wolfbone pool, targeting the Wolfcamp A Shale. The first and last take points and completed interval for Go State 401H will meet the setback requirements set forth in the statewide rules for horizontal oil wells.

7. In **Case No. 25564**, Coterra Energy Co. (“Coterra”) seeks an order pooling all uncommitted mineral interest owners in the Wolfbone formation (Scharb; Wolfbone Pool [98397]) in the same HSU proposed by Pride. Upon information and belief, Coterra proposes to drill the Showbiz 13-12 State Com 301H Well (“Showbiz 13-12 301H”), to be horizontally drilled from a surface hole location 216’ FSL and 100’ FWL of Section 13, T19S-R34E, to a bottom hole location 100’ FNL and 330’ FWL of Section 12, T19S-R34E. Coterra proposes to drill the Showbiz 13-12 301H to a depth sufficient to test the Wolfbone pool, targeting the Third Bone Spring.

8. Pride filed its first application to pool the subject acreage and drill the Go State 401H on May 3, 2022, seeking to pool the Wolfcamp formation in Case No. 22853. More than seven months later, on December 15, 2022, Coterra’s predecessor Cimarex Energy Co. filed its first application to pool the subject acreage and drill the Showbiz 13-12 301H, among others, seeking to pool the Bone Spring formation in Case No. 23295.<sup>1</sup>

---

<sup>1</sup> The subsequent history of these cases, and other related cases, is detailed in Pride’s pre-hearing statement filed concurrently.

9. A Form C-102 for the Go State 401H is attached as **Exhibit A-1**.
10. A map illustrating the tracts within the acreage to be pooled and information regarding the working interest ownership of each individual tract, the working interest ownership within the unit, and the leases within the unit are attached as **Exhibit A-2**.
11. A sample letter with the initial well proposal and AFE, a supplemental letter to interest owners with a revised AFE, and a supplemental letter informing working interest owners of revision of the proposed operating rates and new date for contested hearing are attached as **Exhibit A-3**. Pride's revised AFE is \$1,418,364 less than Coterra's most recent AFE.
12. A chronology of contacts with parties being pooled is attached as **Exhibit A-4**.
13. A chart with all working interest owners and their commitment status is attached as **Exhibit A-5**.
14. Coterra filed applications to drill wells in the First, Second, and Third Bone Spring, and the Division approved the application to drill the First and Second Bone Spring wells in Case No. 255637. However, anticipated production from the First and Second Bone Spring wells does not justify drilling these wells with today's oil prices.
15. There is a depth severance at the base of the Third Bone Spring in Tract 3. Coterra owns the interest above the base of the Third Bone Spring in Tract 3. Pride has an interest below the base of the Third Bone Spring in Tract 3. No other interest owners have a depth severance. The parties have stipulated that the Third Bone Spring and the Wolfcamp A Shale will contribute equally to production, with 50% attributed to the Third Bone Spring and 50% attributed to the Wolfcamp A Shale. Based on this agreement, Pride determined that it has 50% of the total 80-acre Tract 3, that is 40 acres, and that Coterra also has 50% of the total 80-acre Tract 3, that is 40 acres. Thus, Pride has a 40-acre interest in the proposed HSU and Coterra has a 132-acre interest.

Based on surface acreage, Pride's ownership interest in the proposed unit is 12.5%, and Coterra's ownership interest is 41.25%. Because the only depth severance is between Pride and Coterra in Tract 3, and no other owner has an interest in Tract 3, the production allocated to any other interest owner is not impacted by pooling over the depth severance. Therefore, the interest owners' correlative rights will not be adversely impacted by pooling over the depth severance.

16. Pride currently operates six wells in Section 13, including the Go State Com #101H, #102H, #203H, #204H, #305H, and #306H, and can use the same facilities for the proposed Go State 401H. Consequently, Pride's proposal will result in less surface disturbance and significant cost savings to the working interest owners.

17. Coterra has operated one well in Section 12, the Teal 12 State Com #002H, since 2014, and one well in Section 11, the Quail 11 State #001H, since 2013. However, Coterra took no steps to propose drilling any of the Bone Spring wells it proposed until the end of 2022, seven months after Pride proposed drilling the Go State #401H.

18. The surface location is owned by the State of New Mexico. Upon approval of Pride's application, Pride will promptly obtain the necessary approval from the State Land Office for the proposed surface location.

