In support of its Application, NSP states the following:

1. NSP and/or its affiliates are working interest owners in the Application Lands and have the right to drill wells thereon as the designated Operator of the Application Lands.
2. NSP seeks to dedicate all of the Application Lands to form a 642.09-acre, more or less, HSU.
3. NSP seeks to dedicate the above-referenced HSU to the following proposed wells:
 - A. **Golden Goose 19-20 Fed Com 123H** (API No. *Pending*), which is an oil well that will be horizontally drilled from a surface location in the SW/4 SW/4 (Lot 4) of Section 19, Township 18 South, Range 32 East, to a bottom hole location in the Young;

5. NSP has made good faith efforts to obtain voluntary agreement from all interest owners in the Young; Bone Spring Pool underlying the proposed spacing unit, but has been unable to secure agreement from all parties to participate in the drilling of the wells or otherwise commit their interests.

6. The pooling of all interests in the Young; Bone Spring Pool within the proposed unit will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
