1 (Mr. Dickerson continuing.) Mr. Beck, are 2 you familiar with the application of Yates Petroleum Corporation for an unorthodox location before the Commission today? 3 Yes, I am. A. Will you describe the purpose of this ap-Q. 6 plication? 7 Yes. In Case 6693 Yates Petroleum requests A. 8 approval of the unorthodox gas well location of its proposed 9 No. 1 Goatroper LP, to be drilled 1130 from the south line 10 and 1300 feet from the east line of Section 30, Township 17 11 South, Range 26 East; the south half of Section 30 would be 12 dedicated to the well. 13 Will you please refer to what is marked Q. 14 Exhibit Number One and describe what that depicts? 15 Exhibit Number One is a land plat showing A. 16 the proposed location and its relationship to the surrounding 17 acreage. Yellow denotes acreage in which Yates has an inter-18 est. 19 And what does the red signify? Q. 20 The proration unit. A. 21 And what's the circle? Q.

ALTON BOY

22

23

24

25

A. That's the location of the well,

Q Please refer to what is marked Exhibit

Number Two and describe that exhibit.

Exhibit Number Two is an Isopachous map

showing the thickness of the Morrow Clastics in the area surrounding the proposed location.

Near the subcrop of the Morrow wells locate on or close to the axes of Morrow Clastics "thicks" are more likely to encounter economically gas productive, linear, narrow Morrow channel reservoirs.

Yates requests approval to drill the proposed non-standard location where we now believe the axis of a Morrow Clastics "thick" crosses the south half of Section 30.

Q. Okay, please refer to what is marked Exhibit Number Three and describe what that reflects.

A. Exhibit Number Three is a west to east cross section going through the proposed location and showing the pertinent correlation and the depth dimension relative to Exhibit Two.

For example, the third well from the left, the Yates Jackson EM, crosses a "thick" and in that there is a large 60-foot thick active channel of the Morrow system, which has produced about 4.7 billion cubic feet, and thereby "thins" are not productive in the Morrow.

Q. Mr. Beck, were these exhibits prepared by you or under your direction?

Yes, they were.

A.

MR. DICKERSON: We move the admission of

STATE OF NEW MEXICO ENERGY AND MINERALS DEPARTMENT OIL CONSERVATION DIVISION

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION DIVISION FOR THE PURPOSE OF CONSIDERING:

> CASE NO. 6693 Order No. R-6166

APPLICATION OF YATES PETROLEUM CORPORATION FOR AN UNORTHODOX GAS WELL LOCATION, EDDY COUNTY, NEW MEXICO.

ORDER OF THE DIVISION

BY THE DIVISION:

This cause came on for hearing at 9 a.m. on October 17, 1979, at Santa Fe, New Mexico, before Examiner Daniel S. Nutter.

NOW, on this <u>2nd</u> day of November, 1979, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

State of the state

(1) That due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Yates Petroleum Corporation, seeks approval of an unorthodox gas well location 1130 feet from the South line and 1300 feet from the East line of Section 30, Township 17 South, Range 26 East, NMPM, to test the Morrow formation, Eddy County, New Mexico.

(3) That the S/2 of said Section 30 is to be dedicated to the well.

(4) That a well at said unorthodox location will better enable applicant to produce the gas underlying the proration unit.

(5) That no offset operator objected to the proposed unorthodox location. -2-Case No. 6693 Order No. R-6166

(6) That approval of the subject application will afford the applicant the opportunity to produce its just and equitable share of the gas in the subject pool, will prevent the economic loss caused by the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That an unorthodox gas well location for the Morrow formation is hereby approved Yates Petroleum Corporation for a well to be drilled at a point 1130 feet from the South line and 1300 feet from the East line of Section 30, Township 17 South, Range 26 East, NMPM, Eddy County, New Mexico.

(2) That the S/2 of said Section 30 shall be dedicated to the above-described well.

(3) That jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

fd/

Dockets Nos. 41-79 and 42-79 are tentatively set for October 31 and November 14, 1979. Applications for hearing must be filed at least 22 days in advance of hearing date.

DOCKET: EXAMINER HEARING - WEDNESDAY - OCTOBER 17, 1979

9 A.M. - OIL CONSERVATION DIVISION CONFERENCE ROOM, STATE LAND OFFICE BUILDING, SANTA FE, NEW MEXICO

The following cases will be heard before Daniel S. Nutter, Examiner, or Richard L. Stamets, Alternate Examiner:

- ALLOWABLE: (1) Consideration of the allowable production of gas for November, 1979, from fifteen prorated pools in Lea, Eddy, and Chaves Counties, New Mexico.
 - Consideration of the allowable production of gas for November, 1979, from four prorated (2) pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico.

CASE 6693:

•

Application of Yates Petroleum Corporation for an unorthodox gas well location, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks approval for the unorthodox location of a Pennsylvanian test well to be located 1130 feet from the South line and 1300 feet from the East line of Section 30, Township 17 South, Range 26 East, the S/2 of said Section 30 to be dedicated to the well.

CASE 6694: Application of Yates Petroleum Corporation for compulsory pooling, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests in the Wolfcamp-Pennsylvanian formations underlying the S/2 of Section 35, Township 18 South, Range 25 East, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision. Also to be considered will be the designation of applicant as operator of the well and a charge for risk involved in drilling said well.

