IN THE MATTER OF THE APPLICATION
OF MESA PETROLEUM CO. FOR AN
ORDER AUTHORIZING DOWN-HOLE
COMMINGLING OF GAS, SAN JUAN
COUNTY, NEW MEXICO.

CASE 2037

APPLICATION

Comes now MESA PETROLEUM CO. (hereinafter referred to as Mesa), a Delaware corporation, with its principal office at One Mesa Square, Post Office Box 2009, Amarillo, Texas, 79189, and respectfully requests the Oil Conservation Commission of the New Mexico Energy and Minerals Department (Hereinafter referred to as the Commission) to grant an order authorizing and permitting Mesa to commingle gas downhole in the State Com AF28E, and in support thereof would show the following:

State Com AF #28 I 36

1. On the 29th day of August, 1979, the Commission granted Mesa, as operator, a permit to drill a well 1,460 feet from the south line and 1,100 feet from the east line of Section 36, Township 29 North, Range 10 West, San Juan County, New Mexico. The E/2 of Section 36 was dedicated to the well. Subsequently, the Commission extended the permit through August 23, 1980.
2. Pursuant to the permit granted Mesa by the Commission, Mesa commenced upon the drilling of such well with the intent to test the Mesaverde and Dakota zones. The well has now reached total projected depth and 5-1/2" casing has been set at 6,638 feet.

3. Electric log analysis indicates prospective gas production not only from the Dakota and Mesaverde zones, but also from the Chacra zone. The potential of the Chacra zone is anticipated to be small, not economically justifying the drilling of a single zone completion. In Mesa's judgment, a triple completion is mechanically undesirable in this well due to the 5-1/2" casing, and therefore seeks to commingle downhole the gas production from the Chacra and Mesaverde zones. At this time, no completion operations have been commenced.

4. The State of New Mexico owns all minerals underlying Section 36, Township 29 North, Range 10 West, San Juan County, New Mexico.

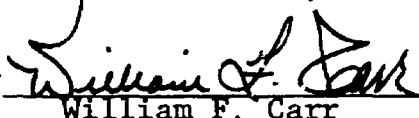

5. The granting of this Application will protect correlative rights and provide for maximum efficient recovery of hydrocarbons, thereby preventing waste.

WHEREFORE, PREMISES CONSIDERED, Mesa requests that the Commission issue an order authorizing and permitting Mesa to commingle down hole the gas production from the Mesaverde and Chacra zones in its State Com AF28E well, and for such other and further relief as it is entitled.