19. Pride has been drilling wells in New Mexico for over 25 years and has drilled multiple horizontal multi-well units. Pride Energy Company's staff and consulting drilling engineers have over 100 years of combined experience in drilling horizontal Wolfcamp and Bone Spring wells in Eddy and Lea Counties, New Mexico. Pride diligently bids out all expenditures to assure that the best price and service is obtained for the joint account which is a part of prudently operating the wells and thereby preventing waste.

20. Pride conducted a diligent search of the public records in Lea County, New Mexico, where the wells will be located, and conducted phone directory and computer searches to obtain contact information for parties entitled to notification.

21. Pride has made a good faith effort to obtain voluntary joinder of all interest owners in the proposed wells. In particular, Pride and Coterra have conferred since the filing of the initial applications in Case Nos. 22853 and 23295 in 2022. *See* chronology of contacts, attached as Exhibit A-4.

22. Pride and Coterra have agreed that operating charges and costs of supervision while drilling of \$10,000/month and, after completion, \$1,000/month are reasonable. However, in its application, Pride requested that the Division approve costs of \$8,000/month and \$800/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures. Pride therefore requests approval of operating charges and costs of supervision while drilling of \$10,000/month and, after completion, \$1,000/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, subject to any objection from a working interest owner to this increase in requested rates. A letter to the working interest owners regarding the revised proposed operating rates for Pride was mailed on January 14, 2026.

23. Pride requests the maximum cost, plus 200% risk charge, be assessed against non-consenting working interest owners. Pride requests that it be designated operator of the wells.

24. The exhibits attached hereto were prepared by me or compiled from Pride's business records under my supervision.

25. The granting of Pride's application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

26. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

Matthew Pride

ATTN: Land Department

RE: Go State Com #401H  
Sections 12 and 13, Township 19 South, Range 34 East: W/2 W/2 of each section  
No closer than 330' from the West line, No closer than 100' from the South line of  
Section 13, No closer than 100' from the North line of Section 12.  
Lea County, New Mexico

To Whom it May Concern,

In reference to the above, Pride Energy Company ("Pride") hereby proposes to drill the Go State Com #401H well, a horizontal well to be located in the W/2 W/2 of Section 12, Township 19 South, Range 34 East, and the W/2 W/2 of Section 13, Township 19 South, Range 34 East, Lea County, New Mexico, to a depth sufficient to test the Wolfcamp formation. This well will be drilled from a surface location in the SW/4 SW/4 of Section 13, Township 19 South, Range 34 East to a bottom-hole location in the NW/4 NW/4 of Section 12-19S-34E, with an estimated True Vertical Depth (TVD) of 11,025', and projected 9,960' horizontal lateral across Sections 12 and 13-19S-34E, (approximately 20,985' Total Measured Depth (TMD)).

Our records indicate you own, or may claim to own, an oil and gas leasehold interest in the W/2 W/2 of Section 12-19S-34E and/or the W/2 W/2 of Section 13-19S-34E. Pride respectfully requests that you elect one of the following options:

Participate in drilling the proposed Go State Com #401H well to the full extent of your interest. Our AFE is enclosed with an estimated dry hole cost of \$5,185,780, and total completed well cost of \$9,627,780. Should you elect this option, your share of the estimated total completed well costs must be prepaid to Pride within 20 days of your receipt of this well proposal. Your proportionate share of well costs will be based upon your actual ownership interest in the spacing unit (being a 320-acre spacing unit). Your election is due 20 days from the date that you receive this well proposal.

1. Assign all of your oil and gas leasehold rights in the W/2 W/2 of Sections 12 and 13, Township 19 South, Range 34 East, Lea County, New Mexico to Pride for \$1,000.00 (one thousand dollars) per net acre and delivering to pride an 81.25% (eighty-one and one-fourth percent) Net Revenue Interest.

2. No cash bonus with a 1/4<sup>th</sup> royalty (delivering to Pride a 75.00% (seventy-five percent) net revenue interest).

Please indicate your election in the space provided below and return (1) copy of this letter to my attention. This offer is subject to our verification of your title and that you own an oil and gas leasehold interest within the subject tract of land (outside of any existing wellbores), and have the right to participate in the proposed well.

Thank you, and if there are any questions, please feel free to contact me at (918) 524-9200.