- Application of Millard Deck Oil Company for a non-standard gas proration unit, Lea County, New CASE 6695: Mexico. Applicant, in the above-styled cause, seeks approval of an 80-acre non-standard gas prora-tion unit comprising the NE/4 NW/4 and NW/4 NE/4 of Section 36, Township 24 South, Range 36 East, Jalmat Gas Pool, to be dedicated to a well to be drilled at a standard location thereon.
- Application of R. Q. Silverthorne for an unorthodox oil well location, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks approval for the unorthodox location of a Yates test CASE 6696: well to be drilled 1310 feet from the South and West lines of Section 30, Township 18 South, Range 31 East, Shugart Pool.
- Application of Conoco Inc. for an unorthodox location and dual completion, Lea County, New Mexico. CASE 6697: Applicant, in the above-styled cause, seeks approval for the dual completion of its Wells B-1 Well No. 5 at an unorthodox Devonian location 1650 feet from the North line and 660 feet from the East line of Section 1, Township 25 South, Range 36 East, to produce gas from the Devonian and Ellen-burger formations, Custer Field, thru parallel strings of tubing, the E/2 of said Section 1 to be dedicated to the well.

CASE 6671: (Continued from October 2, 1979, Examiner Hearing)

Application of Chapman and Schneider for salt water disposal, Lea County, New Mexico. Applicant, in the above-styled cause, seeks authority to dispose of produced salt water in the Seven Rivers Reef formation in the open-hole interval from 3422 feet to 3504 feet in its I. B. Ogg "A" Well No. 3 located in Unit E of Section 35, Township 24 South, Range 36 East, Jalmat Pool.

- Application of Stevens Oil Company for compulsory pooling, Chaves County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests in the San Andres formation underlying the NE/4 SW/4 of Section 30, Township 8 South, Range 29 East, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision. Also to be considered will be the designation of considered to a well to be drilled at a standard for rick involved in drilling cost of a standard of the cost of the well and the allocation of the cost thereof as well as CASE 6698: of applicant as operator of the well and a charge for risk involved in drilling said well.
- CASE 6699: Application of Robert C. Anderson for two unorthodox gas well locations, San Juan County, New Mexico. Applicant, in the above-styled cause, seeks approval for the unorthodox location of his Ute Mountain Ute Well No. 1 located in the center of Unit L, and Well No. 3, located 2310 feet from the North and West lines, both in Section 14, Township 31 North, Range 16 West, the SW/4 of said Section 14 to be dedicated to Well No. 1 and the NW/4 to be dedicated to Well No. 3.

BEFORE THE OIL CONSERVATION DIVISION

OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE APPLICATION OF YATES PETROLEUM CORPORATION FOR AN UNORTHODOX GAS WELL LOCATION, EDDY COUNTY, NEW MEXICO

CASE NO. 6693

APPLICATION

COMES NOW Yates Petroleum Corporation, by its attorneys, and in support hereof, respectfully states:

1. Applicant is the operator of the Pennsylvanian formation underlying:

Township 17 South, Range 26 East, N.M.P.M.

Section 30: S/2

and proposes to drill its Goat Roper "LP" Com. No. 1 Well at a point located 1,130 feet from the South line and 1,300 feet from the East line of said Section 30.

2. The applicant seeks an exception to the well location requirements of Rule 104-C.2(a) of the Oil Conservation Division to permit the drilling of the well at the above mentioned unorthodox location to a depth sufficient to adequately test the Pennsylvanian formation.

3. A standard 320-acre gas proration unit comprising the S/2 of said Section 30 should be dedicated to such well or to such lesser portion thereof as is reasonably shown to be reasonably productive of gas.

4. The approval of this application will afford applicant the opportunity to produce its just and equitable share of gas, will prevent economic loss caused by the drilling

of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.

WHEREFORE, applicant prays:

A. That this application be set for hearing before an examiner and that notice of said hearing be given as required by law.

B. That upon hearing the Division enter its order granting applicant permission to drill a well 1,130 feet from the South line and 1,300 feet from the East line of said Section 30 and to dedicate the S/2 of Section 30, which is reasonably presumed to be productive of gas from the Pennsylvanian formation.
C. And for such other relief as may be just in the premises.

DRAFT

STATE OF NEW MEXICO ENERGY AND MINERALS DEPARTMENT OIL CONSERVATION DIVISION

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION DIVISION FOR THE PURPOSE OF CONSIDERING:

CASE NO. 6693 ORDER NO. R- 6166 APPLICATION OF Mates Petroleum Consoration FOR AN UNORTHODOX GAS WELL LOCATION,

Eddy COUNTY, NEW MEXICO.

ORDER OF THE DIVISION

BY THE DIVISION:

This cause came on for hearing at 9 a.m. on <u>Upber 17</u>, 19____, at Santa Fe, New Mexico, before Examiner <u>BSN</u> NOW, on this <u>day of <u>Object</u>, 1979</u>, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Mater Patroleum Consoration.
seeks approval of an unorthodox gas well location
feet from the South line and 1300 feet from the
East line of Section 30, Township 17 South
Range 26 East, NMPM, to test the Mourow
formation, <u>Pool</u> , <u>Eddy</u>
County, New Mexico.

(3) That the $\frac{5/2}{2}$ of said Section $\frac{30}{30}$ is to be dedicated to the well.

(4) That a well at said unorthodox location will better enable applicant to produce the gas underlying the proration unit.

(5) That no offset operator objected to the proposed unorthodox location.

-2-Case No. <u>4693</u> Order No. R-____

(6) That approval of the subject application will afford the applicant the opportunity to produce its just and equitable share of the gas in the subject pool, will prevent the economic loss caused by the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That an unorthodox gas well location for the <i>Morrow</i>					
(1) That an unorthodox gas well location for the <u>Morrow</u> <i>fals Pitteline Confersion billed</i> formation is hereby approved for a well to be located at a point <u>1130</u>					
feet from the South line and 1300 feet from the East					
line of Section 30, Township 17 South, Range 26 East					
NMPM, County,					
New Mexico.					

(2) That the 5/2 of said Section 30 shall be dedicated to the above-described well.

(3) That jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
