Good morning, Mr. Goetze and Mr. Harris,

At the hearing in this case, the Division requested that Enterprise work with Matador to obtain agreement on a deviation survey. Matador and Enterprise have agreed that Enterprise will run a deviation survey as part of the Bottom Hole Assembly and will obtain survey data approximately every 90 feet during drilling operations. Enterprise will provide Matador with a survey report at the end of the project and will present the data as planned versus actual.

Please let me know if you have any questions or require additional information.

Thank you,  
Dana