Sincerely,

Pride Energy Company

Matthew L. Pride

AGREED TO AND ACCEPTED THIS \_\_\_\_\_ DAY OF \_\_\_\_\_, 2022.

1. \_\_\_\_\_ The undersigned hereby elects Option No. 1, which is to participate in the drilling and completion of the subject well, and hereby agrees to remit the undersigned's proportionate share of the total completed well costs to Pride within 20 days of receipt of this well proposal by the undersigned.
2. \_\_\_\_\_ The undersigned hereby elects Option No. 2, which is to assign all of the oil and gas leasehold rights in the W/2 W/2 of Sections 12 and 13, Township 19 South, Range 34 East, Lea County, New Mexico to Pride for \$1,000.00 (one thousand dollars) per net acre and delivering to pride an 81.25% (eighty-one and one-fourth percent) Net Revenue Interest.
3. \_\_\_\_\_ The undersigned hereby elects Option No. 3, which is to not participate in the drilling and completion of the subject well, and in lieu thereof, to accept a no cash bonus and delivering Pride a 75.0% (seventy-five percent) Net Revenue Interest on the leasehold interest owned in the W/2 W/2 of Sections 12 and 13, Township 19 South, Range 34 East.

No closer than 330' from the West line, No closer than 100' from the South line of  
Section 13, No closer than 100' from the North line of Section 12.  
Lea County, New Mexico

To Whom it May Concern,

In reference to the above, this correspondence is to provide an update as to the status of the proposed well. Pride Energy Company ("Pride") hereby proposed to drill the Go State Com #401H well, a horizontal well to be located in the W/2 W/2 of Section 12, Township 19 South, Range 34 East, and the W/2 W/2 of Section 13, Township 19 South, Range 34 East, Lea County, New Mexico, to a depth sufficient to test the Wolfcamp formation. This well will be drilled from a surface location in the SW/4 SW/4 of Section 13, Township 19 South, Range 34 East to a bottom-hole location in the NW/4 NW/4 of Section 12-19S-34E, with an estimated True Vertical Depth (TVD) of 11,025', and projected 9,960' horizontal lateral across Sections 12 and 13-19S-34E, (approximately 20,985' Total Measured Depth (TMD). An updated AFE dated December 29, 2025 for this well is attached. The original well proposal letter remains in effect subject to the changes set out in this letter.

In reference to Pride Energy Company's Compulsory Pooling Application that was filed in 2023 (Case No. 22853), the New Mexico Oil Conservation Division created the Schab, Wolfbone Pool (Pool Code 98397) in Order No. R-23752, that covers the W/2 W/2 of Sections 12 & 13, Township 19 South, Range 34 East, Lea County, New Mexico.

All oil and gas production from the Go State Com #401H well will be allocated between the 3<sup>rd</sup> Bone Spring owners and the Upper Wolfcamp owners based on an Allocation that is to be decided by the New Mexico Oil Conservation Division (NMOCD). A hearing is currently scheduled at the NMOCD for January 13, 2026.

Thank you, and if there are any questions, please feel free to contact me at (918) 524-9200.

Sincerely,

Pride Energy Company

Matthew L. Pride

RE: Go State Com #401H – Update  
Sections 12 and 13, Township 19 South, Range 34 East: W/2 W/2 of each section  
No closer than 330' from the West line, No closer than 100' from the South line of  
Section 13, No closer than 100' from the North line of Section 12.  
Lea County, New Mexico

To Whom it May Concern,

In reference to the above, this correspondence is to provide an update as to the status of the proposed well. Pride Energy Company (“Pride”) hereby proposed to drill the Go State Com #401H well, a horizontal well to be located in the W/2 W/2 of Section 12, Township 19 South, Range 34 East, and the W/2 W/2 of Section 13, Township 19 South, Range 34 East, Lea County, New Mexico, to a depth sufficient to test the Wolfcamp formation. This well will be drilled from a surface location in the SW/4 SW/4 of Section 13, Township 19 South, Range 34 East to a bottom-hole location in the NW/4 NW/4 of Section 12-19S-34E, with an estimated True Vertical Depth (TVD) of 11,025', and projected 9,960' horizontal lateral across Sections 12 and 13-19S-34E, (approximately 20,985' Total Measured Depth (TMD)). An updated AFE dated December 29, 2025 for this well was mailed to you on December 30, 2025. The original well proposal letter remains in effect subject to the changes set out in this letter.

