Good morning Victoria,

That's wonderful, and Thank you! My final two questions for you are if we can upload the C-147 for a New Permit at this same location now, or if we need to wait till we've received the approved closure before submitting it? The second question is what the timeline for approving the closures are typically? Thank you again for all your help with this and answering all my questions. It is much appreciated!

Thank you,

Mindy Paulek

Good afternoon,

Unfortunately, we do not have any Closure Report for 3RF-42 - W Escavada Unit 300H in our records. I can't confirm that we never received it, my apologies for that. However, we received the closure report for 3RF-42 via OCD.online and it will be reviewed as soon as possible.

Thank you,

Subject: RE: Enduring's Recycling Containments

Good morning,

We have found record of a Closure Permit Package completed for the WEU 300H (3RF-42) on 08/20/2019 in Enduring's records. However, it looks like it was either never submitted to the NMOCDD, or it was submitted and never approved. Do you know, or do you have any record of a Closure Permit being submitted and maybe being deficient in some way? Our plan is to submit the Closure Permit that was prepared on 8/20/2019 now, under the assumption that it was just never submitted. However, I wanted to check with you in the event that it was but was lacking in some way. I apologize for much of the confusion. Most of the staff that dealt with these permits are no longer with Enduring, so we are just trying to piece everything together. Thank you again for your help and patience.

Thank you,

Mindy Paulek

Good afternoon Victoria,

I did have another quick question for you. Once you receive a complete permit packet, approximately how long does it take to receive the approval?

Thank you,

Mindy Paulek

Good morning Ms. Paulek,
3RF-42 - W Escavada Unit 300H: NMOCD has not received or approved a closure report for this facility. Please submit the closure report and the supporting documentation as per 19.15.34.14. Once the closure report is approved, Enduring Resources must apply for a new permit.
3RF-44 - Rodeo 511H Facility was closed on 10/07/2019. Enduring Resources needs to apply for a new permit.
Please, email me any additional questions or concerns.
Thank you,

Subject: Enduring's Recycling Containments

Hello Cory,

Enduring Resources has contracted EIS to assist in permitting Recycling Containments for two AST's (Aboveground Surface Tanks) at two different locations. The two locations have already had Recycling Facilities and Recycling Containments permitted at them in the past by Enduring, but these containments have since ceased operations and been closed. The two locations are Enduring's WEU 300H (NMOCD Permit #3RF-42) and Rodeo Unit 511H (NMOCD Permit #3RF-44). Presently, they would like to set (1) 60,000 bbl. AST and (1) 50,000 bbl. AST on the WEU 300H and then move the same two tanks to the Rodeo Unit 511H. My question for you is how best to "re-permit" these containments with you. Would you prefer we apply for all new permits at the same locations? Or would we file an extension for the old permits? Enduring will be using the same tanks and operation as they use before.

Thank you,

Mindy Paulek
