 \mathbb{R}^{2}

50

BEFORE THE OIL CONSERVATION COMMISSION OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION COMMISSION OF NEW MEXICO FOR THE PURPOSE OF CONSIDERING:

CASE NO. 5023 Order No. R-4597

APPLICATION OF SKELLY OIL COMPANY FOR A WATERFLOOD PROJECT, ROOSEVELT COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on July 11, 1973, at Santa Fe, New Mexico, before Examiner Daniel S. Nutter.

NOW, on this 23rd day of July, 1973, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Skelly Oil Company, seeks authority to institute a waterflood project on its Hobbs "T" Lease, Chaveroo-San Andres Pool, by the injection of water into the Upper and Lower San Andres formations through perforations in the intervals from 4207 feet to 4418 feet and from 4676 feet to 4849 feet in its Hobbs "T" Well No. 11 located in Unit P of Section 33, Township 7 South, Range 33 East, Chaveroo-San Andres Pool, Roosevelt County, New Mexico.

(3) That the well in the project area is in an advanced state of depletion and should properly be classified as a "stripper well.

(4) That the proposed waterflood project should result in the recovery of otherwise unrecoverable oil, thereby preventing waste.

(5) That the subject application should be approved and the project should be governed by the provisions of Rules 701, 702, and 703 of the Commission Rules and Regulations.

-2-Case No. 5023 Order No. R-4597

IT IS THEREFORE ORDERED:

(1) That the applicant, Skelly Oil Company, is hereby authorized to institute a waterflood project on its Hobbs "T" Lease, Chaveroo-San Andres Pool, by the injection of water into the Upper and Lower San Andres formations through perforations in the intervals from 4207 feet to 4418 feet and from 4676 feet to 4849 feet in its Hobbs "T" Well No. 11 located in Unit P of Section 33, Township 7 South, Range 33 East, NMPM, Chaveroo-San Andres Pool, Roosevelt County, New Mexico.

(2) That the subject waterflood project is hereby designated the Skelly Hobbs "T" Chaveroo Waterflood Project and shall be governed by the provisions of Rules 701, 702, and 703 of the Commission Rules and Regulations.

(3) That monthly progress reports of the waterflood project herein authorized shall be submitted to the Commission in accordance with Rules 704 and 1120 of the Commission Rules and Regulations.

(4) That Commission Order No. R-3023, which authorized the dual completion of the aforesaid Hobbs "T" Well No. 11 to produce oil from the Chaveroo San Andres Pool and to dispose of produced salt water into the Lower San Andres formation, is hereby superseded.

(5) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

			PAGE 5
	1	A	Yes, they were.
	2	Q	And they have been marked for the purposes of this
	3		Hearing as Hearing Numbers 1, 2, 3, and 4; is that correct?
-,	4	A	Correct, right.
e Maria Maria	5	Q	I call your attention to Skelly Exhibit Number 1. Would
e.,	6		you state what that is and what it tends to show?
	7	A	Exhibit Number 1 is a map showing the location of a
	8		proposed injection well and the location of all other wells
	9		within a radius of two miles from the proposed well and
	10		the formation from which wells are producing or have
	11	2	produced.
NEW MEXICO 87103 MEXICO 87108	12	Q	I call your attention to Exhibit Number 2. What does
	13		that show?
	14	A.	Exhibit Number 2 18 a Borehole Compensated Sonic and Gamma
х х х ж х х х х	° 15		Ray Log on the proposed injection well, and existing
U Q U E R Q U E. R R Q U E. N E ¥	16		perforations are indicated on the log.
- BUQU	17	Q	I call your attention to Skelly Exhibit Number 3. Would
243-6601	18		you identify that and tell us what it shows?
LDG. R	. 19	A	Exhibit Number 3 is an analysis of the water which will
1092 A N K	20		be injected, and it indicates it's mineralized to a degree
P.O. BOX	21	19 g. s.	that it's unsuitable for drinking purposes or agricultural
ż	22		or irrigation usage.
SIMMS BLDO 1216 FIRST	23	Q	I call your attention to Skelly Exhibit Number 4. What
209 SIN	24		is that and what does it show?
	25	A	Exhibit Number 4 is a diagrammatic sketch of the proposed