In reference to Pride Energy Company’s Compulsory Pooling Application that was filed in 2023 (Case No. 22853), the New Mexico Oil Conservation Division created the Scharb, Wolfbone Pool (Pool Code 98397) in Order No. R-23752, that covers the W/2 W/2 of Sections 12 & 13, Township 19 South, Range 34 East, Lea County, New Mexico.

The monthly drilling overhead rate will be \$10,000, amending the rate of \$8,000 that was set out in the original well proposal. The monthly administrative overhead rate will be \$1,000, amending the rate of \$800 that was set out in the original well proposal.

All oil and gas production from the Go State Com #401H well will be allocated between the 3<sup>rd</sup> Bone Spring owners and the Upper Wolfcamp owners based on an Allocation that is to be decided

Pride Energy/Go State Com Well 401H Exhibit A-3  
Case No. 25562

by the New Mexico Oil Conservation Division (NMOCD). A hearing is now scheduled at the NMOCD for January 27, 2026.

Thank you, and if there are any questions, please feel free to contact me at (918) 524-9200.

Sincerely,

Pride Energy Company

Matthew L. Pride

**SELF-AFFIRMED STATEMENT OF GEOLOGIST HARVIN L. BROUGHTON**

I, Harvin Broughton, being first duly sworn on oath, state the following:

1. I am over the age of 18, and have the capacity to execute this affirmation, which is based on my personal knowledge.

2. This affirmation is submitted in connection with the filing by Pride of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

3. I am employed as a contract geologist for Pride Energy Company (“Pride” or “Applicant”), and I am familiar with the subject applications and the lands involved.

4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have previously been accepted by the Division and made a matter of record.

5. **Exhibit B-1** is a general location map indicating the location of the proposed horizontal spacing units (“HSU”).

6. **Exhibit B-2** is a subregional structure map showing the structure of the top of the Wolfcamp A formation. Contour interval is 50’. The structural dip across this area is to the South Southwest. Additionally displayed are the Go State HSU boundary and cross-section reference line, A-A’.

7. **Exhibit B-3** is a stratigraphic cross-section, A-A', showing the Third Bone Spring Sand and the Wolfcamp A intervals. The cross-section is flattened on the Wolfcamp A top. The total gross thickness of the Wolfbone pool is approximately 655' thick, as reflected in the Super Cobra State C 1H type log.

8. **Exhibit B-4** is a type log with defined pool, target interval and reference map.

9. **Exhibit B-5** is a wellbore profile and gunbarrel view showing the proposed well trajectory and target interval based on type log.

10. **Exhibit B-6** is a gross isopach map of the Scharb Wolfbone Pool interval, from the top of the Third Bone Spring Sand to the base of the Wolfcamp A with 50' contour intervals, showing the gross Wolfbone Pool thickness across the HSU. This gross thickness is being calculated from the top of the Third Bone Spring Sand to the base of the Wolfcamp A interval. The total gross thickness of the Wolfbone Pool in this HSU area is approximately 750'. This gross isopach map covers the defined Scharb Wolfbone Pool, thus goes from the top of the 3rd BS Sand (10,745') down to the base of the Wolfcamp A (11,400') interval as designated in the previous order establishing the Scharb Wolfbone pool, referenced to the Super Cobra well. This gross interval thickness is 655' at the Super Cobra well, thickening to approximately 750' at the Go State location.

11. The planned measured depth of the Go State Com #401H is 20,985' at a true vertical depth of 11,025'.

12. Based on my geologic study of the area, I conclude the following:

- a. The horizontal spacing and proration unit is justified from a geologic standpoint.
- b. There are no structural impediments or faults that will interfere with horizontal development.

- c. Each quarter-quarter section in the HSU will contribute more or less equally to production.
  - d. The most efficient way to develop the acreage in each case is as proposed by Pride. There is no established and generally accepted preferential drilling orientation based on present-day stress regime or other geological factors that would counter the proposed South-North well orientation. Successfully developed Bone Spring horizontal wells oriented South-North have been drilled in the region, so an established trend is present. This orientation also fits our lease boundaries and aligns with the remainder of Pride's planned development in the adjoining tracts. This preferred well orientation does not strand any acreage or reserves.
13. The exhibits attached hereto were prepared by me or compiled from Pride's business records under my supervision.
14. The granting of the applications is in the interests of conservation, the prevention of waste, and the protection of correlative rights.
15. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury, under the laws of the State of New Mexico that this statement is true and correct.

