TRANSCRIPT OF HEARING

MR. MACEY: The next case on the docket is Case 924.

S. J. STANLEY,

called as a witness, having been first duly sworn, testified as follows:

DIRECT EXAMINATION

By MR. KITTS:

Q Will you state your name and position, please?

A S. J. Stanley, Engineer for the Oil Conservation Commission.

Q Mr. Stanley, you have, I believe, made a study of Case 924 and have certain recommendations to make?

A Yes, sir, I recommend that the extensions of pools as advertised be adopted. The purpose for these extensions are entered on Exhibits, and in order to save time I would prefer not to enter such explanations into the record, unless specified to do so by the

Commission or the operator, or operators involved. However, I have other recommendations that are not advertised, which are contiguous to the pools named, and to the existing pools, and that I will explain and enter into the record verbally the recommendation of these extensions. Such extensions and such verbal extensions are also entered upon the exhibits which I plan to introduce.

Q Just a moment. You have prepared certain exhibits, have you?

A Yes, sir, I have.

Q Each one corresponding to paragraphs (a), (b), (c) through (h)?

A Yes, sir, and I have some exceptions.

Q In that event I think we had better go through them.

(Marked Commission's Exhibits (a) through (h), for identification.)

Q Do you have in each case, each of your exhibits, the basis for the recommendation listed there?

A Yes, the discovery well--We have no discovery wells, no discovery pools at this particular time. We do have extensions to existing pools.

Q These verbal extensions that you speak of, Mr. Stanley, is all that acreage contiguous to existing pools?

A Yes, sir, they are contiguous to existing pools and I would verbally give the reason for such extensions.

Q Proceed, Mr. Stanley.

A In the Arrow pool, in addition to the advertised extension I recommend that the southwest quarter of Section 24, Township 21 South, Range 36 East be included along with the advertised extension. The purpose of this inclusion is for acreage for gas proration unit

purposes for the Gulf Mattern A No. 1 Well, located in the southwest quarter of Section 24, Township 21 South, Range 36 East.

In the Eumont case, in addition to the advertised extension, I recommend that the entire Section of 25, Township 21 South, Range 35 East be incorporated to include the Britt and Schiff Superior State No. 1 in Unit K of Section 25, Township 21 South, Range 35 East be completed. Completed in Seven Rivers with the top of the perforations at 3,884 and a half feet. In addition to the advertised section of the Eumont extension, I also recommend that the southeast quarter of Section 22 be incorporated to include the Gulf-Leonard A No. 3 in Unit B, a proposed 320 acre unit in Section 22, Township 21 South, Range 36 East. In the --

MR. MACEY: Pardon me, come again on the last one.

A I recommend that in Case 924, Paragraph (d), an extension to the Eumont Gas Pool, that the southeast quarter of Section 22, Township 21 South, Range 36 East, be incorporated to include a proposed unit of the Gulf-Leonard A No. 3 in Unit B, a proposed 320 acre unit in Case 920 of Section 22, Township 21 South, Range 36 East.

In addition to the advertised extension of the Jalmat Pool, I recommend that the west half of Section 13, the northwest quarter of Section 24, the south half of Section 24 be included to include two wells drilled by J. R. Kone. They are the Nix- State No. 2 in Unit C and the Nix-State No. 3 in Unit K. The No. 2 Well is in Section 24, Township 22 South, Range 35 East; and the No. 3 Well is in Unit K, Section 13, Township 22 South, Range 35 East. Both wells are completed in the Jalmat Pool and both wells indicate that there is in the future, potentially a gas producing area.

In addition to the advertised section of the Jalmat Pool, I wish

to incorporate the northwest quarter of Section 19 and the south half of Section 19 in Township 22 South, Range 36 East. The purpose of such extension is to provide for contiguous acreage in the proposed extension in Township 22 South, Range 35 East. I believe that the recommended extension in this particular area is productive of gas.

That is all I have.

Q Mr. Stanley, have you numbered or lettered your Exhibits?

A Yes, sir, I have numbered or lettered them in accordance with the advertised extensions.

Q They are Exhibits (a) through (h) inclusive?

A Yes, sir, they are.

Q Have you prepared those?

A Yes, sir, they were prepared under my direction.

MR. KITTS: We offer Exhibits (a) through (h).

MR. MACEY: Without objection they will be received. Any questions of the witness? If not the witness may be excused.

(Witness excused.)

MR. MACEY: We will take the case under advisement.