dearniey, meier & associates

			PAGE 6
	1		injaction well showing all casing strings' diameter,
	· · · 2		setting depths, quantities used and tops of cement,
	3		perforated intervals, tubing string diameter and setting
	4	· ·	depth, and type and location of a proposed packer.
	5	Q	All right. This shows the intervals through which you
Ś	б		propose to inject water?
associates	7	A	Yes. We propose to inject water over the intervals as
SOC	s 8		indicated from 4207 to 4418 and 4676 to 4849. Now, we
80 80	· 9		are presently injecting into the lower intervals, but
dearnley, meier &	10		our plans are to set a packer above the upper interval
/ m (11		and inject into both intervals.
rnley 	12	Q	Was this a well previously approved by the Commission
deal	13		as a disposal well for salt water?
	14	A	Yes. It was approved by the Commission for injection into
ב ב שני סר	∑ ≝ 15 Z	N	the lower interval and production from the upper interval.
	ang 16	-	However, it proved to be barren from the upper interval;
6 A 1 C 1 C	17		and subsequently it was equipped to inject or dispose of
249-609	[™] 18		water into the lower interval; and the upper perforations
u ' Z	ຟ ວິ 19 ິ	e Sa	presently are open above the packer.
1082	a ⊻ 20	Q	To your knowledge have the offset operators given their
×	a 21		consent to this water injection pilot plan?
•	22	λ	Yes, they have. We have waivers of objections from the
SIMMS BL	1216 FIRST 1	κ Ι	three offset operators.
209 SIN	24	Q	Which operators are they?
	25	A	It would be Atlantic Richfield, Sun Oil Company, and

	PAGE 7
1	Western States Producing Company.
2	Q And copies of those consents were attached to the
3	application and to the exhibits; is that correct?
4	A Yes, correct.
5	Q Do you have any opinion as to the reason you want to try
6	this pilot waterflood project and the measure of its
7	success?
8	A Yes. It's necessary that we, of course, dispose of our
9	produced water; and as we are all on the South end of
10	a pool, we would like to inject into a possible pay
11	interval and possibly recover some updip oil, because
12	we are structurally low on this well. And, of course,
13	if we are successful, we are considering requesting
· }	administrative approval to extend the flood.
	MR. BLODGET: Skelly moves the admission of Exhibits
	1, 2, 3, and 4.
	MR. NUTTER: Exhibits 1 through 4 will be admitted
	into evidence.
	MR. BLODGET: We have no further questions from this
	witness.
	MR. NUTTER: You had another exhibit attached here.
	Does that one not count?
	MR. BLODGET: That's just decoration. That's just
ŀ	got color on it.

Docket No. 19-73

(Case 5021 continued from page 1)

Lea County, New Mexico. Applicant further seeks the assignment of a special depth bracket allowable for said pool of 604 barrels of oil per day.

CASE 5022:

Application of Skelly Oil Company for an exception to Rule 104, Lea County, New Mexico. Applicant, in the above-styled cause, seeks, as an exception to Rule 104, authority to produce its Mexico "L" Wells Nos. 1 and 23 located less than 330 feet from each other in Unit A of Section 5, Township 25 South, Range 38 East, and its Mexico "J" Wells Nos. 2 and 23 located less than 330 feet from each other in Unit 0 in Section 32, Township 24 South, Range 38 East, and its Mexico "J" Wells Nos. 4 and 17 located less than 330 feet from each other in Unit N of said Section 32, all in the Dollarhide-Fusselman Pool, Lea County, New Mexico, each 40-acre unit being limited to one top unit allowable.

CASE 5023:

Application of Skelly 011 Company for a waterflood project, Roosevelt County, New Mexico. Applicant, in the above-styled cause, seeks authority to institute a pilot waterflood project by the injection of water into the Upper and Lower San Andres formations through perforations in the intervals from 4207 feet to 4418 feet and from 4676 to 4849 feet in its Hobbs "T" Well No. 11 located in Unit P of Section 33, Township 7 South, Range 33 East, Chaveroo-San Andres Pool, Roosevelt County, New Mexico.

CASE 5024:

: Application of Midwest Oil Corporation for a unit agreement, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks approval of the Cottonwood Spring Unit Area comprising 3838 acres, more or less, of federal and fee lands in Township 25 South, Range 26 East, Eddy County, New Mexico.

<u>CASE 5025</u>: Application of The Superior Oil Company for down-hole commingling, Lea County, New Mexico. Applicant, in the above-styled cause, seeks authority to commingle Upper Seven Rivers gas and Lower Seven Rivers oil in the wellbore of its State "12" Well No. 1 located in Unit L of Section 12, Township 21 South, Range 35 East, Eumont Pool, Lea County, New Mexico. Said well was authorized as a gas-oil dual completion in the Eumont Pool by Commission Order DC-142.