  
Harvin L. Broughton

**SELF-AFFIRMED STATEMENT OF ENGINEER WILL GIFFORD**

I, Will Gifford, do hereby state and affirm the following:

1. I am over the age of 18, and have the capacity to execute this Affirmation, which is based on my personal knowledge.

2. This statement is submitted in connection with the filing by Pride Energy Company ("Pride") of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

3. I am a petroleum engineer employed by Pride. I am familiar with the subject applications and the lands involved.

4. I seek to be qualified as an expert petroleum engineer. I have not previously testified before the Division. My education and work experience are detailed in my resume, appended hereto. A summary of my education and work experience is as follows: I obtained my bachelor of science degree in petroleum engineering from the University of Oklahoma (OU) in 2016. After OU and seven consecutive summers spent interning for oil and gas companies, I have spent nine years working many roles at three different upstream oil and gas companies of varying sizes with experience in production engineering, reservoir engineering, oil & gas facilities, well optimization, well interventions, and drilling and completion.

5. From an engineering perspective, Pride's proposed well is superior to the competing proposal of Coterra Energy Company because landing the well in the Wolfcamp formation will provide for greater recovery of total reserves including both the Wolfcamp and the Third Bone Spring, thus likely delivering a higher EUR (estimated ultimate recovery), for the following reasons:

- When a well is fractured, the fractures tend to grow up and out, and it is common industry knowledge that a frac will grow up much more than it will grow down. Therefore, the fractures generated in a well landed in the Wolfcamp will almost certainly grow up into the Third Bone Spring sand, thereby capturing its reserves. It is not likely that a well landed in the Third Bone Spring sand will be able to capture nearly the amount of reserves within the Wolfcamp as compared to landing a well in the Wolfcamp.
- This means from a capital efficiency standpoint, that at end of well life, Pride's proposed wellbore should deliver more oil and gas than Coterra's proposed wellbore even if the AFE cost were identical. In this case, Pride's AFE is ~\$1.4 million lower than Coterra's AFE, due mainly to Pride already having a facility in place.
- Exhibit C-1 attached hereto is a slide from Coterra taken from "Application of Cimarex Energy Co. for a Horizontal Spicing Unit and Compulsory Pooling, Lea County, New Mexico" which is a public hearing document (Case No. 23295) received and released to imaging by NMOCD on 7/13/2023. This slide shows that back in 2023, Coterra made the same argument in its first application to pool Coterra's subject well that I am making now, thereby further validating Pride

Energy having a superior proposal. *See* Coterra Exhibit C-5, Case No. 23295, Coterra exhibit package at pdf 86 (filed July 13, 2023), *available at* [https://ocdimage.emnrd.nm.gov/Imaging/FileStore/santafe/cf/20230713/23295\\_07\\_13\\_2023\\_04\\_58\\_36.pdf](https://ocdimage.emnrd.nm.gov/Imaging/FileStore/santafe/cf/20230713/23295_07_13_2023_04_58_36.pdf) (last visited Jan. 18, 2026).

6. The granting of Pride's application is in the interests of conservation, the prevention of waste, and the protection of correlative rights.
7. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

# Proposed Plan to Protect Correlative Rights

## Pride's Current Plan

- Landing in the very top of Wolfcamp sands depletes 3<sup>rd</sup> Bone Spring Sand (URTeC: 3723620, page 11)
- Pride will produce and sell large amounts of reserves from the 3<sup>rd</sup> Sand, violating CTRA's correlative rights

## Coterra's Plan to Protect Correlative Rights

- Coterra will exercise the right to develop 3<sup>rd</sup> Bone Spring
- Pride recommended to execute the following:
  - A. Test Wolfcamp landing zone under their existing 3<sup>rd</sup> Bone Spring wells to understand economic viability of Wolfcamp in the presence of 3<sup>rd</sup> Sand wells
  - B. Pride to decrease landing zone by at least 200' to increase protection of CTRA's minerals in the 3<sup>rd</sup> Bone Spring

**AFFIRMATION OF NOTICE**

I, Sharon T. Shaheen, attorney for Applicant in the above-captioned matter, PRIDE ENERGY COMPANY ("Pride"), state and affirm the following:

Co-counsel for Pride, James Bruce, caused notice of the application to be sent by certified mail through the United States Postal Service on October 20, 2025, to all interest owners sought to be pooled in this proceeding. A sample notice letter to all interested parties is attached hereto as Exhibit D-1. A chart showing the results of certified mailing is attached as Exhibit D-2, and the certified mailing receipts and returns are attached as Exhibit D-3. Notice was also directed by publication in the Hobbs News-Sun on October 21, 2025, to all such owners whose interest was evidenced by a written conveyance document either of record or known to the applicant at the time the applicant filed the application, as shown in the Notice attached hereto as Exhibit D-4. The attached exhibits demonstrate to my satisfaction that all owners sought to be pooled were properly served.

Pride has conducted a good faith, diligent effort to find the names and correct addresses for the interest-owners entitled to receive notice of the Application filed herein.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

October 20, 2025

To Person Listed on Exhibit A

Ladies and Gentlemen:

Pride Energy Company has filed the enclosed application with the New Mexico Oil Conservation Division requesting compulsory pooling:

Case No. 25564: ***Application of Pride Energy Company for compulsory pooling, Lea County, New Mexico***: Pride Energy Company ("Applicant") has filed an application with the Oil Conservation Division requesting an order pooling all uncommitted mineral interest owners in the Wolfbone formation (Scharb; Wolfbone Pool) underlying a horizontal spacing unit comprised of the W/2W/2 of Section 12 and the W/2W/2 of Section 13, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico (the "Unit"). Applicant proposes to drill the Go State Com. Well No. 401H in the Unit to a depth sufficient to test the Wolfbone formation. The first take point will be in the SW/4SW/4 of Section 13 and the last take point will be in the NW/4NW/4 of Section 12. Due to a depth severance in the Unit, the Division will consider the allocation of production between the Third Bone Spring Sand and the Wolfcamp A Shale in the proposed well. Also to be considered will be the cost of drilling, completing, testing, and equipping the well, and the allocation of the cost thereof among the well's working interest owners, designation of Applicant as operator of the well and the Unit, approval of actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure, and setting a 200% charge for the risk involved in drilling, completing, testing, and equipping the well in the event a working interest owner elects not to participate in the well.

Also to be considered will be the cost of drilling, completing, testing, and equipping the well, and the allocation of the cost thereof among the well's working interest owners, designation of Applicant as operator of the well and the Units, approval actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure, and setting a 200% charge for the risk involved in drilling, completing,

testing, and equipping the well in the event a working interest owner elects not to participate in the well..

This matter is scheduled for hearing at 9:00 a.m. on Tuesday, November 18, 2025. The hearing may be attended (a) in person in Pecos Hall of the Wendell Chino Building, First Floor, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, or (b) via the Division's virtual meeting platform. To view the hearing docket and determine how to participate in an electronic hearing, go to <https://www.emnrd.nm.gov/oed/hearing-info/> or contact Freya Tschantz at [Freya.Tschantz@emnrd.nm.gov](mailto:Freya.Tschantz@emnrd.nm.gov). You are not required to attend the hearing, but an owner of an interest affected by the application may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from contesting this matter at a later date. A party appearing in a Division case is required to file a Pre-Hearing Statement with the Division no later than five business days before the hearing date. This statement may be filed online with the Division at [oed.hearings@emnrd.nm.gov](mailto:oed.hearings@emnrd.nm.gov) and should include: The name of the party and the party's attorney; a concise statement of the case; the names of witnesses the party will call to testify at the hearing; the approximate time it will take the party to present its case; and any procedural matters that need to be resolved before the hearing. The Pre-Hearing Statement must also be provided to Applicant's attorney, James Bruce, at the above address.

Very truly yours,

  
James Bruce

# Affidavit of Publication

STATE OF NEW MEXICO  
COUNTY OF LEA

I, Daniel Russell, Publisher of the Hobbs News-Sun, a newspaper published at Hobbs, New Mexico, solemnly swear that the clipping attached hereto was published in the regular and entire issue of said newspaper, and not a supplement thereof for a period of 1 issue(s).

Beginning with the issue dated  
October 21, 2025  
and ending with the issue dated  
October 21, 2025.

  
\_\_\_\_\_  
Publisher

Sworn and subscribed to before me this  
21st day of October 2025.

  
\_\_\_\_\_  
Notary

My commission expires  
January 29, 2027  
(Seal)

This newspaper is duly qualified to publish legal notices or advertisements within the meaning of Section 3, Chapter 167, Laws of 1937 and payment of fees for said publication has been made.