CASE 5026:

2: Application of The Superior Oil Company for compulsory pooling, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests in the Morrow, Atoka, Strawn and Canyon formations underlying the N/2 of Section 7, Township 23 South, Range 27 East, South Carlsbad Field, Eddy County, New Mexico. Also to be considered will be the cost of drilling and completing said well and the allocation of such costs, as well as actual operating costs and charges for supervision. Also to be considered is the designation of applicant as operator of the well and a 150 percent charge for risk involved in drilling said well. Examiner Hearing - Wednesday - July 11, 1973

Docket No. 19-73 -3-

CASE 5027: Application of Dalport Oil Corporation for the amendment of Order No. R-4553, Chaves County, New Mexico. Applicant, in the abovestyled cause, seeks the amendment of Order No. R-4553 to provide that the well to be drilled on the proration unit pooled by said order shall be located in Unit G of Section 17, Township 12 South, Range 31 East, Chaves County, New Mexico, rather than Unit J of said Section 17. In the absence of objection, Order No. R-4553 will be amended as above.

CASE 5015: (Continued and Readvertised)

Application of Michael P. Grace II and Corinne Grace for compulsory pooling, Eddy County, New Mexico. Applicants, in the above-styled cause, seek an order pooling all mineral interests down to and including the Pennsylvanian formation underlying Section 16, Township 24 South, Range 26 East, adjacent to the White City-Pennsylvanian Gas Pool, Eddy County, New Mexico, to form a standard 640-acre unit for said pool, to be dedicated to a well to be drilled at an orthodox location for said unit. Also to be considered will be the cost of drilling and completing said well and the allocation of such costs, as well as actual operating costs and charges for supervision. Also to be considered is the designation of applicant as operator of the well and up to 200 percent charge for risk involved in drilling said well.

CASE 5010:

(Continued from the June 27, 1973, Examiner Hearing)

Application of Yates Petroleum Corporation for compulsory pooling, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests down to and including the Pennsylvanian formation underlying the N/2 of Section 18, Township 18 South, Range 26 East adjacent to the West Atoka Morrow Gas Pool, Eddy County, New Mexico, to be dedicated to a well to be drilled 1650 feet from the North line and 660 feet from the West line of said Section 18, the unorthodox location of which was previously approved by Commission Order No. R-4508. Also to be considered will be the cost of drilling and completing said well and the allocation of such costs as well as actual operating costs and charges for supervision. Also to be considered is the designation of applicant as operator of the well and up to 200 percent charge for risk involved in drilling said well.

CASE 5012:

(Continued from the June 27, 1973, Examiner Hearing)

Application of Gandy Construction for an oil treating plant permit, Lea County, New Mexico. Applicant, in the above-styled cause, seeks authority for the construction and operation of an oil treating plant for the purpose of treating and reclaiming sediment oil at a site in the SE/4 of Section 11, or the SW/4 of Section 12, Township 10 South, Range 35 East, Lea County, New Mexico.

BEFORE THE OIL CONSERVATION COMMISSION OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE APPLICATION OF SKELLY) OIL COMPANY FOR A WATERFLOOD PROJECT IN) ROOSEVELT COUNTY, NEW MEXICO)

CASE NO. 5023

APPLICATION

Comes now Skelly Oil Company and alleges and states:

 That it is a Delaware corporation authorized to do business in the state of New Mexico, and that it is operating wells on its Hobbs "T" lease located in portions of Sections 33, 34, and 35, Township 7 South, Range 33 East, Roosevelt County, New Mexico.

2. That the wells on this lease are producing oil from the Chaveroo San Andres Pool and produce substantial quantities of salt water in association with that production and it is necessary that subsurface injection be utilized due to the elimination of surface disposal pits.

3. That Skelly Oil Company drilled its Hobbs "T" Well No. 11, located in Unit "P" of Section 33, Township 7 South, Range 33 East, Roosevelt County, New Mexico and that attempts were made to dually complete the well for oil production from the Upper San Andres and for water disposal in the Lower San Andres. Approval for such dual completion was secured from the New Mexico Oil Conservation Commission (Order No. R-3023). However, attempts to secure an effective oil completion in the Upper San Andres were unsuccessful. The Hobbs "T" No. 11 was singly completed for water disposal with a 2-7/8" O.D. string of internally plastic coated tubing set in a packer at 4,644'.

4. That Applicant seeks permission to institute a pilot waterflood project in the Chaveroo San Andres Pool by the injection of water into the San Andres formation through its Hobbs "T" Well No. 11, located in Section 33, Township 7 South, Range 33 East, Roosevelt County, New Mexico. The wells in the project area are in an advanced state of depletion.

5. That the proposed pilot waterflood project would result in the recovery of otherwise unrecoverable oil, thereby preventing waste.

6. That based on performance and information gained from injection into the aforementioned Hobbs "T" Well No. 11, Applicant may request administrative approval to expand the project and to convert additional wells to water injection.