## LEGAL NOTICE October 21, 2025

### NOTICE

To: COG Operating LLC, Big Three Energy Group, LLC, Crown Oil Partners IV, LP, Buckhorn Energy, LLC, CD Ray Exploration, LLC, Charles D. Ray, Chevron U.S.A., Inc., Concho Oil & Gas LLC, ConocoPhillips Company, Crown Oil Partners IV, LP, Crown Oil Partners V, LP, Crump Energy Partners II, LLC, Crump Family Partnership, Ltd, Featherstone Development Corporation, H6 Holdings LP, Hanley Petroleum LLC, LHAH Properties LLC, Marathon Oil Permian LLC, Marathon Oil Co., Mavros Oil Company, LLC, Parrot Head Properties, LLC, Prospector, LLC, Sharktooth Resources, Ltd, Tarpon Industries Corporation, TBO Oil & Gas, LLC, and Warren Ventures, Ltd., Collins & Jones Investments, LLC, David W. Cromwell, Deane Durham, Earthstone Permian, LLC, Franklin Mountain Energy 3, LLC, Good News Minerals, LLC, H. Jason Wacker, Hanley Petroleum, Inc., Kaleb Smith, LMC Energy, LLC, Matador Production Company, MRC Permian Company, Mewbourne Oil Company, Mike Moylett, Mongoose Minerals, LLC, New Mexico State Land Office, Oak Valley Mineral and Land, LP, Post Oak Crown IV-B, LLC, Post Oak Crown IV, LLC, Post Oak Crown Minerals, LLC, Sortida Resources, LLC, XTO Holdings, LLC, and ZPZ Delaware I, LLC, or your heirs, devisees, successors, or assigns. Pride Energy Company has filed an application with the Oil Conservation Division requesting the following relief

Cases 25564: Pride Energy Company ("Applicant") has filed an application with the Oil Conservation Division requesting an order pooling all uncommitted mineral interest owners in the Wolfbone formation (Scharb; Wolfbone Pool) underlying a horizontal spacing unit comprised of the W/2W/2 of Section 12 and the W/2W/2 of Section 13, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico (the "Unit"). Applicant proposes to drill the Go State Com. Well No. 401H in the Unit to a depth sufficient to test the Wolfbone formation. The first take point will be in the SW/4SW/4 of Section 13 and the last take point will be in the NW/4NW/4 of Section 12. Due to a depth severance in the Unit, the Division will consider the allocation of production between the Third Bone Spring Sand and the Wolfcamp A Shale in the proposed well. Also to be considered will be the cost of drilling, completing, testing, and equipping the well, and the allocation of the cost thereof among the well's working interest owners, designation of Applicant as operator of the well and the Unit, approval of actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure, and setting a 200% charge for the risk involved in drilling, completing, testing, and equipping the well in the event a working interest owner elects not to participate in the well.

This matter is scheduled for hearing at 9:00 a.m. on Tuesday, November 18, 2025. The hearing may be attended (a) in person in Pecos Hall of the Wendell Chino Building, First Floor, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, or (b) via the Division's virtual meeting platform. To view the hearing docket and determine how to participate in an electronic hearing, go to <https://www.emnrd.nm.gov/ocd/hearing-info/> or contact Freya Tschantz at [Freya.Tschantz@emnrd.nm.gov](mailto:Freya.Tschantz@emnrd.nm.gov). You are not required to attend the hearing, but an owner of an interest affected by the application may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from contesting this matter at a later date. A party appearing in a Division case is required to file a Pre-Hearing Statement with the Division no later than five business days before the hearing date. This statement may be filed online with the Division at [ocd.hearings@emnrd.nm.gov](mailto:ocd.hearings@emnrd.nm.gov) and should include: The name of the party and the party's attorney; a concise statement of the case; the names of witnesses the party will call to testify at the hearing; the approximate time it will take the party to present its case; and any procedural matters that need to be resolved before the hearing. The Pre-Hearing Statement must also be provided to the attorney for Applicant James Bruce, Post Office Box 1056, Santa Fe, New Mexico 87504, [jamesbruce@aol.com](mailto:jamesbruce@aol.com). The Unit is located approximately 15-1/2 miles north-northeast of Halfway, New Mexico. #00305391