7. That attached hereto and made a part hereof is Exhibit "A", a map showing the location of the proposed injection well and the location of all other wells within a radius of two miles from the proposed injection well and the formation from which wells are producing or have produced.

8. That attached hereto and made a part hereof is Exhibit "B", a log of the proposed injection well.

9. That attached hereto and made a part hereof is Exhibit "C", a current analysis of the water which will be injected.

10. That attached hereto and made a part hereof is Exhibit "D", a diagrammatic sketch of the proposed injection well showing all casing strings, including diameters and setting depths; quartities used and tops of cement; perforated interval; tubing string, including diameter and setting depth; and the type and location of packers.

11. That the interval into which injection will be made is the Chaveroo San Andres Pool, approximately 4,523' below surface thru perforations over the intervals 4,207'-4,418' and 4,676'-4,849', and that the water will be produced water from Skelly Oil Company's Hobbs "T" lease and from other wells in the immediate area, and that initial injection volumes will be between 200-300 barrels of water per day, with an anticipated maximum pressure of 1,500 psi. The casing tubing annulus will be loaded with an inhibited fluid and equipped , with a pressure gauge to facilitate detection of leakage in the casing, tubing, or packer.

12. Attached hereto and made a part hereof are waivers of objection from all operators offsetting the proposed injection well.

WHEREFORE, PREMISES CONSIDERED, Applicant requests that the Commission set this matter down for hearing, that notice hereof be given as required by law, and that at the conclusion of said hearing based on the evidence adduced, the Commission enter its order granting Skelly Oil Company permission to conduct a waterflood project in the Chaveron for Andres Real through intertion in its Uphba "M" Well No Chaveroo San Andres Pool through injection in its Hobbs "T" Well No. Chaveroo San Andres Pool through injection in its Hobbs "T" Well No. 11, located in Unit "P" of Section 33, Township 7 South, Range 33 East, Roosevelt County, New Mexico, and to further provide for administrative expansion of the project area and the conversion of additional wells by administrative means without the necessity of separate hearings, and for such other orders, rules, and regulations as may be necessary in the premises.

BEFORE THE OIL CONSERVATION COMMISSION OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION COMMISSION OF NEW MEXICO FOR THE PURPOSE OF CONSIDERING:

APPLICATION OF SKELLY OIL COMPANY FOR A WATERFLOOD PROJECT, ROOSEVELC COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on July 11, 1973, at Santa Fe, New Mexico, before Examiner Daniel S. Nutter.

CASE NO.

Order No. R-

5023

NOW, on this ______ day of _____, 1973, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Skelly Oil Company, seeks authority to institute a waterflood project <u>in the On its Hobbs "T"Lease</u>, Unit Appen, Chaveroo-San Andres Pool, by the injection of water into the Upper and Lower San Andres formations through perforations in the intervals from 4207 feet to 4418 feet and from 4676 to 4849 feet in its Hobbs "T" Well No. 11 located in Unit P of Section 33, Township 7 South, Range 33 East, Chaveroo-San Andres Pool, Roosevelt County, New Mexico.

(3) That the well in the project area is in an advanced state of depletion and should properly be classified as a "stripper" well.

(4) That the proposed waterflood project should result in the recovery of otherwise unrecoverable oil, thereby preventing waste.

(5) That the subject application should be approved and the project should be governed by the provisions of Rules 701, 702, and 703 of the Commission Rules and Regulations.

-2-Case No. 5023 Order No. R-

IT IS THEREFORE ORDERED:

(1) That the applicant, Skelly Oil Company, is hereby authorized to institute a waterflood project in the onits Hobbs "T" Genue, Unit Area, Chaveroo-San Andres Pool, by the injection of water into the Upper and Lower San Andres formations through perforations in the intervals from 4207 feet to 4418 feet and from 4676 to 4849 feet in its Hobbs "T" Well No. 11 located in Unit P of Section 33, Township 7 South, Range 33 East, NMPM, Chaveroo-San Andres Pool, Roosevelt County, New Mexico

(2) That the subject waterflood project is hereby designated the <u>Skelly Hobbs "T" Chaveroo</u> Waterflood Project and shall be governed by the provisions of Rules 701, 702, and 703 of the Commission Rules and Regulations.

(3) That monthly progress reports of the waterflood project herein authorized shall be submitted to the Commission in accordance with Rules 704 and 1120 of the Commission Rules and Regulations.
(5) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary. DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

STATE OF NEW MEXICO

OIL CONSERVATION COMMISSION (4) That Commission Order No. R-3023, which anthorized the dual completion of the aforesaid Hobbs "T" WEII No 11 ho produce of the from the Chaveroo Son Andres Pool and to dispose of produced saltwater into the Lower Son Andres Pormation, is hereby super-
